2023 Amendment: See 2023 Session Law for amendment made by sec. 9, Ch. 701, L. 2023. Amendment effective January 1, 2024.

Applicability: Section 12, Ch. 701, L. 2023, provided that this section applies to tax years beginning after December 31, 2023.

15-63-202. Tax exemption — conditions. (1) Except as provided in this section, the amount of principal provided for in subsection (2) contributed prior to January 1, 2024, by an account holder to an account and all interest or other income on the principal that was contributed prior to January 1, 2024, may be excluded from Montana taxable income of the account holder and is exempt from taxation, in accordance with 15-30-2120, as long as the principal and interest or other income is contained within the account or withdrawn only for eligible costs for the purchase of a single-family residence by a first-time home buyer. Any part of the principal or income, or both, withdrawn from an account may not be excluded under subsection (2) and this subsection if the amount is withdrawn from the account and used for a purpose other than for eligible costs for the purchase of a single-family residence.

(2) For contributions to principal that were made prior to January 1, 2024, there is no limitation on the amount of principal and interest or other income on the principal that may be retained tax-free within an account.

(3) The account holder who establishes the account, individually or jointly, is the owner of the account. An account holder may withdraw money in an account and deposit the money in another account with a different account administrator or with the same account administrator without incurring tax liability.

(4) The account holder shall use the money in the account for the eligible costs related to the purchase of a single-family residence within 10 years following the year in which the account was established. Any principal and income in the account not expended on eligible costs at the time of purchase of a single-family residence or any principal or income remaining in the account on December 31 of the last year of the 10-year period must be taxed as ordinary income.

(5) The amount of a disbursement of any assets of a first-time home buyer savings account pursuant to a filing for protection under the United States Bankruptcy Code, 11 U.S.C. 101 through 1330, by an account holder does not subject the account holder to tax liability.

(6) Within 30 days of being furnished proof of the death of the account holder, the account administrator shall distribute the principal and accumulated interest or other income in the account to the estate of the account holder or to a designated pay-on-death beneficiary as provided in 72-6-223.

History: En. Sec. 4, Ch. 544, L. 1997; amd. Sec. 3, Ch. 429, L. 1999; amd. Sec. 41, Ch. 503, L. 2021.

15-63-203. Withdrawal of funds from account for purposes other than eligible costs for first-time home purchase. (1) An account holder may withdraw money from the first-time home buyer's savings account for any purpose other than eligible costs for the first-time purchase of a single-family residence only on the last business day of the account administrator's business year. Money withdrawn from an account pursuant to this subsection must be taxed as ordinary income of the account holder.

(2) If the account holder withdraws money from the account other than for eligible costs for the purchase of a single-family residence or other than on the last business day of the account administrator's business year, the account administrator shall withhold from the amount of the withdrawal and, on behalf of the account holder, pay as a penalty to the department an amount equal to 10% of the amount of the withdrawal. Payments made to the department pursuant to this section must be deposited in the general fund. Money withdrawn from an account pursuant to this subsection must be taxed as ordinary income of the account holder.

(3) For the purposes of this section, "last business day of the account administrator's business year", as applied to an account administrator who is also the account holder, means the last weekday in December.

History: En. Sec. 5, Ch. 544, L. 1997.

15-63-204. Administration of account. (1) An account administrator shall administer the first-time home buyer savings account from which the payment of eligible costs for the purchase of a single-family residence is made and has a fiduciary duty to the person for whose benefit the account is administered. Except for reporting and remitting of penalties to the department, a financial institution shall administer a first-time home buyer's savings account as a regular deposit. A financial institution is not responsible for the use or applications of funds.

(2) Within 30 days after an account administrator begins to administer an account, the account administrator shall notify in writing each account holder on whose behalf the account administrator administers an account of the date of the last business day of the account administrator's business year.

(3) An account administrator may use funds held in a first-time home buyer savings account only for the purpose of paying the eligible costs of the account holder or paying the expenses of administering the account.

(4) The account holder may submit documentation of eligible costs paid by the account holder in the tax year to the account administrator, and the account administrator shall reimburse the account holder from the account holder's account for eligible costs for the first-time purchase of a single-family residence. The burden of proving that a withdrawal from a first-time home buyer's savings account was made for eligible costs is upon the account holder and not upon the account administrator.

(5) In the case of an account administrator who is also the account holder:

(a) notice by the account administrator to the account holder pursuant to subsection (2) is not required;

(b) the account administrator may not use funds held in an account to pay expenses of administering the account, except that a service fee may be deducted from the account by a financial institution or other holder of the account;

(c) documentation of the segregation of funds in separate accounts and documentation of eligible costs for the purchase of a single-family residence must be maintained but is not required to be submitted to the account administrator;

(d) the account administrator shall file reports as reasonably required by the department; and

(e) the account holder is required to forward the 10% penalty on funds withdrawn for other than eligible costs to the department.

History: En. Sec. 6, Ch. 544, L. 1997; amd. Sec. 4, Ch. 429, L. 1999.

15-63-205. False claims prohibited. A person who knowingly prepares or causes to be prepared a false claim, receipt, statement, or billing to justify the withdrawal of money from an account is subject to the provisions of 15-61-205.

History: En. Sec. 7, Ch. 544, L. 1997.

(2) For an adult use-dispensary, there is a 20% tax on the retail price of marijuana, marijuana products, and live marijuana plants.

(3) The taxes set forth in subsections (1) and (2) are imposed on the purchaser and must be collected at the time of the sale and paid by the seller to the department for deposit in the marijuana state special revenue account provided for in 16-12-111.

(4) A dispensary licensed under Title 16, chapter 12, shall submit a quarterly report to the department listing the total dollar amount of sales. The report must be:

(a) the officer of a corporation whose responsibility it is to truthfully account for and pay to the state taxes provided for in 15-64-103 through 15-64-106 and who fails to pay the taxes is liable to the state for the taxes and the penalty and interest due on the amounts;

(10) In the case of a bankruptcy, the liability of the individual remains unaffected by the discharge of penalty and interest against the corporation. The individual remains liable for any statements and the amount of taxes, penalties, and interest unpaid by the entity.

Part 2
Collection of Fee

15-67-201. *(Temporary)* **Reporting, collection, and deposit of fee.** (1) An intermediate care facility shall report to the department, following the end of each calendar quarter, the facility's quarterly revenue and the number of resident bed days in the facility during the quarter. The report, in a form prescribed by the department, is due on or before the last day of the month following the close of each calendar quarter. The report must be accompanied by a payment in an amount equal to the utilization fee required to be paid under 15-67-102. The department shall deposit the utilization fee pursuant to 15-67-102(3).

(2) At the end of each calendar quarter, the department of public health and human services shall provide the department with a list of intermediate care facilities. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: **En. Sec. 3, Ch. 531, L. 2003.**

15-67-202. *(Temporary)* **Audit — records.** (1) The department may audit the records and other documents of any intermediate care facility to ensure that the proper utilization fee has been paid.

(2) The department may require an intermediate care facility to provide records and other documentation, including books, ledgers, and registers, necessary for the department to verify that the proper amount of the utilization fee has been paid.

(3) An intermediate care facility shall maintain and make available for inspection by the department sufficient records and other documentation to demonstrate the number of resident bed days in the facility. The facility shall maintain these records for a period of at least 5 years from the date a report is due. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: **En. Sec. 4, Ch. 531, L. 2003.**

15-67-203. *(Temporary)* **Statute of limitations.** (1) Except as otherwise provided in this section, a deficiency may not be assessed or collected with respect to the quarter for which a report is filed unless the notice of additional utilization fee proposed to be assessed is mailed within 5 years from the date the report was filed. For the purposes of this section, a report filed before the last day prescribed for filing is considered filed on the last day. If, before the expiration of the period prescribed for assessment of the utilization fee, the intermediate care facility consents in writing to an assessment after the 5-year period, the utilization fee may be assessed at any time prior to the expiration of the period agreed upon.

(2) A refund or credit may not be paid or allowed with respect to the calendar quarter for which a report is filed after 5 years from the last day prescribed for filing the report or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the intermediate care facility files a claim or the department has determined the existence of the overpayment and has approved the refund or credit. If the intermediate care facility has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit is filed or a credit or refund is allowed in the event a claim is filed is automatically extended. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 5, Ch. 531, L. 2003.

15-67-204. *(Temporary)* **Penalty and interest for delinquent fee.** If the fee for any intermediate care facility is not paid on or before the due date of the report as provided in 15-67-201, penalty and interest, as provided in 15-1-216, must be added to the fee. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 6, Ch. 531, L. 2003.

15-67-205. *(Temporary)* **Estimated fee on failure to file.** (1) For the purpose of ascertaining the correctness of any report or for the purpose of making an estimate of resident bed day use of any intermediate care facility about which information has been obtained, the department may:

(a) examine or cause to have examined by any designated agent or representative any books, papers, records, or memoranda bearing upon the matters required to be included in the report;

(b) require the attendance of any officer or employee of the facility rendering the report or the attendance of any other person in the premises having relevant knowledge; and

(c) take testimony and require production of any other material for its information.

(2) Based on the information provided for in subsection (1), the department shall calculate a fee to be imposed on a facility and shall notify the facility of the amount of the fee pursuant to 15-67-206. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 7, Ch. 531, L. 2003.

15-67-206. *(Temporary)* **Deficiency assessment — penalty and interest — hearing.** (1) If the department determines that the amount of fees due is greater than the amount disclosed by the report, it shall mail to the intermediate care facility a notice of the additional fees proposed to be assessed. Within 30 days after the mailing of the notice, the intermediate care facility may file with the department a written protest against the proposed additional fees, setting forth the grounds upon which the protest is based, and may request in its protest an oral hearing or an opportunity to present additional evidence relating to its fee liability. If a protest is not filed, the amount of the additional fees proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department shall reconsider the proposed assessment and, if the intermediate care facility has requested it, shall grant the intermediate care facility an oral hearing. After consideration of the protest and the evidence presented at an oral hearing, the department's action upon the protest is final when it mails notice of its action to the intermediate care facility.

(2) When a deficiency is determined and the fees become final, the department shall mail notice and demand to the intermediate care facility. Penalty and interest must be added to any deficiency assessment and accrues from the date specified in 15-67-201 for payment of the fees.

A certificate by the department of the mailing of the notices specified in this section is prima facie evidence of the computation and levy of the deficiency in the fees and of the giving of the notices. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 8, Ch. 531, L. 2003; amd. Sec. 37, Ch. 594, L. 2005.

15-67-207. *(Temporary)* **Closing agreements.** (1) The director of the department or any person authorized in writing by the director may enter into an agreement with any intermediate care facility relating to the liability of the intermediate care facility with respect to the fees imposed by this chapter for any period.

(2) An agreement under this section is final and conclusive, and except upon a showing of fraud, malfeasance, or misrepresentation of a material fact:

(a) the agreement may not be reopened or modified as to matters agreed upon by any officer, employee, or agent of this state; and

(b) in any suit, action, or proceeding under the agreement or any determination, assessment, collection, payment, abatement, refund, or credit made in accordance with the agreement, the agreement may not be annulled, modified, set aside, or disregarded. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 9, Ch. 531, L. 2003.

15-67-208. *(Temporary)* **Credit for overpayment — interest.** (1) If the department determines that the amount of fees, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment must be credited against any fees, penalty, or interest then due from the intermediate care facility and the balance must be refunded to the intermediate care facility or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest is allowed on overpayments at the same rate as is charged on unpaid taxes, as provided in 15-1-216, from the due date of the report or from the date of overpayment, whichever date is later, to the date the department approves refunding or crediting of the overpayment. Interest does not accrue during any period in which the processing of a claim for refund is delayed more than 30 days by reason of failure of the intermediate care facility to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(3) Interest is not allowed:

(a) if the overpayment is refunded within 6 months from the date the report is due or from the date the return is filed, whichever is later; or

(b) if the amount of interest is less than $5.

(4) A payment not made incident to a discharge of actual utilization fee liability or a payment reasonably assumed to be imposed by this chapter is not considered an overpayment with respect to which interest is allowable. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

History: En. Sec. 10, Ch. 531, L. 2003.

15-67-209. *(Temporary)* **Warrant for distraint.** If the utilization fee is not paid when due, the department may issue a warrant for distraint as provided in Title 15, chapter 1, part 7. *(Void on occurrence of contingency—sec. 17, Ch. 531, L. 2003—see chapter compiler's comment.)*

2023 Amendment: See 2023 Session Law for amendment made by sec. 4, Ch. 758, L. 2023. Amendment effective July 1, 2023, and terminates June 30, 2027.

Applicability: Section 9, Ch. 758, L. 2023, provided: "[This act] applies to sales of accommodations or campgrounds that occur on or after [the effective date of this act] and to the use of accommodations or campgrounds on or after [the effective date of this act], even if the sale occurred before [the effective date of this act]." Effective July 1, 2023.

15-68-102. Imposition and rate of sales tax and use tax — exceptions. (1) A sales tax of the following percentages is imposed on sales of the following property or services:

(a) 4% on accommodations and campgrounds;

(b) 4% on the base rental charge for rental vehicles.

(2) The sales tax is imposed on the purchaser and must be collected by the seller and paid to the department by the seller. The seller holds all sales taxes collected in trust for the state. The sales tax must be applied to the sales price.

(3) (a) For the privilege of using property or services within this state, there is imposed on the person using the following property or services a use tax equal to the following percentages of the value of the property or services:

(i) 4% on accommodations and campgrounds;

(ii) 4% on the base rental charge for rental vehicles.

(b) The use tax is imposed on property or services that were:

(i) acquired outside this state as the result of a transaction that would have been subject to the sales tax had it occurred within this state;

(ii) acquired within the exterior boundaries of an Indian reservation within this state as a result of a transaction that would have been subject to the sales tax had it occurred outside the exterior boundaries of an Indian reservation within this state;

(iii) acquired as the result of a transaction that was not initially subject to the sales tax imposed by subsection (1) or the use tax imposed by subsection (3)(a) but which transaction, because of the buyer's subsequent use of the property, is subject to the sales tax or use tax; or

(iv) rendered as the result of a transaction that was not initially subject to the sales tax or use tax but that because of the buyer's subsequent use of the services is subject to the sales tax or use tax.

(4) For purposes of this section, the value of property must be determined as of the time of acquisition, introduction into this state, or conversion to use, whichever is latest.

(5) The sale of property or services exempt or nontaxable under this chapter is exempt from the tax imposed in subsections (1) and (3).

(6) Lodging facilities and campgrounds are exempt from the tax imposed in subsections (1)(a) and (3)(a)(i) until October 1, 2003, for contracts entered into prior to April 30, 2003, that provide for a guaranteed charge for accommodations or campgrounds.

History: En. Sec. 3, Ch. 544, L. 2003; amd. Sec. 9, Ch. 459, L. 2019.

15-68-103. Presumption of taxability — value — rules. (1) In order to prevent evasion of the sales tax or use tax and to aid in its administration, it is presumed that:

(a) all sales by a person engaging in business are subject to the sales tax or use tax; and

(b) all property bought or sold by any person for delivery into this state is bought or sold for a taxable use within this state.

(2) In determining the amount of use tax due on the use of property or services, it is presumed, in the absence of preponderant evidence of another value, that value means the total amount of property or service or the reasonable value of other consideration paid for the use of the property or service, exclusive of any type of time-price differential. However, in an exchange in which the amount of money paid does not represent the value of the property or service purchased, the use tax must be imposed on the reasonable value of the property or service purchased.

(3) The department shall adopt rules providing for the payment of the sales tax and use tax based on a rounding method.

History: En. Sec. 4, Ch. 544, L. 2003.

15-68-104 and 15-68-105 reserved.

15-68-106. Separate statement of tax — no advertising to absorb or refund tax — rules. (1) If a person collects a tax in excess of the tax imposed by 15-68-102, both the tax and the excess tax must be remitted to the department.

(2) Except as provided in subsection (4), the sales tax must be stated separately for all sales, except for sales from coin-operated or currency-operated machines.

(3) A person may not advertise, hold out, or state to the public or to any customer that the tax imposed by this chapter will be absorbed or refunded.

(4) The department may adopt rules permitting sellers the option of stating sales tax based upon a percentage of taxable sales.

History: En. Sec. 5, Ch. 544, L. 2003.

15-68-107. Liability of user for payment of use tax. (1) A person within this state who uses property is liable to the state for payment of the use tax if the use tax is payable on the value of the property but has not been paid.

(2) The liability imposed by this section is discharged if the buyer has paid the use tax to the seller for payment to the department.

History: En. Sec. 6, Ch. 544, L. 2003.

15-68-108 and 15-68-109 reserved.

15-68-110. Collection of sales tax and use tax — listing of business locations and agents — severability. (1) A person engaging in the business of selling property or services subject to taxation under this chapter shall collect the sales tax from the purchaser and pay the sales tax collected to the department.

Part 1
General Provisions

15-70-101. Disposition of funds. (1) Those funds allocated to cities, towns, counties, and consolidated city-county governments in this section must, in accordance with the provisions of 17-2-124, be paid by the department from the local government road construction and maintenance restricted account provided for in 15-70-128 to the cities, towns, counties, and consolidated city-county governments.

(2) The allocated funds must be distributed as follows:

(a) The amount of $150,000 must be designated for the purposes and functions of the Montana local technical assistance transportation program in Bozeman.

(b) Three-eighths of the remaining amount must be divided among the various counties in the following manner:

(i) 40% in the ratio that the rural road mileage in each county, exclusive of the national highway system and the primary system, bears to the total rural road mileage in the state, exclusive of the national highway system and the primary system;

(ii) 40% in the ratio that the rural population in each county outside incorporated cities and towns bears to the total rural population in the state outside incorporated cities and towns;

(iii) 20% in the ratio that the land area of each county bears to the total land area of the state.

(c) The remaining funds must be divided among the incorporated cities and towns in the following manner:

(i) 50% of the sum in the ratio that the population within the corporate limits of the city or town bears to the total population within corporate limits of all the cities and towns in Montana;

(ii) 50% in the ratio that the city or town street and alley mileage, exclusive of the national highway system and the primary system, within corporate limits bears to the total street and alley mileage, exclusive of the national highway system and primary system, within the corporate limits of all cities and towns in Montana.

(3) (a) For the purpose of allocating the funds in subsections (2)(b) and (2)(c) to a consolidated city-county government, each entity must be considered to have separate city and county boundaries. The city limit boundaries are the last official city limit boundaries for the former city unless revised boundaries based on the location of the urban area have been approved by the department of transportation and must be used to determine city and county populations and road mileages in the following manner:

(i) Percentage factors must be calculated to determine separate populations for the city and rural county by using the last official decennial federal census population figures that recognized an incorporated city and the rural county. The factors must be based on the ratio of the city to the rural county population, considering the total population in the county minus the population of any other incorporated city or town in the county.

(ii) The city and county populations must be calculated by multiplying the total county population, as determined by the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census, minus the population of any other incorporated city or town in that county, by the factors established in subsection (3)(a)(i).

(b) The amount allocated by this method for the city and the county must be combined and single monthly payments must be made to the consolidated city-county government.

(4) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be used for the construction, reconstruction, maintenance, and repair of rural roads or city or town streets and alleys or for the share that the city, town, county, or consolidated city-county government might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or streets that are part of the primary or secondary highway system or urban extensions to those systems. The governing body of a town or third-class city, as defined in 7-1-4111, may each year expend no more than 25% of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be used for the maintenance and repair of town or third-class city streets and alleys. The governing body of a town or third-class city may place all or a part of the 25% in a restricted asset account

within the gas tax apportionment fund that is carried forward until there is a need for the expenditure.

(5) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be disbursed to the lowest responsible bidder according to applicable bidding procedures followed in all cases in which the contract for construction, reconstruction, maintenance, or repair is in excess of the amounts provided in 7-5-2301 and 7-5-4302.

(6) For the purposes of this section in which distribution of funds is made on a basis related to population, the population must be determined annually for counties and biennially for cities according to the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(7) For the purposes of this section in which determination of mileage is necessary for distribution of funds, it is the responsibility of the cities, towns, counties, and consolidated city-county governments to furnish to the department of transportation a yearly certified statement indicating the total mileage within their respective areas applicable to this chapter. All mileage submitted is subject to review and approval by the department of transportation.

(8) Except by a town or third-class city as provided in subsection (4), the funds authorized by this section may not be used for the purchase of capital equipment.

(9) Unused balances remaining in the former 15-70-127 bridge and road safety and accountability restricted account as of June 30, 2023, must be distributed in accordance with subsections (2)(b) and (2)(c) on September 1, 2023.

Part 4
Gasoline and Special Fuel Tax

15-70-401. Definitions. As used in this part, the following definitions apply:

(1) "Agricultural use" means use of gasoline or special fuel by a person who earns income while engaging in the business of farming or ranching and who files farm or income reports for tax purposes as required by the United States internal revenue service.

(2) "Aviation fuel" means gasoline or any other liquid fuel by whatever name the liquid fuel may be known or sold, compounded for use in and sold for use in aircraft, including but not limited to any and all gasoline or liquid fuel meeting or exceeding the minimum specifications prescribed by the United States for use by its military forces in aircraft.

(3) (a) "Biodiesel" means a fuel produced from monoalkyl esters of long-chain fatty acids derived from vegetable oils, renewable lipids, animal fats, or any combination of those ingredients. The fuel must meet the requirements of ASTM D6751, also known as the Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels, as adopted by the American society for testing and materials.

(b) Biodiesel is also known as "B-100".

(4) "Bulk delivery" means placing gasoline or special fuel not intended for resale in storage or containers. The term does not mean gasoline or special fuel delivered into the supply tank of a motor vehicle.

(5) "Cardtrol" or "keylock" means a unique device intended to allow access to a fuel dealer's unattended pump or dispensing unit for the purpose of delivery of gasoline or special fuel to an authorized user of the unique device.

(6) "Department" means the department of transportation.

(7) (a) "Distributed" means the withdrawal of gasoline or special fuel from a refinery or terminal storage, other than by pipeline, by a licensed distributor for sale or use in this state, including:

(i) gasoline or special fuel refined, produced, manufactured, or compounded in this state and placed in storage tanks in this state;

(ii) gasoline or special fuel transferred from a refinery or pipeline terminal in this state and placed in tanks at the refinery or terminal; or

(iii) gasoline or special fuel imported into this state and placed in storage at a refinery or pipeline terminal.

(b) Gasoline or special fuel imported into this state, other than gasoline or special fuel placed in storage at a refinery or pipeline terminal, is considered to be distributed after it has arrived in and is brought to rest in this state.

(8) (a) "Distributor" means:

(i) a person who engages in the business in this state of producing, refining, manufacturing, or compounding gasoline or special fuel for sale, use, or distribution;

(ii) an importer who imports gasoline or special fuel for sale, use, or distribution;

(iii) a person who engages in the wholesale distribution of gasoline or special fuel in this state and chooses to become licensed to assume the Montana state gasoline tax or special fuel tax liability;

(iv) an exporter;

(v) a dealer licensed as of January 1, 1969, except a dealer at an established airport; or

(vi) a person in Montana who blends ethanol with gasoline.

(b) The term does not include a special biodiesel fuel producer who produces biodiesel from waste vegetable oil feedstock in this state for the operation of motor vehicles owned or controlled by the person on the public roads and highways of the state.

(9) "Ethanol" means nominally anhydrous ethyl alcohol that has been denatured as specified in 27 CFR, parts 20 and 21, and that meets the standards for ethanol adopted pursuant to 82-15-103.

(10) "Ethanol-blended gasoline" means gasoline blended with ethanol. The percentage of ethanol in the blend is identified by the letter "E" followed by the percentage number. A blend that is 10% denatured ethanol and 90% gasoline would be reflected as E-10. A blend that is 85% denatured ethanol and 15% gasoline would be reflected as E-85.

(11) "Export" means to transport out of Montana, by any means other than in the fuel supply tank of a motor vehicle, gasoline or special fuel received from a refinery or pipeline terminal within Montana.

(12) "Exporter" means a person who transports, other than in the fuel supply tank of a motor vehicle, gasoline or special fuel received from a refinery or pipeline terminal in Montana to a destination outside Montana for sale, use, or consumption outside Montana.

(13) (a) "Gasoline" includes:

(i) all petroleum products commonly or commercially known or sold as gasolines, including casinghead gasoline, natural gasoline, aviation fuel, and all flammable liquids composed of a mixture of selected hydrocarbons expressly manufactured and blended for the purpose of effectively and efficiently operating internal combustion engines; and

(ii) any other type of additive when the additive is mixed or blended into gasoline, regardless of the additive's classifications or uses.

(b) "Gasoline" does not include special fuels as defined in this section.

(14) "Import" means to first receive gasoline or special fuel into possession or custody after its arrival and coming to rest at a destination within the state or to first receive any gasoline or special fuel shipped or transported into this state from a point of origin outside this state other than in the fuel supply tank of a motor vehicle.

(18) "Person" includes any person, firm, association, joint-stock company, syndicate, partnership, or corporation. Whenever the term is used in any clause prescribing and imposing a fine or imprisonment, or both, as applied to a firm, association, syndicate, or partnership, it includes the partners or members and, as applied to joint-stock companies and corporations, the officers.

(21) "Special fuel" means those combustible gases and liquids commonly referred to as diesel fuel or any other volatile liquid of less than 46 degrees A.P.I. (American petroleum institute) gravity test, except liquid petroleum gas, when actually sold for use in motor vehicles operating on the public roads and highways of this state. The term "special fuel" includes biodiesel and additives of all types when the additive is mixed or blended into special fuel, regardless of the additive's classifications or uses.

(22) (a) "Special fuel user" means a person who consumes special fuel for the operation of motor vehicles owned or controlled by the person on the public roads and highways of this state.

(b) The term does not include:

(i) the U.S. government, a state, a county, an incorporated city or town, or a school district of this state; or

(ii) a special biodiesel fuel producer who produces biodiesel from waste vegetable oil feedstock for the operation of motor vehicles owned or controlled by the person on the public roads and highways of this state.

Definition of school district, 20-15-403.

15-70-402. License and security of distributors — denial or disciplinary action. (1) (a) Prior to doing business, each gasoline or special fuel distributor, including an exporter and importer, as those terms are defined in 15-70-401, shall file:

(i) an application for a license with the department, on forms prescribed and furnished by the department, setting forth the information that may be requested by the department; and

(ii) security with the department in an amount to be determined by the department.

(b) (i) Except as provided in subsection (1)(b)(ii), the required amount of security may not exceed twice the estimated amount of gasoline or special fuel taxes the distributor will pay to this state each month.

(ii) The minimum required security for a distributor who imports or exports fuel is $25,000.

(c) Upon approval of the application, the department shall issue to the distributor a nonassignable license that is in force until surrendered or revoked.

(2) The department may deny the issuance of a distributor license or take disciplinary action against the distributor if it determines that the applicant or distributor:

(a) has violated any provision of this chapter or any rule of the department relating to gasoline or special fuel, or both;

(b) fails to provide the security required by the department;

(c) has had a distributor license revoked or denied by the department or another jurisdiction within a 3-year period;

(d) is not in compliance with motor fuels laws in other jurisdictions; or

(e) fails to pay the gasoline or special fuel tax.

(3) Disciplinary action against a distributor may result in revocation of the license or issuance of a probationary license. At its discretion, the department may issue a probationary license to a distributor who repeatedly fails to report in the manner prescribed. The probationary license must be issued for a specified time period and may require the distributor to attend motor fuel tax training conducted by the department. If a distributor issued a probationary license fails to provide accurate reports by the end of the time period specified by the probationary license, the department may revoke the distributor license.

(4) If an application for a distributor license is denied or revoked or if the distributor is under disciplinary action, the applicant or distributor has the right to appeal the department's decision pursuant to Title 2, chapter 4, part 6.

(5) Only a licensed distributor may withdraw gasoline or special fuel from a refinery or terminal.

(6) Failure to obtain a distributor license as required in this section subjects the distributor to the provisions of 15-70-419 allowing for the seizure, confiscation, and possible forfeiture of the fuel.

(7) As used in this section, "security" means:

(a) a bond executed by a distributor as principal with a corporate surety qualified under the laws of Montana, payable to the state of Montana, and conditioned upon faithful performance of all requirements of this part, including the payment of all taxes and penalties;

(b) a deposit made by the distributor with the department, under the conditions that the department may prescribe; or

(c) certificates of deposit or irrevocable letters of credit issued by a bank and insured by the federal deposit insurance corporation.

(8) The owner of a commercial motor vehicle that is engaged in transporting gasoline or special fuel for a distributor is not subject to the provisions of this section.

(9) A distributor who blends biodiesel must be licensed with the department. If the distributor cannot be licensed, the distributor is required to buy biodiesel fuel on which the special fuel tax has been paid.

(10) A distributor who blends ethanol with gasoline must be licensed by the department. If the distributor cannot be licensed, the distributor is required to buy ethanol-blended gasoline on which the gasoline tax has been paid.

(2) The gasoline tax provided for in subsection (1)(a) must be deposited as follows:

(9) Material used for construction, reconstruction, or improvement in connection with work performed under a contract as provided in subsection (8) must be produced using fuel on which Montana fuel tax has been paid.

If the books, papers, records, and equipment are not maintained in this state at the time of demand they must be furnished at the direction of the department for review either in the offices of the department or at the business location of the taxpayer.

(2) The records, receipts, invoices, and any other pertinent papers supporting sales of each distributor or any person dealing in, transporting, or storing gasoline or special fuel must be open and subject to inspection by the department or its authorized representative during business hours to determine the amount of gasoline or special fuel tax due.

Each refusal is a separate offense.

(4) For the purpose of enforcing the provisions of this part, the fact that a person has placed or received gasoline or special fuel into storage or dispensing equipment designed to fue

motor vehicles is prima facie evidence that all of the gasoline or special fuel has been delivered by the person into the fuel supply tanks of motor vehicles and consumed in the operation of motor vehicles on the public roads and highways of this state unless the contrary is established by satisfactory evidence.

(5) The department may establish vehicle inspection sites and may stop, detain, and inspect vehicles propelled by special fuel. A person who purposely or knowingly refuses to permit an inspection authorized by this section is guilty of a misdemeanor punishable by a fine not to exceed $500 upon conviction of the first offense, not to exceed $1,000 upon conviction for the second offense, and not to exceed $2,000 for each subsequent conviction. (2) A person, except a licensed distributor, importer, or exporter, who refuses or fails to file a statement as required in this section is subject to a penalty of $100 for each failure or refusal.

(3) The department or a deputy, assistant, agent, clerk, or other employee of the department may not publish or otherwise disseminate information contained in a statement required under this section in a form that allows identification of a distributor or a purchaser of gasoline or special fuel. This section may not be construed to prohibit:

(a) the delivery to a person or the person's authorized representative of a certified copy of any report filed under subsection (1);

(b) the inspection by the attorney general or other legal representative of the state of the report or statement of a person if a person or distributor brings an action to set aside or review the tax based on the report or statement or if an action or proceeding has been instituted in accordance with the provisions of Title 15 against that person or distributor;

A penalty of 10% must be added to the tax, and the tax bears interest at the rate of 1% per month, prorated daily, from the date of delinquency until paid.

(2) Except as provided in subsection (3), a statement filed after the date required in 15-70-410 is subject to a $100 penalty.

(3) (a) The department shall waive the penalty if the late filing is the first offense within a 3-year period of timely filings.

(b) The department may waive the penalty if the director or the director's designee determines the late filing or payment to be beyond the distributor's control.

(4) If a distributor or other person required to pay the tax willfully fails, neglects, or refuses to file any statement required by this part or willfully fails to pay the tax within the time provided, the department may revoke any license issued under this part.

(b) seize without a warrant imported fuel for which the distributor or transporter has not obtained a valid Montana gasoline or special fuel distributor license as required in 15-70-402.

(3) The peace officer shall obtain authorization from the director of the department or the director's designee before seizing fuel.

(4) Upon seizing the fuel that the peace officer believes to be improperly imported, the peace officer may:

(7) (a) The department may determine that the seized fuel be forfeited by the original owner and may:

(i) sell the fuel to the licensed Montana distributor predetermined through a bidding process established in department administrative rule; or

(ii) use the forfeited fuel for a public purpose determined by the department.

(b) The department shall issue a certificate of sale to the licensed distributor who purchases the seized fuel.

(c) The net proceeds from the sale of the fuel must be deposited in the general fund, less:

(i) the applicable taxes and fees, which the department shall deposit in the proportion provided by 15-70-403(2);

(ii) the interest and penalties collected under this chapter, which the department shall deposit in the highway nonrestricted account provided for in 15-70-125; and

(iii) the administrative costs incurred in conjunction with the seizure and disposal of the improperly imported fuel.

(8) If the department determines that the original owner of the fuel may reclaim interest or title to the fuel, the department may:

(a) return to the owner money, less tax and penalty, equal to the wholesale value of the fuel on the day of the seizure; or

(b) return the fuel.

(9) A person forfeits the interest, right, and title to improperly imported fuel if the person:

(a) fails to file a claim for the seized fuel within the time allowed in subsection (6); or

(1) A person who purchases and uses any gasoline or special fuel on which the Montana gasoline or special fuel tax has been paid for denaturing ethanol to be used in ethanol-blended gasoline, operating stationary gasoline or special fuel engines used off the public roads and highways of this state, or for any commercial use other than operating vehicles on any of the public roads and highways of this state is allowed a refund of the amount of tax paid directly or indirectly on the gasoline or special fuel used if the person has records, as provided in 15-70-426, to prove nontaxable use. The refund may not exceed the tax paid or to be paid to the state. A refund is not allowed for the tax per gallon on aviation fuel allocated to the department of transportation as provided in 67-1-301.

(2) (a) The United States government, the state of Montana, any other state, or any county, incorporated city, town, or school district of this state is entitled to a refund of the taxes paid on special fuel regardless of the use of the special fuel.

The distributor shall have declared the accounts of the purchaser worthless not more than once during a 3-year period and claimed those accounts as bad debts for federal or state income tax purposes.

(b) If a credit has been granted under subsection (4)(a), any amount collected on the accounts declared worthless must be reported to the department and the tax due must be prorated on the collected amount and must be paid to the department.

(c) The department may require a distributor to submit periodic reports listing accounts that are delinquent for 90 days or more.

(5) A person who purchases and exports for sale, use, or consumption outside Montana any gasoline or special fuel on which the Montana gasoline or special fuel tax has been paid is entitled to a credit or refund of the amount of tax paid unless the person is not licensed and is not paying the tax to the state where fuel is destined. Upon completion of the reports required under 15-70-416, the department shall authorize the credit or refund.

Gasoline or special fuel on hand, determined by actual measurement, must be deducted from a claim and must be reported as an opening inventory on the next claim.

(2) Service stations, bulk dealers, and marinas shall prepare a complete invoice identifying the type of fuel for each withdrawal of gasoline or special fuel for which a refund is to be claimed.

15-70-430. Estimate allowed for agricultural use — seller's signed statement acceptable on keylock or cardtrol purchases. (1) (a) An applicant whose use qualifies as agricultural use may apply for a refund of the applicable tax on the gallons of gasoline or special fuel as indicated by bulk delivery invoices or by evidence of keylock, cardtrol, electronic transaction report, or retail purchases as an estimate of off-highway use.

(b) To ensure that the applicant's use qualifies as agricultural use, the department of transportation may request state or federal income tax information from the applicant or the department of revenue to determine the ratio of the applicant's gross earned farm income to total gross earned income, excluding unearned income, provided that the department of transportation gives notice to the applicant.

(2) (a) For purposes of application for a refund under subsection (1)(a), the department shall accept, as evidence of keylock or cardtrol purchases, a statement of the sale of gasoline or special fuel with applicable Montana tax that identifies the purchaser and specifically identifies the transaction as a keylock or cardtrol purchase.

(b) For purposes of application for a refund under subsection (1)(a), the department shall accept, as evidence of retail purchases, a receipt for the sale of gasoline or special fuel with applicable Montana tax that identifies the purchaser, the physical address of the dealer, the type of fuel purchased, and the number of gallons purchased. Only retail purchases within 50 miles of the agricultural operation of the applicant are eligible for a refund.

(3) An applicant may apply for a refund of the applicable tax on gallons of gasoline or special fuel according to the applicant's ratio of gross earned farm income to total gross earned income, excluding unearned income, as follows:

(a) if the ratio is 50% or more, the applicant may apply for a refund of 60% of the gasoline or special fuel tax;

(b) if the ratio is between 40% and 49%, the applicant may apply for a refund of 50% of the gasoline or special fuel tax;

(c) if the ratio is between 30% and 39%, the applicant may apply for a refund of 40% of the gasoline or special fuel tax; and

(d) if the ratio is less than 30%, the applicant is not eligible for a refund of the gasoline or special fuel tax under this section.

(4) If the applicant's ratio in any of the 3 previous years on record is higher than the present year, the highest ratio must be used to calculate the eligible refund.

(5) If any invoice or evidence is either lost or destroyed, the purchaser may support the purchaser's claim for refund by submitting an affidavit relating the circumstances of the loss or destruction and by producing other evidence that may be required by the department of transportation.

(6) An applicant whose use does not qualify as agricultural use may not estimate and shall maintain records as required by 15-70-426.

15-70-431. Determination of highway use. Highway use for each vehicle is determined by dividing the rate of the average miles per gallon into the number of miles traveled on public roads. When records are not available, an average of 4 miles per gallon or other methods that have been found acceptable may be used by the department to determine fuel use.

History: En. Sec. 39, Ch. 525, L. 1993; amd. Sec. 9, Ch. 340, L. 1999; Sec. 15-70-363, MCA 2013; redes. 15-70-431 by Sec. 41, Ch. 220, L. 2015.

15-70-432. Application for refund or credit — filing — correction by department. (1) (a) Except as provided in subsection (1)(b), the application for a refund must be a signed statement on a form furnished by the department. Except for a claim for a credit for taxes paid on unpaid accounts or special fuel taxes paid by the United States government, the state of Montana, any other state, or any county, incorporated city, town, or school district of this state or except for a claim for a refund filed electronically, the form must be accompanied by the original bulk delivery invoice or electronic transaction report issued to the claimant and must show the total amount of gasoline or special fuel purchased, the total amount of gasoline or special fuel on which a refund is claimed, and the amount of the tax claimed for refund. A claim for a credit for taxes paid on accounts for which the distributor did not receive compensation must be accompanied by documents or copies of documents showing that the accounts were worthless and claimed as bad debts on the distributor's federal income tax return. Any further information pertaining to a claim must be furnished as required by the department.

(b) A claim for a refund that is filed electronically in the manner specified by the department does not require a signature or the original invoices.

(c) A claim for a refund that is filed electronically does not relieve the taxpayer of maintaining records on which the claim for a refund is based.

(2) A bulk delivery invoice, receipt, keylock or cardtrol statement, or electronic transaction report that does not identify the dealer, dealer's location, purchaser, date of purchase, type of fuel, number of gallons purchased, or evidence of payment of Montana gasoline or a special fuel tax is not valid for refund purposes.

(3) All applications for refunds must be filed with the department within 36 months after the date on which the gasoline or special fuel was purchased as shown by invoices or after the date on which the tax was erroneously paid. A distributor may file a claim for refund of taxes erroneously paid or for a credit for taxes paid by the distributor on unpaid accounts within 3 years after the date of payment.

(4) If the department finds that the statement contains errors that are not fraudulently inserted, it may correct the statement and approve it as corrected or the department may require the claimant to file an amended statement.

If the records, receipts, invoices, documents, and equipment are not maintained in this state at the time of demand, they must be furnished at the direction of the department or at the business location of the dealer or other person and must, if requested by the department, be accompanied by the dealer or other person.

(3) The department shall, on request from an official who is responsible for the enforcement of the alternative fuel tax law of any other state, the District of Columbia, the United States, a territory or possession of the United States, or a province of Canada, forward to the official any information that it has relative to the receipt, storage, delivery, sale, use, or other disposition of alternative fuel by any alternative fuel dealer if the other governmental entity furnishes similar information to the department.

(2) Whenever an alternative fuel dealer files a return but fails to pay in whole or in part the tax due under this part, there must be added to the unpaid amount due interest at the rate of 1% a month or fraction of a month from the date on which the tax was due to the date of payment in full.

Part 1
Electrical Generation Tax Reform Act

15-72-101. Short title. This part may be cited as the "Electrical Generation Tax Reform Act".

History: En. Sec. 1, Ch. 556, L. 1999.

15-72-102. Legislative findings and declaration of purpose. (1) The legislature finds that the restructuring of the electric utility industry in Montana implemented by Chapter 505, Laws of 1997, including the unbundling of services and the provision that allows Montana customers to choose their supplier of electricity and related services in a competitive market, renders the existing method of property taxation of the electric utility industry an impediment to competition.

(2) The legislature further finds that the restructuring of the electric utility industry necessitates changes to the existing system of property taxation that include reducing the tax rate applied to electrical generation facilities and imposing a replacement tax in order to:

(a) avoid placing a supplier engaged in the business of generating, supplying, or selling electricity at a competitive advantage or disadvantage;

(b) preserve the revenue base of the existing property tax system for taxing jurisdictions in the state;

(c) minimize the shift in tax burden and the imposition of a higher tax burden on consumers of electricity; and

(d) minimize additional administrative costs and the burden of compliance.

(3) The legislature further finds that a reduction in the property tax rates applied to electrical generation facilities must be replaced by a wholesale energy transaction tax imposed on each kilowatt hour of electricity transmitted in the state.

(4) The legislature further finds that existing property tax rates applied to electrical transmission and distribution systems are appropriate for a regulated function.

(5) The legislature therefore declares that there is a compelling public need to modify the existing system of property taxation of electrical generation facilities and to impose a wholesale energy transaction tax on kilowatt hours of electricity transmitted in the state to ensure competitive neutrality and to provide replacement revenue to taxing jurisdictions in the state.

History: En. Sec. 2, Ch. 556, L. 1999; amd. Sec. 39, Ch. 114, L. 2003.

15-72-103. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Customer" or "purchaser" means a person who acquires for consideration electricity for use or consumption and not for resale.

(2) "Distribution services provider" means a person controlling or operating distribution facilities for distribution of electricity to the public. A distribution services provider includes a purchaser who takes electricity directly from a transmission line or substation and a purchaser who generates electricity for the purchaser's own use but does not include electricity generated by the purchaser for noncommercial use or for agricultural use.

(3) "Person" means an individual, estate, trust, receiver, cooperative association, corporation, limited liability company, firm, partnership, joint venture, syndicate, or other entity, including any gas or electric utility owned or operated by a county, municipality, or other political subdivision of the state.

(4) "Transmission services provider" means a person or entity controlling or operating facilities used for the transmission of electricity.

History: En. Sec. 3, Ch. 556, L. 1999; amd. Sec. 1, Ch. 491, L. 2007.

15-72-104. Wholesale energy transaction tax — rate of tax — exemptions — cost recovery. (1) (a) Except as provided in subsection (3), a wholesale energy transaction tax is imposed upon electricity transmitted within the state as provided in this section. The tax is imposed at a rate of 0.015 cent per kilowatt hour of electricity transmitted by a transmission services provider in the state.

(b) For electricity produced in the state for delivery outside the state, the taxpayer is the person owning or operating the electrical generation facility producing the electricity. The transmission services provider shall collect the tax from the person based upon the kilowatt hours introduced onto transmission lines from the electrical generation facility. The amount of kilowatt hours subject to tax must be reduced by 5% to compensate for transmission line losses.

(c) For electricity produced in the state for delivery within the state, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distribution services provider. The taxpayer may apply for a refund for overpayment of taxes pursuant to 15-72-116.

(d) For electricity produced outside the state for delivery inside the state, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distribution services provider.

(e) For electricity delivered to a distribution services provider that is a rural electric cooperative for delivery to purchasers that have opted for customer choice under the provisions of Title 69, chapter 8, part 3, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based on the amount of kilowatt hours of electricity delivered to the distribution services provider that is attributable to customers that have opted for customer choice.

(f) For electricity delivered to a distribution services provider that prior to May 2, 1999, was owned by a public utility as defined in 69-3-101, the tax is imposed on the successor distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distribution services provider.

(2) (a) If more than one transmission services provider transmits electricity, the last transmission services provider transmitting or delivering the electricity shall collect the tax.

(b) If the transmission services provider is an agency of the United States government, the distribution services provider receiving the electricity shall self-assess the tax subject to the provisions of this part.

(c) If an electrical generation facility located within the state produces electricity for sale inside and outside the state, sales within the state are considered to have come from electricity produced within the state for purposes of the tax imposed by this section.

(3) (a) Electricity transmitted through the state that is not produced or delivered in the state is exempt from the tax imposed by this section.

(b) Electricity produced in the state by an agency of the United States government or electricity produced from an electric energy generation facility, as defined in 90-5-101(3), constructed after May 1, 2001, that is within the exterior boundaries of a Montana Indian reservation for delivery outside the state is exempt from the tax imposed by this section.

(c) Electricity produced by wind turbines erected on state land for which annual lease payments are made to the permanent school trust fund is exempt from the tax imposed by this section.

(d) Electricity delivered to a distribution services provider that is a municipal utility described in 69-8-103(4)(b) or a rural electric cooperative organized under the provisions of Title 35, chapter 18, is exempt from the tax imposed by this section.

(e) Electricity delivered to a purchaser that receives its power directly from a transmission or distribution facility owned by an entity of the United States government on or before May 2, 1997, or electricity that is transmitted exclusively on transmission or distribution facilities owned by an entity of the United States government on or before May 2, 1997, is exempt from the tax imposed by this section.

(4) A distribution services provider is allowed to recover the tax imposed by this section and the administrative costs to comply with this part in its rates.

History: En. Sec. 4, Ch. 556, L. 1999; amd. Sec. 3, Ch. 541, L. 2001; amd. Sec. 16, Ch. 591, L. 2001; amd. Sec. 2, Ch. 491, L. 2007.

15-72-105. Multistate exemption. A person, upon proof that the person has paid a tax in another state on the transmission of electricity, is allowed a credit against the tax imposed by this part if the tax has been paid in another state.

History: En. Sec. 5, Ch. 556, L. 1999.

15-72-106. Collection of wholesale energy transaction tax — disposition of revenue. (1) A transmission services provider shall collect the tax imposed under 15-72-104 from the taxpayer and pay the tax collected to the department. If the transmission services provider collects a tax in excess of the tax imposed by 15-72-104, both the tax and the excess must be remitted to the department.

(2) A self-assessing distribution services provider is subject to the provisions of this part.

(3) The wholesale energy transaction tax collected under this part must, in accordance with the provisions of 17-2-124, be deposited in the general fund.

History: En. Sec. 6, Ch. 556, L. 1999; amd. Sec. 17, Ch. 475, L. 2007.

15-72-110. Returns — payment — authority of department. (1) On or before the 30th day of the month following the end of the calendar quarter in which the tax imposed by this part is payable, a return, on a form provided by the department, and payment of the tax for the preceding calendar quarter must be filed with the department.

(2) Each person engaged in transmitting electricity in this state that is subject to the tax under this part shall file a return.

(3) (a) A person required to collect and pay to the department the tax imposed by this part shall keep records, render statements, make returns, and comply with the provisions of this part and the rules prescribed by the department. Each return or statement must include the information required by the rules of the department.

(b) For the purpose of determining compliance with the provisions of this part, the department is authorized to examine or cause to be examined any books, papers, records, or memoranda relevant to making a determination of the amount of tax due, whether the books, papers, records, or memoranda are the property of or in the possession of the person filing the return or another person. In determining compliance, the department may use statistical sampling and other sampling techniques consistent with generally accepted auditing standards. The department may also:

(i) require the attendance of a person having knowledge or information relevant to a return;

(ii) compel the production of books, papers, records, or memoranda by the person required to attend;

(iii) implement the provisions of 15-1-703 if the department determines that the collection of the tax is or may be jeopardized because of delay;

Nationwide production	Tax rate
Less than 20,000 proof gallons	3%
20,000 to 50,000 proof gallons	8%
50,001 to 200,000 proof gallons	13.8%
Over 200,000 proof gallons	16%

(2) The department shall retain the amount of the excise tax received in a separate account and shall, in accordance with the provisions of 17-2-124, deposit, to the credit of the general fund, the amount collected and received not later than the 10th day of each month.

(3) The following are exempt from the tax imposed by this section:

(a) flavors and other nonbeverage ingredients containing alcohol that are imported or purchased by a brewery under conditions set by the department as provided in 16-3-214; and

16-1-402. Payment of excise tax by carriers. (1) Every airline or railroad operating in the state of Montana and selling liquor purchased outside this state for consumption within this state shall pay to the department the excise taxes and state markup that would be applicable to the liquor if purchased from an agency liquor store.

(2) The amount of excise taxes and state markup payable must be determined by multiplying the following factors:

(a) the average liquor used per departure;

(b) the number of departures from Montana on which liquor is served;

(c) the ratio of Montana revenue passenger miles to system revenue passenger miles; and

(d) the applicable excise tax and state markup rates.

(3) From the product, the carrier shall subtract the amount of excise taxes and state markup on purchases of liquor made within this state.

(1) Any carrier aggrieved by the application of the method provided in 16-1-402 may petition the department for use of an alternate method. If the department finds that the application of the method will be unjust to the carrier, it may allow the use of the method petitioned for by the carrier or may use another method that fairly reflects the liquor purchased outside this state and served for consumption within this state.

(2) (a) The department shall prescribe report forms that must be used by the carriers in reporting their sales and computing their liability for excise taxes and markup. Report forms must be filed and payment of excise taxes and state markup must be made on a quarterly basis. The filing of report forms and payment of excise taxes and state markup must be made not later than the last day of the month immediately following the close of each quarterly period.

(a) 10% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed and that sold more than 200,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section;

(b) 8.6% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed and that sold more than 50,000 proof gallons but not more than 200,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section;

(c) 2% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed and that sold not more than 50,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section.

(2) The license tax must be charged and collected on all liquor produced in or brought into the state and taxed by the department. The retail selling price must be computed by adding to the cost of the liquor the state markup of 40.5% for all liquor other than sacramental wine, for which the markup must be 20%, and fortified wine containing more than 16% but not more than 24% alcohol by volume, for which the markup must be 51%. The license tax must be figured in the same manner as the state excise tax and is in addition to the state excise tax. The department shall retain in a separate account the amount of the license tax received. The department, in accordance with the provisions of 17-2-124, shall allocate the revenue as follows:

(a) Thirty-four and one-half percent is allocated to the state general fund.

(b) Sixty-five and one-half percent must be deposited in the state special revenue fund to the credit of the department of public health and human services for the treatment, rehabilitation, and prevention of alcoholism and chemical dependency.

(3) The license tax proceeds that are allocated to the department of public health and human services for the treatment, rehabilitation, and prevention of alcoholism and chemical dependency must be credited quarterly to the department of public health and human services. The legislature may appropriate a portion of the license tax proceeds to support alcohol and chemical dependency programs. The remainder must be distributed as provided in 53-24-206.

(4) The following are exempt from the tax and markup imposed by this section:

Part 4 — Conversion of Liquor Stores (Repealed)

Part 1
Operation of Stores

16-2-101. Establishment and closure of agency liquor stores — agency franchise agreement — kinds and prices of liquor. (1) The department shall enter into agency franchise agreements to operate agency liquor stores as the department finds feasible for the wholesale and retail sale of liquor.

(2) (a) The department may from time to time fix the posted prices at which the various classes, varieties, and brands of liquor may be sold, and the posted prices must be the same at all agency liquor stores.

(b) (i) The department shall supply from the state liquor warehouse to agency liquor stores the various classes, varieties, and brands of liquor for resale at the state posted price to persons who hold liquor licenses and to all other persons at the retail price established by the agent.

(ii) (A) According to the ordering and delivery schedule set by the department, an agency liquor store may place a liquor order with the department at its state liquor warehouse in the manner to be established by the department.

(B) The agency liquor store's purchase price is the department's posted price less the agency liquor store's commission rate. The commission rates constitute the only compensation the department provides to agency liquor stores and reflect that agency liquor stores sell at retail and wholesale and must provide the discount in 16-2-201.

(C) All liquor purchased from the state liquor warehouse by an agency liquor store must be paid for within 60 days of the date on which the department invoices the liquor to the agency liquor store.

(c) An agency liquor store may sell table wine at retail for off-premises consumption.

(3) Agency liquor stores may not be located in or adjacent to grocery stores in communities with populations over 3,000.

(4) (a) Agency liquor stores must receive an annual commission rate based on the total posted price of liquor purchased in the previous calendar year, as follows:

(i) 16% commission for stores that purchased not more than $250,000;

(ii) 15.5% commission for stores that purchased more than $250,000 but not more than $500,000;

(iii) 15% commission for stores that purchased more than $500,000 but not more than $720,000;

(iv) 14.5% commission for stores that purchased more than $720,000 but not more than $950,000;

(v) 14% commission for stores that purchased more than $950,000 but not more than $1.525 million;

(vi) 13.5% commission for stores that purchased more than $1.525 million but not more than $1.85 million;

(vii) 13% commission for stores that purchased more than $1.85 million but not more than $2.25 million;

(viii) 12.75% commission for stores that purchased more than $2.25 million but not more than $3.25 million;

(ix) 12.5% commission for stores that purchased more than $3.25 million but not more than $7 million; or

(x) 12.15% commission for stores that purchased more than $7 million.

(b) For commissions determined under subsection (4)(a), the department shall by February 1 of each year:

(i) calculate purchases based on all liquor invoiced to the agency liquor store during the previous calendar year;

(ii) notify agency liquor stores of their commission rate to be applied for the period beginning February 1 and ending January 31; and

(iii) adjust the dollar values for purchase amounts under subsection (4)(a) based on the consumer price index for the prior calendar year and notify all agency liquor stores of the adjustment.

(c) New stores must receive a commission established by competitive bidding, which is guaranteed for 3 calendar years, after which time the agency liquor store's commission is subject to subsection (4)(a).

(5) An agency franchise agreement must:

(a) be effective for a 10-year period, renewable for additional 10-year periods, if the requirements of the agency franchise agreement have been satisfactorily performed;

(b) require the agent to maintain comprehensive general liability insurance and liquor liability insurance throughout the term of the agency franchise agreement in an amount established by the department of administration. The insurance policy must:

(i) declare the department as an additional insured; and

(ii) hold the state harmless and agree to defend and indemnify the state in a cause of action arising from or in connection with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement.

(c) provide that upon termination by the department for cause or upon mutual termination, the agent is liable for any outstanding liquor purchase invoices. If payment is not made within the appropriate time, the department may immediately repossess all liquor inventory, wherever located.

(d) specify the reasonable service and space requirements that the agent will provide throughout the term of the agency franchise agreement.

(6) The liability insurance requirement may be reviewed every 3 years at the request of either the agent or the department. If the agent concurs, the department may adjust the

requirements to be effective during the remaining term of the agency franchise agreement if the adjustments adequately protect the state from risks associated with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement. The amount of liability insurance coverage may not be less than the minimum requirements of the department of administration.

(7) (a) The department may terminate an agency franchise agreement if the agent has not satisfactorily performed the requirements of the agency franchise agreement because the agent:

(i) charges retail prices that are less than the department's posted price for liquor, sells liquor to persons who hold liquor licenses at less than the posted price, or sells liquor at case discounts greater than the discount provided for in 16-2-201 to persons who hold liquor licenses;

(ii) fails to maintain sufficient liability insurance;

(iii) has not maintained a quantity and variety of product available for sale commensurate with demand, delivery cycle, repayment schedule, mixed case shipments from the department, and the ability to purchase special orders;

(iv) at an agency liquor store located 35 miles or more from the nearest agency liquor store, has operated the agency liquor store in a manner that makes the premises unsanitary or inaccessible for the purpose of making purchases of liquor; or

(v) fails to comply with the express terms of the agency franchise agreement.

(b) The department shall give an agent 30 days' notice of its intent to terminate the agency franchise agreement for cause and specify the unmet requirements. The agent may contest the termination and request a hearing within 30 days of the date of notice. If a hearing is requested, the department shall suspend its termination order until after a final decision has been made pursuant to the Montana Administrative Procedure Act.

(c) In the case of failure to make timely payments to the department for liquor purchased, the department may terminate the agency franchise agreement and immediately repossess any liquor purchased and in the possession of the agent. If an agency franchise agreement is terminated, the agent may contest the termination and request a hearing within 30 days of the department's repossession of the liquor. The agency liquor store shall remain closed until a final decision has been reached following a hearing held pursuant to the Montana Administrative Procedure Act.

(8) An agency franchise agreement may be terminated upon mutual agreement by the agent and the department.

(9) An agent may assign an agency franchise agreement to a person who, upon approval of the department, is named agent in the agency franchise agreement, with the rights, privileges, and responsibilities of the original agent for the remaining term of the agency franchise agreement. The agent shall notify the department of an intent to assign the agency franchise agreement 60 days before the intended effective date of the assignment. The department may not unreasonably withhold approval of an assignment request.

(10) A person or entity may not hold an ownership interest in more than one agency liquor store.

(11) The department shall maintain sufficient inventory in the state warehouse in order to meet a monthly service level of at least 97%.

16-2-211. State liquor markup reduction — Montana-produced ingredients. (1) Based upon the percentage of Montana-produced ingredients that are used in producing a liquor, the department shall reduce the liquor markup charged by the department in determining the wholesale price of the liquor. To qualify for a reduced markup, the liquor must have been manufactured, distilled, rectified, bottled, or processed by a distillery that produces 25,000 proof gallons or less of liquor nationwide annually. The reduction in the markup must be determined as follows:

Percent of Montana-Produced Ingredients	Reduction in Markup
50% to 64%	50%
65% to 74%	75%
75% to 100%	100%

(2) For the purposes of this section, the liquor markup is the standard markup added to the department's base case price used in determining the wholesale price of liquor for products other than fortified wine or sacramental wine and does not include the reduced markup that results from the department's reduced prices for products designated for closeout or inventory reduction. The reduced markup must be applied to the standard liquor markup minus associated agency liquor store commissions and discount rate costs pursuant to 16-2-101 and costs of operating the central liquor warehouse and must be determined by the department on a yearly basis.

(3) (a) The percent of Montana-produced ingredients is determined as a percentage of the total applicable dry and wet weights of all the fermentable and flavor ingredients used in the production of the liquor as provided by rule adopted by the department.

Water is not an ingredient.

2023 Amendment: See 2023 Session Law for amendment made by sec. 2, Ch. 749, L. 2023. Amendment effective July 1, 2024.

16-3-213. Brewers or beer importers not to retail beer — small brewery exceptions — brewer collaboration. (1) Except as provided for small breweries in subsection (2) and except as provided in 16-4-401(9), it is unlawful for any brewer or breweries or beer importer to have or own any permit to sell or retail beer at any place or premises. It is the intention of this section to prohibit brewers and beer importers from engaging in the retail sale of beer. This section does not prohibit breweries from selling and delivering beer manufactured by them, in original packages, at either wholesale or retail.

(2) (a) For the purposes of this section, a "small brewery" is a brewery that has an annual nationwide production of not less than 200 gallons or more than 60,000 barrels, including:

(i) the production of all affiliated manufacturers; and

(ii) beer purchased from any other beer producer to be sold by the brewery.

(b) A small brewery may, at one location for each brewery license and at no more than three locations including affiliated manufacturers, provide samples of beer that were brewed and fermented on the premises in a sample room located on the licensed premises, subject to subsection (4). The samples may be provided with or without charge between the hours of 10 a.m. and 8 p.m. No more than 48 ounces of malt beverage may be sold or given to each individual customer during a business day for consumption on the premises or in prepared servings through curbside pickup, provided that the 48-ounce limit may not in any way limit a small brewery's sales as provided in 16-3-214(1)(a)(iii). No more than 2,000 barrels may be provided annually for on-premises sample room consumption, including all affiliated manufacturers.

(3) For the purposes of this section, "affiliated manufacturer" means a manufacturer of beer:

(a) that one or more members of the manufacturing entity have more than a majority share interest in or that controls directly or indirectly another beer manufacturing entity;

(b) for which the business operations conducted between or among entities are interrelated or interdependent to the extent that the net income of one entity cannot reasonably be determined without reference to operations of the other entity; or

(c) of which the brand names, products, recipes, merchandise, trade name, trademarks, labels, or logos are identical or nearly identical.

(4) A small brewery may serve in its sample room beer not brewed and fermented on the premises if:

(a) the beer is brewed in collaboration with another brewery, including multiple breweries,

(b) all brewers were actively involved in the brewing of the beer. For the purposes of this subsection (4)(b), the term "actively involved" means that all brewers were present for the brewing process.

(c) no more than six distinct collaboration beers, brewed and fermented at another brewery, may be served in a calendar year;

(d) the amount of beer that a brewer serves under this section, for any one type of distinct collaboration beer, does not exceed an equal proportion of the beer produced based on the number of participating breweries or seven barrels, whichever is less; and

(e) all brewers report to the department:

(i) that the brewers will collaborate as provided in this subsection (4) prior to the collaboration; and

(ii) sales from the collaboration for tax reporting.

(5) For a licensed brewery holding complete ownership of a retail license pursuant to 16-4-401(9), beer that is manufactured and sold at the colocated premises is not subject to the limitations imposed by this section. Beer manufactured and sold at the colocated premises does count toward production levels for tax purposes.

(4) An additional license fee may not be imposed on a brewery providing its own products on its licensed premises for consumption on the premises.

(5) This section does not prohibit a licensed brewer from shipping and selling beer directly to a wholesaler in this state under the provisions of 16-3-230.

16-3-219. Dock sales restricted — exceptions. (1) Except as provided in subsections (2) through (4), beer may not be delivered to a licensed retailer at any location other than the retailer's licensed premises.

(2) An all-beverages licensee may personally or through an employee obtain from any wholesaler's warehouse any quantity of beer as the all-beverages licensee and wholesaler may agree to buy and sell.

(3) Retailers other than an all-beverages licensee may personally or through an employee obtain from the wholesaler's warehouse any quantity of beer that the retailer and wholesaler may agree to buy and sell only within the territory of the wholesaler in which the retailer is located.

(4) When a beer wholesaler's trucks and equipment are incapable of delivering beer to a retail licensee's premises due to the unique physical location of the retail licensee's premises, examples of which are premises located on an island or atop a mountain, the beer wholesaler and retail licensee may seek prior department approval for an alternative delivery arrangement on a form provided by the department. If the department approves the alternative delivery arrangement request, the department shall provide the beer wholesaler and the retail licensee a written summary of the conditions of the approved delivery arrangement. Failure to comply with the approved alternative delivery arrangement may subject the beer wholesaler or retail licensee to administrative action.

16-3-220. Wholesalers' service obligations — applicability. (1) A wholesaler appointed to distribute a brand of beer within a territory specified by agreement pursuant to 16-3-222 shall call on and offer that brand to at least 75% of the retailers within that territory at least every 3 weeks. However, if the brand of beer for which the wholesaler is appointed is a product of a brewer or beer importer whose products are not generally available, the wholesaler shall, at least every 3 weeks, call on and offer that brand to as many retailers within that territory as is reasonably possible given the amount of that brand that is available to the wholesaler.

(2) If a retailer's account with a wholesaler is current as required under 16-3-243, the wholesaler may not refuse to sell the retailer any generally available brand of beer for which the wholesaler has been appointed for the territory in which the retailer is located. The wholesaler shall offer to deliver the beer to the retailer at least every 3 weeks.

(3) For the purposes of this section, a brewer or beer importer's products are not generally available if:

(a) all of the brands of a brewer or beer importer shipped to a wholesaler during the most recent calendar quarter total less than 600 barrels;

(b) all of the brands of a brewer or beer importer shipped into the state total less than 1,200 barrels in each of the 2 consecutive preceding calendar quarters; and

(c) all of the brands produced by the brewer at all of its facilities total less than 150,000 barrels per year.

(4) This section applies to all beer distribution agreements entered into, assigned, or amended after July 1, 1986. It does not apply to a distribution agreement for a named brand entered into before July 1, 1986, but does not prohibit a brewer who is a party to an agreement from requiring the appointed wholesaler to fulfill similar service obligations in the territory.

16-3-221. Illegal acts by brewers or beer importers. (1) It is unlawful for any brewer or beer importer or any officer, agent, or representative of any brewer or beer importer to:

(a) coerce, attempt to coerce, or persuade any person licensed to sell beer at wholesale to enter into any agreement or to take any action that would violate or tend to violate any of the laws of this state or any rules promulgated by the department;

(b) sell its products in the state without a written contract, which conforms to the provisions of 16-3-221 through 16-3-226, with each appointed licensed wholesale distributor;

(c) designate or allow more than one wholesale distributor to sell or distribute a specific brand of the brewer's or beer importer's products to retail licensees in the same area, provided that nothing in this part prohibits the brewer or beer importer from designating more than one wholesale distributor to sell or distribute different brands of the same manufacturer to retai licensees in the same area;

(d) fix or maintain the price at which a wholesale distributor resells the brewer's or beer importer's products. Without limitation, it is a violation of this section if:

(i) after a wholesale distributor has exceeded a resale price increase recommended by a brewer or beer importer, the brewer or beer importer raises the price that it charges the wholesale distributor for those products within 60 days;

(ii) after a wholesale distributor has exceeded a resale price increase recommended by a brewer or beer importer, the brewer or beer importer raises the price that it charges the wholesale distributor in an amount proportionately larger than the amount that it raised the wholesale distributor's prices initially when compared to the increase in the resale price that it recommended to the wholesale distributor; or

(iii) the brewer or beer importer links or ties its participation in promotional discounts to the wholesale distributor's compliance with any recommended resale price.

(e) cancel, terminate, discontinue, or fail to renew, except for just cause and in accordance with the current terms and standards established by the brewer or beer importer then equally applicable to all wholesalers, any agreement or contract, written or oral, or the franchise of any wholesaler existing on January 1, 1974, or entered into after that date to sell beer manufactured by the brewer or imported by the beer importer. A brewer or beer importer may notwithstanding the preceding sentence, make reasonable classifications among wholesalers If a brewer or beer importer cancels or terminates a wholesaler's franchise, the brewer or beer importer has the burden of proving that the classification was reasonable and not arbitrary. The provisions of 16-3-221 through 16-3-226 must be a part of any franchise, contract, agreement, or understanding, whether written or oral, between any wholesaler of beer licensed to do business in this state and any manufacturer or beer importer doing business with the licensed wholesaler just as though the provisions had been specifically agreed upon between the wholesaler and the manufacturer or beer importer. A wholesaler of beer licensed to conduct business in the state may not waive any of the protections or agree to any provision contrary to 16-3-221 through 16-3-226 by any conduct, including but not limited to the signing of any contract or agreement with terms contrary to those provisions.

(2) (a) Just cause as used in subsection (1)(e) means that the wholesaler failed to comply with the reasonable requirements placed on the wholesaler by the brewer or beer importer as a part of any written franchise, contract, or agreement between the parties.

(b) The sale or purchase or other restructuring of the brewer or beer importer by a successor in the manufacturing tier of the beer industry does not constitute just cause as that term is used in subsection (1)(e).

(c) For the purposes of this subsection (2), a successor means a person or entity who replaces a brewer or beer importer with regard to the right to manufacture, sell, distribute, or import a brand or brands of beer regardless of the character or form of the succession. A successor is obligated to all of the terms and conditions of any franchise, contract, agreement, or understanding, whether written or oral, in effect on the date of succession. A successor has the right to contractually require its wholesalers to comply with operational standards of performance if the standards are uniformly established for all of the successor's wholesalers and conform to the requirements of this section.

16-3-222. Mandatory provisions of brewer-wholesaler or beer importer-wholesaler contracts, agreements, and franchises. All contracts, agreements, or franchises between a brewer and a wholesaler or a beer importer and a wholesaler must specifically set forth or contain the following:

(1) that the brewer or beer importer or any officer, agent, or representative of any brewer or beer importer and the wholesaler involved mutually shall determine the size or extent of the area in which the wholesaler may sell or distribute the products of the brewer or beer importer to the retail licensees. The territory must be the territory agreed upon between the wholesaler and brewer or the wholesaler and beer importer and may not be changed without the mutual consent of both the wholesaler and brewer or the wholesaler and beer importer.

(2) the agreed-upon brands of the brewer or beer importer to be sold by the wholesaler;

(3) that the brewer or beer importer recognizes that the wholesaler is free to manage the wholesaler's business in the manner that the wholesaler considers best and that this prerogative vests in the wholesaler the exclusive right to establish selling prices, to select the brands that the wholesaler wishes to handle, and to determine the effort and resources that the wholesaler will exert to develop and promote the sale of the brewer's or beer importer's products handled by the wholesaler;

(4) a procedure for the review of alleged wholesaler deficiencies asserted by the brewer or beer importer to constitute just cause as provided in 16-3-221, including the submission in writing to the wholesaler by the brewer or beer importer of the deficiencies, if the deficiencies are susceptible of correction and if the wholesaler desires to correct the deficiencies, and that a reasonable period of time must be given the wholesaler for rectification of the deficiencies prior to any notice of intent to terminate;

(5) a termination clause providing that the brewer or beer importer shall deliver, in writing, to the wholesaler a 60-day notice of intent to terminate the agreement, contract, or franchise;

(6) that all agreements between a brewer and a wholesaler are interpreted and governed by the laws of Montana and that those laws must be liberally construed to effectuate the remedial purpose of the protections of the beer franchise law contained in 16-3-221 through 16-3-226;

2023 Amendment: See 2023 Session Law for amendment made by sec. 1, Ch. 35, L. 2023. Amendment effective March 2, 2023.

16-3-311. Suitable premises for licensed retail establishments. (1) (a) A licensed retailer may use a part of a building as premises licensed for on-premises consumption of alcoholic beverages, except as otherwise allowed in 16-3-302(4). The licensed retailer must demonstrate that it has adequate control over all alcoholic beverages to prevent self-service, service to underage persons, and service to persons who are actually or apparently intoxicated. Except as provided in subsections (8), (10), and (11), the premises must be separated from the rest of the building by permanent walls but may have inside access to the rest of the building at all times even if the businesses or uses in the other part of the building are unrelated to the operation of the premises in which the alcoholic beverages are served. A licensee may lease the kitchen or another specified area to allow another business entity to operate a business within its premises without permanent floor-to-ceiling walls and without a concession agreement if the other business does not take orders for, serve, or deliver alcohol and has a separate point of sale system. If the premises are located in a portion of a building, the licensed retailer must be able to demonstrate that there are adequate safeguards in place to prevent public access to alcoholic beverages after hours, either by the presence of a lockable door or other security features such as rolling gates, locking cabinets, tap locks, or key card access.

(b) A resort retail all-beverages licensee, a retail all-beverages licensee, or an on-premises consumption beer and wine licensee within the boundaries of a resort area may also utilize up to three alternate alcoholic beverage storage facilities as allowed in 16-4-213(8).

(2) A licensee may alter the approved floorplan of the premises. The alteration must be consistent with the requirements of subsection (1)(a). A licensee shall provide a copy of the revised floorplan with the proposed alteration for the licensed premises to the department within 7 days of beginning the alteration. Department approval may not be unreasonably withheld. If the completed alteration differs from the approved alteration due to modifications required for approval by other state or local government entities, such as compliance with fire or building codes, the department must be notified, but preapproval is not required for these modifications. An alteration for the purposes of this section is any structural change in a premises that does not increase the square footage of the existing approved premises. An alteration that increases the square footage of the existing approved premises must be approved by the department prior to beginning the alteration. A cosmetic change, such as painting, carpeting, or other interior decorating, is not considered an alteration under this section. If the alteration does not require the licensee to obtain a building permit, then the inspections by local government agencies may not be required for department approval.

(3) The interior portion of the licensed premises must be a continuous area that is under the control of the licensee and not interrupted by any area in which the licensee does not have adequate control, and includes multiple floors on the premises and common areas necessarily shared by multiple building tenants in order to allow patrons to access other tenant businesses or private dwellings in the same building, including but not limited to entryways, hallways, stairwells, and elevators.

(4) The premises may include one or more exterior patios or decks as long as sufficient physical safeguards are in place to ensure proper service and consumption of alcoholic beverages. An additional perimeter barrier may not be required if an existing boundary naturally defines the outdoor service area and impedes foot traffic.

(5) Premises suitability does not include a minimum number of seats.

(6) A licensed retailer may apply to the department to have a noncontiguous storage area that is under the control of the licensed retailer approved for onsite alcoholic beverage storage separate from its service area as long as the licensed retailer demonstrates that there are adequate safeguards in place to prevent public access to alcoholic beverages after hours, either by the presence of a lockable door or other security features such as rolling gates, locking cabinets, tap locks, or key card access. The application fee is $100. On department approval, an on-premises consumption retailer's keg storage and beer lines running into the licensed premises may be in a noncontiguous storage area provided that the licensee is able to maintain control and adequate safeguards are in place to prevent public access.

(7) A licensed retailer operating within a hotel or similar short-term lodging facility may apply to the department to allow for the delivery of alcoholic beverages to guests of accommodation units, and the prestocking of alcoholic beverages in accommodation units is allowed for the accommodation units within the property as long as the purchaser's age is verified and there are adequate safeguards in place to prevent underage service. The application fee is $100.

(8) An on-premises consumption retailer may be located adjacent to a brewery or winery if the licensees are able to maintain control of their respective premises through adequate physical separation.

(9) (a) For the purposes of this section, "adequate physical separation" means:

(i) the premises of the retailer and the premises of the brewery or winery are secured after business hours from each other and from any other business, including but not limited to prohibiting a customer from accessing a brewery sample room and purchasing alcohol after the brewery tasting room hours of operation as specified in 16-3-213(2)(b); and

(ii) the separation may include doors, gates, or windows that may be left open during business hours.

(b) The term does not require permanent floor-to-ceiling walls.

(10) For colocated premises authorized in 16-4-401(9), there are no physical separation requirements applied by this code but the licensee shall follow any federal requirements.

(11) A public airport all-beverages licensee, licensed pursuant to 16-4-208, or the Yellowstone airport beer and wine licensee, licensed pursuant to 16-4-304, may use the airport terminal or part of the terminal as premises licensed for the on-premises consumption of alcoholic beverages without regard to other businesses or uses in the terminal. The airport licensee must be able to demonstrate that there are adequate safeguards in place to prevent public access to alcoholic beverages after hours, either by the presence of a lockable door or other security features such as rolling gates, locking cabinets, tap locks, or key card access.

(6) All agreements of distributorship are interpreted and governed by the laws of Montana.

(7) In any dispute resulting in litigation between a supplier and a distributor, the litigation must occur in a Montana court, federal or state, unless that forum would create an unreasonable burden on any party, as determined by the court in which the litigation is commenced.

16-4-105. *(Temporary)* **Limit on retail beer licenses — wine license amendments — limitation on use of license — exceptions — competitive bidding — rulemaking.** (1) Except as provided in 16-4-109, 16-4-110, 16-4-115, 16-4-420, and chapter 4, part 3, of this title, a license to sell beer at retail or beer and wine at retail, in accordance with the provisions of this code and the rules of the department, may be issued to any person or business entity that is approved by the department, subject to the following exceptions:

(a) The number of retail beer licenses that the department may issue for premises situated within incorporated cities and incorporated towns and within 5 miles of the corporate limits of the cities and towns must be determined on the basis of population prescribed in 16-4-502 as follows:

(i) in incorporated towns of 500 inhabitants or fewer and within 5 miles of the corporate limits of the towns, not more than one retail beer license;

(ii) in incorporated cities or incorporated towns of more than 500 inhabitants and not more than 2,000 inhabitants and within 5 miles of the corporate limits of the cities or towns, one retail beer license for every 500 inhabitants;

(iii) in incorporated cities of more than 2,000 inhabitants and within 5 miles of the corporate limits of the cities, four retail beer licenses for the first 2,000 inhabitants, two additional retail beer licenses for the next 2,000 inhabitants or major fraction of 2,000 inhabitants, and one additional retail beer license for each additional 2,000 inhabitants.

(b) The number of inhabitants in each incorporated city or incorporated town, exclusive of the number of inhabitants residing within 5 miles of the corporate limits of the city or town, governs the number of retail beer licenses that may be issued for use within the city or town and within 5 miles of the corporate limits of the city or town. The distance of 5 miles from the corporate limits of an incorporated city or incorporated town must be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of the city or town. A license that is restricted by quota limitations in this section may not be located farther than:

(i) the county boundary within which the incorporated city or incorporated town is located; or

(ii) the line that separates the incorporated city's or incorporated town's boundary from another incorporated city or incorporated town as specified in this section.

(c) (i) When the 5-mile boundary of one incorporated city or incorporated town overlaps the 5-mile boundary of another incorporated city or incorporated town, the quota area for each city or town terminates in a straight line equidistant between each city or town.

(ii) If there are more than two overlapping quota areas, the quota area for each city or town terminates from the center of the overlap in a straight line to the intersecting exterior point of overlap. Licenses existing as of November 24, 2017, will be designated as belonging to whichever quota area they are in as a result of the straight line equidistant between each city or town, except for the following:

(A) In the Helena and East Helena previously combined quota area, the straight line will be drawn connecting the two outermost edges of the Helena corporate boundaries and extend outward to the quota area boundaries. Any license existing as of November 24, 2017, with a physical address of Helena will become a Helena license or with a physical address of East Helena will become an East Helena license, regardless of where it falls in the new quota areas.

(B) In the Pinesdale and Hamilton previously combined quota area, the straight line will be drawn along Mill Creek road to the quota area boundaries.

(C) In the Polson and Ronan quota areas, the straight line will be drawn from U.S. highway 93 west on Pablo West road to the quota area boundary and east on Clairmont road extending out to the quota area boundary. Any license existing as of November 24, 2017, within the Polson quota area will become a Polson license, regardless of where it falls in the new quota areas. Any license existing as of November 24, 2017, within the Ronan quota area will become a Ronan license, regardless of where it falls in the new quota areas.

(d) Retail beer licenses of issue on March 7, 1947, and retail beer licenses issued under 16-4-110 that are in excess of the limitations in this section are renewable, but new licenses may not be issued in violation of the limitations.

(e) The limitations do not prevent the issuance of a nontransferable and nonassignable retail beer license to an enlisted persons', noncommissioned officers', or officers' club located on a state or federal military reservation on May 13, 1985, or to a post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization if the veterans' or fraternal organization has been in continuous existence for a period of 5 years or more prior to January 1, 1949, and is applying for a license at the same location that it has occupied for the last 5 years. A post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization that has held a veterans' or fraternal license within the past 10 years is not subject to the 5-year same location requirement.

(f) The number of retail beer licenses that the department may issue for use at premises situated outside of any incorporated city or incorporated town and outside of the area within 5 miles of the corporate limits or for use at premises situated within any unincorporated area must be determined by the department in its discretion, except that a retail beer license may not be issued for any premises so situated unless the department determines that the issuance of the license is required by public convenience and necessity pursuant to 16-4-203. Subsection (8) does not apply to licenses issued under this subsection (1)(f). The owner of the license whose premises are situated outside of an incorporated city or incorporated town may offer gambling, regardless of when the license was issued, if the owner and premises qualify under Title 23, chapter 5, part 3, 5, or 6.

(2) For a period of 12 years after November 24, 2017, existing licenses or licenses that resulted from applications in process as of November 24, 2017, in either of two quota areas that were established as provided in subsection (1)(c) may be transferred between the two quota areas if they were part of the combined quota area prior to November 24, 2017.

(3) A license issued under subsection (1)(f) that becomes located within 5 miles of an incorporated city or town because of annexation after April 15, 2005, may not be transferred to another location within the city quota area any sooner than 5 years from the date of the annexation.

(4) When the department determines that a quota area is eligible for a new retail beer license under subsection (1) or (2), the department shall use a competitive bidding process as provided in 16-4-430 to determine the party afforded the opportunity to apply for the new license.

(5) When more than one new beer license is subject to the competitive bidding process in the same quota area, the department shall conduct a separate competitive bidding process at separate times for each available license.

(6) (a) A person holding a license to sell beer for consumption on the premises at retail may apply to the department for an amendment to the license permitting the holder to sell wine as well as beer. The department may issue an amendment if it finds, on a satisfactory showing by the applicant, that the sale of wine for consumption on the premises would be supplementary to a restaurant or prepared-food business. A person holding a beer and wine license may sell wine for consumption on or off the premises. Nonretention of the beer license, for whatever reason, means automatic loss of the wine amendment license.

(b) A person licensed under this subsection (6) may apply to the department and pay a fee for an endorsement to, with the licensee's own employees 21 years of age or older, deliver beer and wine in original packaging if the delivery includes food that is prepared by the licensee at the licensee's premises. The purchase price of the delivered beer and wine may not exceed the purchase price of the delivered food.

(c) A person licensed under this subsection (6) may possess and use liquor in the kitchen of the licensed premises only for the preparation of food and as long as the alcohol content is cooked out of the food at the time of serving. Nothing in this subsection (6)(c) authorizes a licensee to consume, sell, serve, or give away liquor.

(7) A license issued under this section may offer curbside pickup between 8 a.m. and 2 a.m. in original packaging, prepared servings, or growlers.

(8) Except as provided in subsection (1)(f), a license issued pursuant to this section after October 1, 1997, must have a conspicuous notice that the license may not be used for premises where gambling is conducted.

(9) An applicant for a license issued through a competitive bidding process in 16-4-430 shall pay a new license fee equal to the annual fee as provided in 16-4-501 and in subsequent years pay the annual fee for the license as provided in 16-4-501.

(10) The department may adopt rules to implement this section.

(b) The number of inhabitants in each incorporated city or incorporated town, exclusive of the number of inhabitants residing within 5 miles of the corporate limits of the city or town, governs the number of retail beer and wine licenses that may be issued for use within the city or town and within 5 miles of the corporate limits of the city or town. The distance of 5 miles from the corporate limits of an incorporated city or incorporated town must be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of the city or town. A license that is restricted by quota limitations in this section may not be located farther than:

(i) the county boundary within which the incorporated city or incorporated town is located; or

(ii) the line that separates the incorporated city's or incorporated town's boundary from another incorporated city or incorporated town as specified in this section.

(c) (i) When the 5-mile boundary of one incorporated city or incorporated town overlaps the 5-mile boundary of another incorporated city or incorporated town, the quota area for each city or town terminates in a straight line equidistant between each city or town.

(ii) If there are more than two overlapping quota areas, the quota area for each city or town terminates from the center of the overlap in a straight line to the intersecting exterior point of overlap. (A) In the Helena and East Helena previously combined quota area, the straight line will be drawn connecting the two outermost edges of the Helena corporate boundaries and extend outward to the quota area boundaries. Any license existing as of November 24, 2017, with a physical address of Helena will become a Helena license or with a physical address of East Helena will become an East Helena license, regardless of where it falls in the new quota areas.

(B) In the Pinesdale and Hamilton previously combined quota area, the straight line will be drawn along Mill Creek road to the quota area boundaries.

(C) In the Polson and Ronan quota areas, the straight line will be drawn from U.S. highway 93 west on Pablo West road to the quota area boundary and east on Clairmont road extending out to the quota area boundary. Any license existing as of November 24, 2017, within the Polson quota area will become a Polson license, regardless of where it falls in the new quota areas. Any license existing as of November 24, 2017, within the Ronan quota area will become a Ronan license, regardless of where it falls in the new quota areas.

(d) Retail beer and wine licenses of issue on March 7, 1947, and retail beer and wine licenses issued under 16-4-110 that are in excess of the limitations in this section are renewable, but new licenses may not be issued in violation of the limitations.

(e) The limitations do not prevent the issuance of a nontransferable and nonassignable retail beer and wine license to an enlisted persons', noncommissioned officers', or officers' club located on a state or federal military reservation on May 13, 1985, or to a post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization if the veterans' or fraternal organization has been in continuous existence for a period of 5 years or more prior to January 1, 1949, and is applying for a license at the same location that it has occupied for the last 5 years. A post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization that has held a veterans' or fraternal license within the past 10 years is not subject to the 5-year same location requirement.

(f) The number of retail beer and wine licenses that the department may issue for use at premises situated outside of any incorporated city or incorporated town and outside of the area within 5 miles of the corporate limits or for use at premises situated within any unincorporated area must be determined by the department in its discretion, except that a retail beer and wine license may not be issued for any premises so situated unless the department determines that the issuance of the license is required by public convenience and necessity pursuant to 16-4-203

Subsection (8) does not apply to licenses issued under this subsection (1)(f). The owner of the license whose premises are situated outside of an incorporated city or incorporated town may offer gambling, regardless of when the license was issued, if the owner and premises qualify under Title 23, chapter 5, part 3, 5, or 6.

(2) For a period of 12 years after November 24, 2017, existing licenses or licenses that resulted from applications in process as of November 24, 2017, in either of two quota areas that were established as provided in subsection (1)(c) may be transferred between the two quota areas if they were part of the combined quota area prior to November 24, 2017.

(3) A license issued under subsection (1)(f) that becomes located within 5 miles of an incorporated city or town because of annexation may not be transferred to another location within the city quota area any sooner than 5 years from the date of the annexation.

(4) When the department determines that a quota area is eligible for a new retail beer and wine license under subsection (1) or (2), the department shall use a competitive bidding process as provided in 16-4-430 to determine the party afforded the opportunity to apply for the new license.

(5) When more than one new retail beer and wine license is subject to the competitive bidding process in the same quota area, the department shall conduct a separate competitive bidding process at separate times for each available license.

(6) (a) A person holding a retail beer and wine license may sell beer and wine for consumption on or off the premises.

(b) A person holding a retail beer and wine license may apply to the department and pay a fee for an endorsement to, with the licensee's own employees 21 years of age or older, deliver beer and wine in original packaging if the delivery includes food that is prepared by the licensee at the licensee's premises. The purchase price of the delivered beer and wine may not exceed the purchase price of the delivered food.

(c) A person licensed under this subsection (6) may possess and use liquor in the kitchen of the licensed premises only for the preparation of food and as long as the alcohol content is cooked out of the food at the time of serving. Nothing in this subsection (6)(c) authorizes a licensee to consume, sell, serve, or give away liquor.

(7) A license issued under this section may offer curbside pickup between 8 a.m. and 2 a.m. in original packaging, prepared servings, or growlers.

(8) Except as provided in subsection (1)(f), a license issued pursuant to this section after October 1, 1997, must have a conspicuous notice that the license may not be used for premises where gambling is conducted.

(9) An applicant for a license issued through a competitive bidding process in 16-4-430 shall pay a new license fee equal to the annual fee as provided in 16-4-501 and in subsequent years pay the annual fee for the license as provided in 16-4-501.

These events do not need to be special events. The beer and wine must be consumed where the event is held.

(2) An application for a catering endorsement and an annual fee of $200 must be submitted to the department for its approval.

(3) With the exception of a guest ranch catering endorsement, a licensee who holds a catering endorsement may not cater an event in which the licensee or the concessionaire of the licensee is the sponsor. The catered event must be within 100 miles of the licensee's licensed premises measured in a straight line from the nearest entrance of the licensed premises to the nearest boundary of the catered event.

(4) Except as provided in subsection (8), the storage of alcoholic beverages may occur on the premises of the catered event 1 day prior to the catered event until 1 day following the conclusion of the catered event if the alcoholic beverages are in a secured location that prevents access by anyone other than the licensee or the licensee's employees.

(5) With the exception of a guest ranch catering endorsement, the licensee shall notify the local law enforcement agency that has jurisdiction over the premises that the catered event is to be held. A local government may charge a fee of $35.

(6) The sale of beer and wine pursuant to a catering endorsement is subject to the provisions of 16-6-103.

(8) A licensee may sell and serve beer and wine in the grandstands and bleacher area of the premises, as well as from a booth, stand, or other fixed placed on the premises when the catered event is held on the premises of a county fairground, public sports arena, or Montana university as defined in 16-4-112. If the licensee has a written agreement with the state of Montana, a political subdivision of the state, or a Montana university to sell and serve beer and wine for multiple catered events at the premises, the licensee may store beer and wine to be used for the catered events on the premises of the fairground, public sports arena, or Montana university for the length of the written agreement if the beer and wine can be stored in a secure location that prevents access by anyone other than the licensee or the licensee's employees. Each catered event held at the premises is subject to the requirement in subsection (5) and must be individually reported to the department.

(9) A licensee may not share revenue from the sale of alcoholic beverages with the sponsor of the catered event unless the sponsor is the state of Montana, a political subdivision of the state, a Montana university as provided in 16-4-112, or a qualified entity under section 501(c) of the Internal Revenue Code, 26 U.S.C. 501(c), as amended.

16-4-201. All-beverages license quota. (1) Except as otherwise provided by law, a license to sell liquor, beer, and table wine at retail, an all-beverages license, in accordance with the provisions of this code and the rules of the department, may be issued to any person who is approved by the department as a fit and proper person to sell alcoholic beverages, except that the number of all-beverages licenses that the department may issue for premises situated within incorporated cities and incorporated towns and within 5 miles of the corporate limits of those cities and towns must be determined on the basis of population prescribed in 16-4-502 as follows:

(a) in incorporated towns of 500 inhabitants or fewer and within 5 miles of the corporate limits of the towns, not more than two retail licenses;

(b) in incorporated cities or incorporated towns of more than 500 inhabitants and not more than 3,000 inhabitants and within 5 miles of the corporate limits of the cities and towns, three retail licenses for the first 1,000 inhabitants and one retail license for each additional 1,000 inhabitants;

(c) in incorporated cities of more than 3,000 inhabitants and within 5 miles of the corporate limits of the cities, five retail licenses for the first 3,000 inhabitants and one retail license for each additional 1,500 inhabitants.

(2) The number of inhabitants in each incorporated city or incorporated town, exclusive of the number of inhabitants residing within 5 miles of the corporate limits of the city or town, governs the number of retail licenses that may be issued for use within the city or town and within 5 miles of the corporate limits of the city or town. The distance of 5 miles from the corporate limits of any incorporated city or incorporated town must be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of the city or town. A license that is restricted by quota limitations in this section may not be located farther than:

(a) the county boundary within which the incorporated city or incorporated town is located; or

(b) the line that separates the incorporated city's or incorporated town's boundary from another incorporated city or incorporated town as specified in this section.

(3) (a) When the 5-mile boundary of one incorporated city or incorporated town overlaps the 5-mile boundary of another incorporated city or incorporated town, the quota area for each city or town terminates in a straight line equidistant between each city or town.

(b) If there are more than two overlapping quota areas, the quota area for each city or town terminates from the center of the overlap in a straight line to the intersecting exterior point of overlap. Licenses existing as of November 24, 2017, will be designated as belonging to whichever quota area they are in as a result of the straight line equidistant between each city or town, except for the following:

(i) In the Helena and East Helena previously combined quota area, the straight line will be drawn connecting the two outermost edges of the Helena corporate boundaries and extend outward to the quota area boundaries. Any license existing as of November 24, 2017, with a physical address of Helena will become a Helena license or with a physical address of East Helena will become an East Helena license, regardless of where it falls in the new quota areas.

(ii) In the Pinesdale and Hamilton previously combined quota area, the straight line will be drawn along Mill Creek road to the quota area boundaries.

(iii) In the Polson and Ronan quota areas, the straight line will be drawn from U.S. highway 93 west on Pablo West road to the quota area boundary and east on Clairmont road extending out to the quota area boundary. Any license existing as of November 24, 2017, within the Polson quota area will become a Polson license, regardless of where it falls in the new quota areas. Any license existing as of November 24, 2017, within the Ronan quota area will become a Ronan license, regardless of where it falls in the new quota areas.

(4) For a period of 12 years after November 24, 2017, existing licenses or licenses that resulted from applications in process as of November 24, 2017, in either of two quota areas that were established as provided in subsection (3) may be transferred between the two quota areas if they were part of the combined quota area prior to November 24, 2017.

(5) If any new retail all-beverages licenses are allowed by separating a combined quota area that existed as of November 24, 2017, as provided in subsection (3), the department shall use a competitive bidding process as provided in 16-4-430 to determine the party afforded the opportunity to apply for the new license.

(6) When more than one new all-beverages license is subject to the competitive bidding process in the same quota area, the department shall conduct a separate competitive bidding process at separate times for each available license.

(7) Retail all-beverages licenses of issue on March 7, 1947, and all-beverages licenses issued under 16-4-209 that are in excess of the limitations in subsections (1) and (2) are renewable, but new licenses may not be issued in violation of the limitations.

(8) The limitations in subsections (1) and (2) do not prevent the issuance of a nontransferable and nonassignable, as to ownership only, retail license to:

(a) an enlisted personnel, noncommissioned officers', or officers' club located on a state or federal military reservation on May 13, 1985;

(b) a continuing care retirement community as provided in 16-4-315; or

(c) any post of a nationally chartered veterans' organization or any lodge of a recognized national fraternal organization if the veterans' or fraternal organization has been in continuous existence for a period of 5 years or more prior to January 1, 1949, and is applying for a license at the same location that it has occupied for the last 5 years. A post of a nationally chartered veteran's organization or a lodge of a recognized national fraternal organization that has held a veterans' or fraternal license within the past 10 years is not subject to the 5-year same-location requirement.

(9) The number of retail all-beverages licenses that the department may issue for use at premises situated more than 5 miles outside of any incorporated city or incorporated town may not be more than one license for each 750 in population of the county after excluding the population of incorporated cities and incorporated towns in the county.

(10) An all-beverages license issued under subsection (9) that becomes located within 5 miles of an incorporated city or town because of annexation after April 15, 2005, may not be transferred to another location within the city quota area any sooner than 5 years from the date of annexation.

(11) A license issued under this section may offer curbside pickup between 8 a.m. and 2 a.m. in original packaging, prepared servings, or growlers.

(12) A person licensed under this section may apply to the department and pay a fee for an endorsement to, with the licensee's own employees 21 years of age or older, deliver beer and wine in original packaging if the delivery includes food that is prepared by the licensee at the licensee's premises. The purchase price of the delivered beer and wine may not exceed the purchase price of the delivered food.

(13) The department may adopt rules to implement this section.

16-4-203. Determination of public convenience and necessity. (1) An original license issued pursuant to 16-4-104, 16-4-201, 16-4-208, or 16-4-213 or the transfer of ownership or location of a license issued pursuant to 16-4-104, 16-4-201, 16-4-208, or 16-4-213 may be approved if the department does not receive the minimum number of protests required for a public convenience and necessity determination pursuant to 16-4-207, in which case the application must be regarded as a prima facie showing of public convenience and necessity and no further determination of public convenience and necessity is allowed.

(2) (a) If the department receives at least the minimum number of protests required for a public convenience and necessity determination, as provided in 16-4-207, an application must be approved when evidence indicates that the issuance of an original license or transfer of location will materially promote the public's ability to engage in the licensed activity.

(b) The issuance of an original license or a transfer of location will materially promote the public's ability to engage in the licensed activity if:

(i) the applicant's history and experience demonstrate the capacity to operate the proposed license in a lawful manner;

(ii) the approval of the application for the premises at the proposed location is consistent with the public's demand or probable demand for the licensed activity that presently exists or is reasonably expected to exist within the next 5 years in the quota area where the proposed premises is located and in quota areas adjacent to the quota area where the proposed premises is located;

(iii) the approval of the application for the premises at the proposed location contributes to the public's ability to participate in the licensed activity throughout the quota area where the proposed premises is located and quota areas adjacent to the quota area where the proposed premises is located;

(iv) the approval of the application for the premises at the proposed location is consistent with adopted or pending planning, annexation, and zoning ordinances of local governments that confer or will confer jurisdiction over business and developments such as the proposed license in the quota area where the proposed premises is located and in quota areas adjacent to the quota area where the proposed premises is located.

(3) Protests are limited to the operation of the alcoholic beverage license only. Protests related to gambling or other matters will not be considered by the department.

(4) When determining whether or not an application is justified by public convenience and necessity, the department may:

(a) receive evidence at the public hearing specified in 16-4-207 only from the applicant, any protestors whose protests the department has accepted pursuant to 16-4-207, and any other person summoned or called by either a protestor or applicant;

(b) find that the application is justified by public convenience and necessity if the applicant has provided substantial credible evidence as provided for in this subsection (4) that shows that the department's approval of the application will materially promote the public's ability to engage in the licensed activity. The substantial credible evidence required must include a consideration of each of the components of materially promoting the public's ability to engage in the licensed activity as provided in subsection (2)(b).

(5) For the purposes of this section, the following definitions apply:

(1) (a) Except as provided in subsection (3), a license may be transferred to a new owner and to a location outside the quota area where the license is currently located only when the following criteria are met:

(i) the total number of all-beverages licenses in the current quota area exceeded the quota for that area by at least 25% in the most recent census prescribed in 16-4-502;

(ii) the total number of all-beverages licenses in the quota area to which the license would be transferred, exclusive of those issued under 16-4-209(1)(a) and (1)(b), did not exceed that area's quota in the most recent census prescribed in 16-4-502:

(A) by more than 33%; or

(B) in an incorporated city of more than 10,000 inhabitants and within 5 miles of its corporate limits, by more than 43%; and

(iii) the department finds, after a public hearing, that the public convenience and necessity would be served by a transfer.

(b) A license transferred pursuant to subsection (1)(a) that was issued pursuant to a competitive bidding process is not eligible to offer gambling under Title 23, chapter 5, part 3, 5, or 6.

(2) When the department determines that a license may be transferred from one quota area to another under subsection (1), the department shall use a competitive bidding process as provided in 16-4-430 to determine the party afforded the opportunity to purchase and transfer a license.

(3) A license within an incorporated quota area may be transferred to a new owner and to a new unincorporated location within the same county on application to and with consent of the department when the total number of all-beverages licenses in the current quota area, exclusive of those issued under 16-4-209(1)(a) and (1)(b), exceeds the quota for that area by at least 25% in the most recent census and will not fall below that level because of the transfer.

(4) A license issued under 16-4-209(1)(a) may not be transferred to a location outside the quota area and the exterior boundaries of the Montana Indian reservation for which it was originally issued.

(5) (a) Any all-beverages licensee is, on the approval and in the discretion of the department, entitled to a catering endorsement to the licensee's all-beverages license to allow the catering and sale of alcoholic beverages to persons attending a special event on premises not otherwise licensed for the sale of alcoholic beverages for on-premises consumption. Except as provided in subsection (5)(k) of this section, the alcoholic beverages must be consumed on the premises where the event is held.

(b) An application for a catering endorsement and an annual fee of $250 must be submitted to the department for its approval.

(c) An all-beverages license issued under 16-4-201 to a guest ranch is, on the approval and in the discretion of the department, entitled to a guest ranch catering endorsement to the licensee's all-beverages license to allow the catering and sale of alcoholic beverages to persons attending an event on the guest ranch other than at the licensed premises. These events do not need to be special events. The alcoholic beverages must be consumed where the event is held.

(d) With the exception of a guest ranch catering endorsement, an all-beverages licensee who holds a catering endorsement may not cater an event in which the licensee or the concessionaire of the licensee is the sponsor. The catered event must be within 100 miles of the licensee's licensed premises measured in a straight line from the nearest entrance of the licensed premises to the nearest boundary of the catered event.

(e) Except as provided in subsection (5)(i), the storage of alcoholic beverages may occur on the premises of the catered event 1 day prior to the catered event until 1 day following the conclusion of the catered event if the alcoholic beverages are in a secured location that prevents access by anyone other than the licensee or the licensee's employees.

(f) With the exception of a guest ranch catering endorsement, the licensee shall notify the local law enforcement agency that has jurisdiction over the premises where the catered event is to be held. A local government may charge a fee of $35.

(g) The sale of alcoholic beverages pursuant to a catering endorsement is subject to the provisions of 16-6-103.

(h) The sale of alcoholic beverages pursuant to a catering endorsement is subject to the provisions of 16-3-306, unless entities named in 16-3-306 give their written approval.

(i) A licensee may sell and serve liquor, beer, and wine in the grandstands and bleacher area of the premises, as well as from a booth, stand, or other fixed placed on the premises when the catered event is held on the premises of a county fairground, public sports arena, or Montana university as defined in 16-4-112. If the licensee has a written agreement with the state of Montana, a political subdivision of the state, or a Montana university to sell and serve liquor, beer, and wine for multiple catered events at the premises, the licensee may store liquor, beer, and wine to be used for the catered events on the premises of the fairground, public sports arena, or Montana university for the length of the written agreement if the liquor, beer, and wine can be stored in a secure location that prevents access by anyone other than the licensee or the licensee's employees. Each catered event held at the premises is subject to the requirement in subsection (5)(f) and must be individually reported to the department.

(j) A licensee may not share revenue from the sale of alcoholic beverages with the sponsor of the catered event unless the sponsor is the state of Montana, a political subdivision of the state, a Montana university as provided in 16-4-112, or a qualified entity under section 501(c) of the Internal Revenue Code, 26 U.S.C. 501(c), as amended.

(c) if the applicant is a privately held corporation, all of the following must apply:

(i) each owner of 15% or more of the outstanding stock meets the requirements for an individual applicant listed in subsection (2)(a). If no single owner owns more than 15% of the outstanding stock, the applicant shall designate two or more officers or board members, each of whom must meet the requirements for an individual applicant listed in subsection (2)(a), and the owners of 51% of the outstanding stock must meet the requirements of subsection (2)(a).

(3) The applicant and any individual of the applicant who must meet the requirements of (2)(a) must be current on all tax filings, taxes, interest, and penalties due to the state; however, nothing in this subsection authorizes the department to consider an applicant's tax status or whether the applicant was or is an income tax protestor when renewing the license.

(4) In the case of a corporate applicant, the requirements of subsection (2)(b) or (2)(c) apply separately to each class of stock.

(8) (a) An individual applying for an all-beverages license or having any ownership interest in an entity applying for an all-beverages license may not, if the application were to be approved, own an interest in more than half the total number of allowable all-beverages licenses in any quota area described in 16-4-201.

(h) An applicant for a wholesale license and any individual of the applicant who must meet the requirements of subsection (2)(a) may not be a manufacturer of an alcoholic beverage or owned or controlled by a manufacturer of an alcoholic beverage.

(1) Prior to the issuance of a license under this chapter, the applicant shall file with the department an application containing information and statements relative to the applicant and the premises where the alcoholic beverage is to be sold as required by the department.

(2) (a) Upon receipt of a completed application for a license under this code, accompanied by the necessary license fee, the department of justice shall make a thorough investigation of all matters relating to the application. Based on the results of the investigation or on other information, the department shall determine whether:

(i) the applicant is qualified to receive a license; and

(ii) (A) the applicant's premises are suitable for the carrying on of the business;

(B) the applicant is qualified to receive a license prior to a determination that the applicant's premises are suitable for carrying on with the business in accordance with 16-4-417; or

If information is requested from the applicant by either department, the time period in this subsection (2)(c) is tolled until the requested information is received by the requesting department. The time period is also tolled if the applicant requests and is granted a delay in the license determination or if the license is for premises that are to be altered, as provided in 16-3-311, or newly constructed. The basis for the tolling of the deadline must be documented.

16-4-404. Protest period — contents of license — posting — privilege — transfer. (1) A license may not be issued until on or after the date set in the notice for hearing protests.

(2) Every license issued under this code must state the name of the person to whom it is issued, the location, by street and number or other appropriate specific description of location if no street address exists, of the premises where the business is to be carried on under the license, and other information the department considers necessary. If the licensee is a partnership or if more than one person has an interest in the business operated under the license, the names of all persons in the partnership or interested in the business must appear on the license. Every license must be posted in a conspicuous place on the premises in which the business authorized under the license is conducted, and the license must be exhibited on request to any authorized representative of the department or the department of justice or to any peace officer of the state of Montana.

(3) A license issued under the provisions of this code is a privilege personal to the licensee named in the license and is valid until the expiration of the license unless sooner revoked or suspended.

(4) A license may be transferred pursuant to 16-4-431 to the personal representative, executor, or administrator of the estate of a deceased licensee, or to a designee of the personal representative, executor, or administrator, when the estate consists in whole or in part of the business of selling alcoholic beverages under a license. The license may descend or be disposed of with the licensed business under appropriate probate proceedings.

(5) A licensee may apply to the department for a transfer of the license to different premises within the quota area. The department may, after notice and opportunity for protest, permit a transfer if the transfer is justified by public convenience and necessity, pursuant to 16-4-203, unless a public convenience and necessity hearing is required by 16-4-207.

(6) On a bona fide sale of the business operated under a license, the license may be transferred to a qualified purchaser. A transfer of a license to a person or location is not effective unless approved by the department. A licensee or transferee or proposed transferee who operates or attempts to operate under a supposedly transferred license prior to the approval of the transfer by the department, endorsed on the license in writing, is considered to be operating without a license and the license affected may be revoked or suspended by the department.

(7) The alcoholic beverage inventory of an existing licensee may be transferred under the following scenarios:

(a) on a bona fide sale of the business operated under a license when the department:

(i) has granted temporary operating authority to the buyer to operate the license; or

(ii) has approved transfer of the license to the buyer;

(b) on a license type change at an existing licensed premises when the department has granted temporary operating authority or approved the issuance of the new license, as long as the alcoholic beverage is allowed by the new license type;

(c) on approval of a corporate structure change at an existing licensed premises;

(d) on the sale of a license to be floated out of a quota area when the department has granted temporary operating authority or approved the license transfer; or

(e) when a licensee is going out of business but only if the unopened alcohol is in its original packaging and the licensee receiving the alcohol is licensed for that type of alcohol.

(8) Except as provided in 16-4-204 and subsections (2) through (7) of this section, a license may not be transferred or sold or used for any place of business not described in the license. A license may be subject to mortgage and other valid liens, in which event the name of the mortgagee, on application to and approval of the department, must be endorsed on the license. Beer or wine sold to a licensee on credit pursuant to 16-3-243 or 16-3-406 does not create a lien on a license, but a subsequent licensee has the obligation to pay for the beer or wine.

(ii) for a restaurant located in a quota area with a population of 5,001 to 20,000 persons, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 160% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105;

(iii) for a restaurant located in a quota area with a population of 20,001 to 60,000 persons, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 100% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105;

(iv) for a restaurant located in a quota area with a population of 60,001 persons or more, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 80% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105; and

(v) for a restaurant located in a quota area that is also a resort community, as defined in 7-6-1501, if the number of restaurant beer and wine licenses issued in the quota area that is also a resort community is equal to or less than 200% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105.

(b) In determining the number of restaurant beer and wine licenses that may be issued under this subsection (5) based on the percentage amounts described in subsections (5)(a)(i) through (5)(a)(v), the department shall round to the nearer whole number.

(c) If the department has issued the number of restaurant beer and wine licenses authorized for a quota area under subsection (5)(a)(i), there must be a one-time adjustment of four additional licenses for that quota area.

(d) (i) When the 5-mile boundary of one incorporated city or incorporated town overlaps the 5-mile boundary of another incorporated city or incorporated town, the quota area for each city or town terminates in a straight line equidistant between each city or town. A license that is restricted by quota limitations in this section may not be located farther than:

(A) the county boundary within which the incorporated city or incorporated town is located; or

(B) the line that separates the incorporated city's or incorporated town's boundary from another incorporated city or incorporated town as specified in this section.

(ii) If there are more than two overlapping quota areas, the quota area for each city or town terminates from the center of the overlap in a straight line to the intersecting exterior point of overlap. Licenses existing as of November 24, 2017, will be designated as belonging to whichever quota area they are in as a result of the straight line equidistant between each city or town, except for the following:

(A) In the Helena and East Helena previously combined quota area, the straight line will be drawn connecting the two outermost edges of the Helena corporate boundaries and extend outward to the quota area boundaries. Any license existing as of November 24, 2017, with a physical address of Helena will become a Helena license or with a physical address of East Helena will become an East Helena license, regardless of where it falls in the new quota areas.

(B) In the Pinesdale and Hamilton previously combined quota area, the straight line will be drawn along Mill Creek road to the quota area boundaries.

(C) In the Polson and Ronan quota areas, the straight line will be drawn from U.S. highway 93 west on Pablo West road to the quota area boundary and east on Clairmont road extending out to the quota area boundary. Any license existing as of November 24, 2017, within the Polson quota area will become a Polson license, regardless of where it falls in the new quota areas. Any license existing as of November 24, 2017, within the Ronan quota area will become a Ronan license, regardless of where it falls in the new quota areas.

(6) For a period of 12 years after November 24, 2017, existing licenses or licenses that resulted from applications in process as of November 24, 2017, in either of two quota areas that were established as provided in 16-4-105 and subsection (5)(d) of this section may be transferred between the two quota areas if they were part of the combined quota area prior to November 24, 2017.

(7) When more than one new restaurant beer and wine license is subject to the competitive bidding process in the same quota area, the department shall conduct a separate competitive bidding process at separate times for each available license.

(8) When a restaurant beer and wine license becomes available by the initial issuance of licenses under this section or as the result of an increase in the population in a quota area, the

nonrenewal of a restaurant beer and wine license, or the lapse or revocation of a license by the department, then the department shall advertise the availability of the license in the quota area for which it is available.

(9) When the department determines that a quota area is eligible for a new restaurant beer and wine license under subsection (6) or (8), the department shall use a competitive bidding process as provided in 16-4-430 to determine the party afforded the opportunity to apply for a new license.

(10) (a) Except as provided in subsection (10)(b), beer and wine may be sold for off-premises consumption, including curbside pickup, between the hours of 11 a.m. and 11 p.m. in original packaging, prepared servings, or growlers. If offering off-premises sales, food must also be ordered, the purchase price of the off-premises beer and wine may not exceed the purchase price of the food ordered, the beer or wine must be stated on the food bill, and the sales must count toward the 65% limit as provided in this section.

(b) A restaurant beer and wine licensee may apply to the department and pay a fee for an endorsement to, with the licensee's own employees 21 years of age or older, deliver beer and wine in original packaging if the delivery includes food that is prepared by the licensee at the licensee's premises. The purchase price of the delivered beer and wine may not exceed the purchase price of the delivered food.

(11) The amount of the initial licensing fee is determined according to the following schedule and must be paid before the license is issued:

(a) $5,000 for restaurants with a stated seating capacity of 60 persons or fewer;

(b) $10,000 for restaurants with a stated seating capacity of 61 to 100 persons; or

(c) $20,000 for restaurants with a stated seating capacity of 101 persons or more.

(12) The annual fee for a restaurant beer and wine license is $400.

(13) If a restaurant licensed under this part increases the stated seating capacity of the licensed restaurant or if the department determines that a licensee has increased the stated seating capacity of the licensed restaurant, then the licensee shall pay to the department the difference between the fees paid at the time of filing the original application and issuance of a license and the applicable fees for the additional seating.

(14) The number of licenses issued under this section to restaurants with a stated seating capacity of 101 persons or more may not exceed 25% of the number of restaurant beer and wine licenses allowed in the quota area.

(15) Possession of a restaurant beer and wine license is not a qualification for licensure of any gaming or gambling activity. A gaming or gambling activity may not occur on the premises of a restaurant with a restaurant beer and wine license.

(16) A person licensed under this section may possess and use liquor in the kitchen of the licensed premises only for the preparation of food and as long as the alcohol content is cooked out of the food at the time of serving. Nothing in this subsection authorizes a licensee to consume, sell, serve, or give away liquor.

(17) The department may adopt rules to implement this section.

16-4-420. *(Effective July 1, 2024)* **Restaurant beer and wine license — competitive bidding — rulemaking.** (1) The department shall issue a restaurant beer and wine license to an applicant whenever the department determines that the applicant, in addition to satisfying the requirements of this section, meets the following qualifications and conditions:

(a) the applicant complies with the licensing criteria provided in 16-4-401 for an on-premises consumption license;

(b) the applicant operates a restaurant at the location where the restaurant beer and wine license will be used or satisfies the department that:

(i) the applicant intends to open a restaurant that will meet the requirements of subsection (4) and intends to operate the restaurant so that at least 65% of the restaurant's gross income during its first year of operation is expected to be the result of the sale of food. The department may audit the 65% requirement at any time in the first year of ownership.

(ii) the restaurant beer and wine license will be used in conjunction with that restaurant, that the restaurant will serve beer and wine only to a patron who orders food, and that beer and wine purchases will be stated on the food bill; and

(iii) the restaurant will serve beer and wine from a service bar, as service bar is defined by the department by rule; and

(c) the applicant states the planned seating capacity of the restaurant, if it is to be built, or the current seating capacity if the restaurant is operating.

(2) A completed application for a license under this section and the appropriate application fee, as provided in subsection (8), must be submitted to the department. The department shall investigate the items relating to the application as described in subsections (2)(a) and (2)(b). Based on the results of the investigation and the exercise of its sound discretion, the department shall determine whether:

(a) the applicant is qualified to receive a license; and

(b) (i) the applicant's premises are suitable for the carrying on of the business;

(ii) the applicant is qualified to receive a license prior to a determination that the applicant's premises are suitable for carrying on with the business in accordance with 16-4-417; or

(iii) if the applicant has already been issued a license, the proposed premises are suitable for the carrying on of the business and the seating capacity stated on the application is correct.

(3) An application for a license submitted under this section is subject to the provisions of 16-4-203, 16-4-207, and 16-4-405.

(4) (a) For purposes of this section, "restaurant" means a public eating place:

(i) where individually priced meals are prepared and served for on-premises consumption;

(ii) where at least 65% of the restaurant's annual gross income from the operation must be from the sale of food prepared on the premises and not from the sale of alcoholic beverages. Each year after a license is issued, the applicant shall file with the department a statement, in a form approved by the department, attesting that at least 65% of the gross income of the restaurant during the prior year resulted from the sale of food prepared on the premises.

(iii) that has a dining room, a kitchen, and the number and kinds of employees necessary for the preparation, cooking, and serving of meals in order to satisfy the department that the space is intended for use as a full-service restaurant. The dining room for the restaurant must contain at least half of the total available seats.

(iv) that serves an evening dinner meal at least 4 days a week for at least 2 hours a day between the hours of 5 p.m. and 11 p.m.

(b) The term does not mean a fast-food restaurant that, excluding any carry-out business, serves a majority of its food and drink in throw-away containers not reused in the same restaurant.

(c) The provisions of subsections (4)(a)(iv) and (4)(b) do not apply to a restaurant for which a restaurant beer and wine license was in effect as of April 9, 2009, or to subsequent renewals of that license.

(1) (a) When the department determines that a quota area is eligible for a license under 16-4-105, 16-4-201, 16-4-204, or 16-4-420, the department shall use a competitive bidding process to determine the party afforded the opportunity to apply for the license. The department shall use a competitive bidding process when:

(i) a new license becomes available in a quota area where a license of the same type is not currently available in the quota area;

(ii) the opportunity to transfer a license into a quota area becomes available where a license of the same type is not currently available in the quota area;

(iii) the lapse, revocation, or issuance of a license within the quota area where the license is located has created the last remaining license for that license type in the quota area; or

(iv) the department's denial of an application for licensure or an applicant's withdrawal of an application for licensure has created the last remaining license for that license type in a quota area.

(b) The department shall:

(i) determine the minimum bid based on 75% of the market value of applicable licenses in the quota area;

(ii) publish notice that a quota area is eligible for a new license;

(iii) notify the bidder with the highest bid; and

Any extension request must be made in writing to the department prior to the deadline for commencing business.

(5) If the highest bidder is not approved to own the license, the department shall offer the license to the next highest bidder. That bidder shall comply with the requirements of subsection (4). If no qualified bidder is approved to own the license, the department shall reopen the competitive bidding process for the license.

(6) (a) If no bids are received during the competitive bidding process, the department shall reopen the bid at a lower bid amount than initially determined in subsection (1).

(b) If, after holding a competitive bidding process, the department determines that there is no significant market value for a particular license, the department may withdraw that license from the competitive bidding process and process applications for the license in the order received.

(c) If a quota area is already eligible for a license as of November 24, 2017, the department shall process applications for the license in the order received.

(7) (a) The successful applicant is subject to forfeiture of the license, the license fees, and the original bid amount if the successful applicant:

(i) applies to transfer the awarded license to another person or business entity within 1 year after receiving the license unless that transfer is due to a death of an owner;

Evidence of the delay must be made in writing to the department prior to the deadline for commencing business.

(b) If a license is forfeited, the department shall determine whether there is a lien against the license. If there is a lien, the department shall notify the lienholder or secured party of the forfeiture and the lienholder or secured party may foreclose on the license and request transfer of the license pursuant to 16-4-801. If there is not a lien on the license or if the lienholder or secured party does not foreclose on the license pursuant to 16-4-801, the department shall conduct another competitive bidding process for the license.

(8) A license issued under this section is not eligible to offer gambling under Title 23, chapter 5, part 3, 5, or 6.

(9) Nothing in subsection (7) relating to forfeiture prohibits a lienholder or secured party from foreclosing on a license. A lien may be placed on a license issued under this section and may be foreclosed on. If a license is foreclosed on, the department shall keep the license fees and the original bid amount and the lienholder or secured party may resell the license, pending department approval of the applicant.

In any event, the department must be notified within 180 days of the death or the judicial determination of incapacity of the licensee or owner of the licensee.

(2) The department may give the appointed conservator, guardian, personal representative, executor, or administrator or a trustee, or a designee of the appointed conservator, guardian, personal representative, executor, or administrator or a trustee, written approval to continue operation of the licensed business for the duration of the existing license and to renew the license when it expires. The appointed conservator, guardian, personal representative, executor,

or administrator or a trustee, or a designee, must qualify for ownership of a license as provided in 16-4-401. If the department does not grant written approval to continue operation of the licensed business or the appointed conservator, guardian, personal representative, executor, or administrator or a trustee, or a designee, does not qualify for ownership of a license as provided in 16-4-401, the license must be placed on nonuse status.

(3) Within 60 days of the closing of a decedent's estate or the judicial determination of restored capacity of a previously incapacitated licensee or owner of a license and removal of a conservator or guardian, the department must be provided with a copy of a court order or other documentation resolving the matter and, if a transfer is warranted, the true party of interest shall apply to transfer the license.

(4) The department may adopt rules to implement this section.

Part 8
Liquor License Security Interest

16-4-801. Security interest in alcoholic beverage license — definitions. (1) (a) A security interest in an alcoholic beverage license is an interest in the alcoholic beverage license that secures payment or performance of an obligation. A contract for the sale of an alcoholic beverage license, including a provision allowing the seller to retain an ownership interest in the license solely for the purpose of guaranteeing payment for the license, may, for the purposes of this section, be treated as a security interest.

(b) For the purposes of this section:

(i) "alcoholic beverage" means a license issued under this chapter; and

(ii) "default" means that:

(A) the defaulting party has acknowledged in writing pursuant to the terms of a written security agreement or contract for sale that the defaulting party no longer has any ownership interest or any other rights to possess or control the alcoholic beverage license;

(B) a court of competent jurisdiction has made an order foreclosing all of the defaulting party's interests in the license; or

(C) there has been a nonjudicial sale by the secured party made pursuant to the Uniform Commercial Code and the secured party has provided written proof of the sale to the department.

(2) The department, after review of the underlying documents creating the security interest, may approve a transfer of ownership of an alcoholic beverage license subject to a

security interest as provided in subsection (1). A person holding a security interest may not have any control in the operation of the business operated under a license subject to a security interest nor may that person share in the profits or the liabilities of the business other than the payment or performance of the licensee's obligation under a security agreement.

(3) (a) Within 7 days of a default by a licensee, the person holding the security interest shall give notice to the department of the licensee's default and either apply to have the license transferred to that person, subject to that person meeting the requirements of 16-4-401 and all other applicable provisions of this code, or the person shall place the license on nonuse status. On receipt of an application to transfer the license, the department may, pursuant to 16-4-433, grant the applicant temporary operating authority to operate the license. If the person holding the license places the license on nonuse status, the person shall transfer ownership of the license within 180 days from the date on which the notice of the default was given to the department. The operation of a business under a license by a person holding a security interest for more than 7 days after default of the licensee or without temporary operating authority issued by the department must be considered to be a violation of this code and constitutes grounds for the department to either deny an application for transfer of the license or for the revocation of the license pursuant to 16-4-406.

(b) If the person holding the security interest does not qualify for or cannot qualify for ownership of an alcoholic beverage license under 16-4-401, the secured party shall transfer ownership of the alcoholic beverage license within 180 days of the notice of the default of the licensee.

(c) The department, on a showing of good cause, may in its discretion extend the time for sale of the license for an additional period of up to 180 days.

(4) (a) A regulated lender, as defined in 31-1-111, may obtain a security interest in an alcoholic beverage license or in other assets of a business operating an alcoholic beverage license to secure a loan or a guaranty of a loan. A regulated lender may use loan and collateral documentation and loan and collateral structure consistent with that used by the regulated lender in commercial loans generally, and the documentation and structure used by the lender do not create an undisclosed ownership interest in the alcoholic beverage license or the licensee's business by a coborrower or guarantor if the department determines the borrower, coborrower, guarantor, and owner or owners of the assets pledged as collateral meet the requirements of 16-4-401. As used in this subsection (4), permissible loan and collateral structuring includes but is not limited to permitting owners and nonowners of an alcoholic beverage license to:

(i) be coborrowers of a borrower's loan;

(ii) be guarantors of a borrower's loan, with or without a requirement that the regulated lender exhaust remedies against the borrower before collecting from the guarantor; or

(iii) pledge assets as collateral for a borrower's loan or for a guaranty of a borrower's loan.

(b) A person claiming a security interest in an alcoholic beverage license may submit to the department copies of documents evidencing the security interest, the license number, and a $30 notification fee. The department shall deposit the fee as provided in 16-2-108. The department may create and provide a form to be used for this purpose.

(c) The department shall notify those that have filed information provided in subsection (4)(b):

(i) at least 20 days prior to issuance of an order of default for revocation, nonrenewal, or lapse of a license; or

(ii) immediately after the department's office of dispute resolution has issued a decision to uphold the department's revocation or nonrenewal of a license under 16-4-406 or lapse of a license under 16-3-310.

(5) When a licensee is the borrower, an owner of the licensee may make a payment on the institutional loan. If a payment is made under this subsection (5):

(a) the party making the payment must be vetted and approved prior to making the payment;

(b) the licensee shall notify the department within 90 days that the payment was made and designate whether the payment will be treated as a loan or an equity investment as follows:

(i) for a payment treated as a loan, the licensee shall memorialize the loan by a written agreement, which must be provided to the department; or

(ii) for a payment treated as an equity investment, if a change in ownership percentage occurs as a result, the licensee shall follow department requirements for disclosing changes in ownership percentages; and

(c) the funds used for the payment must be the party's own funds or funds borrowed from an institutional lender.

(6) If a borrower, coborrower, or guarantor is not the licensee or an owner of the licensee, the coborrower or guarantor may make a payment on the institutional loan, and the payment does not create an undisclosed ownership interest in the alcoholic beverage license by the borrower, coborrower, or guarantor only if:

(a) the licensee notifies the department within 90 days that the payment was made;

(b) the payment is made as a loan that is memorialized by a written agreement; and

(c) the funds used for the payment are the coborrower's or guarantor's own funds or funds borrowed from an institutional lender.

(7) A regulated lender that obtains a security interest in an alcoholic beverage license or in other assets of a business operating an alcoholic beverage license has no duty to ensure a coborrower's or guarantor's compliance with the requirements of subsection (5) or (6) in connection with loan or guaranty payments it may receive from the coborrower or guarantor.

(8) For the purposes of subsections (5) and (6), the term "borrower" means the party that is primarily responsible for making payments and that receives the funds or on whose behalf the funds were paid.

16-6-306. Bottle clubs prohibited. (1) The operation of alcoholic beverage bottle clubs is prohibited by any individual or entity. A bottle club is defined as any individual or entity maintaining, operating, or leasing premises not licensed for the sale of alcoholic beverages in which alcoholic beverages are kept for consumption by members of the public or for the purpose of providing a place for consuming alcoholic beverages by members of the public for a fee or other consideration. For the purposes of this subsection, "consideration" includes but is not limited to a cover charge, the sale of food, ice, mixers, or any other fluids for alcoholic beverages, the furnishing of glassware or other containers for use in the consumption of alcoholic beverages, or the expectation of a purchase of a good or service.

(2) Nothing in this section prevents the service or consumption of alcoholic beverages at private gatherings. For the purposes of this subsection, "private gathering" means an event hosted by an individual that is not open to the general public and in which no fee or consideration is charged. The term does not include an event catered by a licensed retailer.

(3) Nothing in this section prohibits a licensed on-premises retailer or concessionaire from opening and serving to patrons 21 years of age or older wine from a sealed bottle brought to the premises by the patron for on-premises consumption. This service may not constitute a violation of 16-3-301 or this section, regardless of whether the licensed retailer charges a corkage fee.

(4) The department may assess a fine of up to $500 against individuals or entities serving alcoholic beverages or allowing consumption of alcoholic beverages in violation of subsection (1) without a license or special permit.

The action must be brought and tried as an action in equity and may be brought in any court having jurisdiction to hear and determine equity cases. If it appears, by affidavits or otherwise, to the satisfaction of the judge that the nuisance exists, a temporary writ of injunction must be issued restraining the defendant from conducting or permitting the continuance of the nuisance until the conclusion of the trial. History: En. Sec. 1, Ch. 258, L. 1965; R.C.M. 1947, 51-302.

16-10-102. Declaration of policy. The advertising, offering for sale, or sale of cigarettes below cost in the retail and wholesale trades is an unfair and deceptive business practice. It is the policy of the state to promote the public welfare, and it is the purpose of this chapter to carry out that policy in the public interest, stabilize the sale of cigarettes, and maximize and protect the state revenues from this source.

16-10-103. Definitions. When used in this chapter, except when the context clearly indicates a different meaning, the following definitions apply:

(1) "Basic cost of cigarettes" means the list cost of cigarettes as reported to the department by the manufacturer without any deductions for discounts or taxes of any kind.

(2) "Business day" means any day other than a Sunday or a legal holiday.

(3) "Cigarettes" means any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and whether or not the tobacco is flavored, adulterated, or mixed with any other ingredient, the wrapper or cover of which is made of nontobacco paper or any other substance or material except tobacco.

(4) (a) The term "cost to the retailer" means the cost to the wholesaler from whom the cigarettes were purchased by the retailer plus the cost of doing business by the retailer as evidenced by the standards and methods of accounting regularly employed by the retailer in the retailer's determination of costs for income tax reporting purposes for the total operation of the retailer's establishment. Cost of doing business by the retailer includes, without limitation:

(i) labor costs (including salaries of executives and officers);

(ii) rent;

(iii) depreciation;

(iv) selling costs;

(v) maintenance of equipment;

(vi) delivery costs;

(vii) all types of licenses;

(viii) all types of business taxes;

(xiii) any district, central, regional, and national administrative and operation costs and expenses; and

(xiv) all other indirect or overhead costs with respect to the operation of the business of the retailer.

(b) The cost of doing business by the retailer must be expressed as a percentage and applied to the cost to the wholesaler from whom the cigarettes were purchased.

(c) A retailer who purchases directly from a manufacturer or from any other person at or at less than or about the price normally and usually charged for purchases in wholesale quantities shall, in determining the cost to the retailer, add the cost of doing business by the wholesaler, as determined in subsection (5)(b), to the basic cost of cigarettes to the retailer, as well as the cost of doing business by the retailer.

(d) In the absence of the filing with the department of satisfactory proof of a lesser or higher cost of doing business by the retailer making the sale, the cost of doing business by the retailer is presumed to be 10% of the cost to the wholesaler.

(5) (a) The term "cost to the wholesaler" means the basic cost of cigarettes purchased by the wholesaler from a manufacturer plus the cost of doing business by the wholesaler as evidenced by the standards and methods of accounting regularly employed by the wholesaler in the wholesaler's determination of costs for income tax reporting purposes for the total operation of the wholesaler's business. The cost of doing business by the wholesaler includes, without limitation:

(i) labor costs (including salaries of executives and officers);

(ii) rent;

(iii) depreciation;

(iv) selling costs;

(v) maintenance of equipment;

(vi) delivery costs;

The cartage cost, in the absence of the filing with the department of satisfactory proof of a lesser or higher cost, is considered to be 3/4 of 1% of the basic cost of cigarettes to the wholesaler.

(7) "Manufacturer" means any person who fabricates cigarettes from raw materials for the purpose of resale.

Part 2
Sales Price of Cigarettes

16-10-201. Wholesaler-to-wholesaler sales. When one wholesaler sells cigarettes to any other wholesaler, the former may not be required to include in the selling price to the latter the cost to the wholesaler, as provided by 16-10-103, except that no such sale may be made at a price less than the basic cost of cigarettes, as defined in 16-10-103, but the latter wholesaler, upon resale to a retailer, is considered to be the wholesaler governed by the provisions of 16-10-103(5).

History: En. Sec. 4, Ch. 258, L. 1965; R.C.M. 1947, 51-305; amd. Sec. 6, Ch. 578, L. 1995.

History: En. Sec. 5, Ch. 258, L. 1965; R.C.M. 1947, 51-306.

16-10-203. Sales to meet competition permitted. (1) (a) A retailer may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is selling the same article at cost to the competitor as a retailer as prescribed in this chapter.

(b) Any wholesaler may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is rendering the same type of service and is selling the same article at cost to the competitor as a wholesaler as prescribed in this chapter.

(c) The price of cigarettes advertised, offered for sale, or sold under the exceptions specified in 16-10-304 may not be considered the price of a competitor and may not be used as a basis for establishing prices below cost, and the price established at a bankruptcy sale may not be considered the price of a competitor within the purview of this section.

(2) In the absence of proof of the "price of a competitor" under this section, the "lowest cost to the retailer" or the "lowest cost to the wholesaler", determined by any "cost survey" made pursuant to 16-10-303, may be considered to be the "price of a competitor" within the meaning of this section.

History: En. Sec. 7, Ch. 258, L. 1965; R.C.M. 1947, 51-308; amd. Sec. 209, Ch. 56, L. 2009.

16-10-204. Determining cost — prices below cost — free merchandise. (1) In determining the cost to the retailer and the cost to the wholesaler, the department or a court shall receive and consider evidence tending to show that any person accused of violating the provisions of this chapter purchased cigarettes, with respect to the sale of which complaint is made, below either the cost to the retailer or the cost to the wholesaler, depending upon the status of the person accused, or upon terms or in a manner or under invoices that conceal the true cost, discounts, or terms of purchase. Further, the department or a court shall receive and consider evidence of the normal, customary, and prevailing terms and discounts in connection with other sales of a similar nature in this state.

(2) Merchandise given gratis or payment made to a retailer or wholesaler by the manufacturer of the merchandise for display, advertising, promotion purposes, any type of discount, or otherwise may not be considered in determining the cost of cigarettes to the retailer or wholesaler.

History: **En. Sec. 9, Ch. 258, L. 1965; R.C.M. 1947, 51-310; amd. Sec. 7, Ch. 578, L. 1995.**

16-10-205. Purchases outside ordinary trade channels. In establishing the cost of cigarettes to the retailer or wholesaler, the invoice cost of said cigarettes purchased at a forced, bankrupt, or closeout sale or other sale outside of the ordinary channels of trade may not be used as a basis for justifying a price lower than one based upon the replacement cost of the cigarettes to the retailer or wholesaler in the quantity last purchased through the ordinary channels of trade.

History: **En. Sec. 10, Ch. 258, L. 1965; R.C.M. 1947, 51-311.**

(b) offer a rebate in price, give a rebate in price, offer a concession of any kind, or give a concession of any kind in connection with the sale of cigarettes that are sold by the wholesaler or retailer in the ordinary course of trade or business if the rebate or concession offered or given in connection with the sale of cigarettes is not offered or given by the wholesaler or retailer in the same ratio with respect to all other merchandise to which the rebate or concession may lawfully be given;

(2) for any retailer to:

(a) induce or attempt to induce or procure or attempt to procure the purchase of cigarettes at a price less than the cost to the wholesaler, as defined in this chapter;

Part 4
Tobacco Products Reserve Fund — Administration

16-11-401. Findings and purpose. (1) Cigarette smoking presents serious public health concerns to the State and to the citizens of the State. The Surgeon General has determined that smoking causes lung cancer, heart disease and other serious diseases, and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking.

(2) Cigarette smoking also presents serious financial concerns for the State. Under certain health-care programs, the State may have a legal obligation to provide medical assistance to eligible persons for health conditions associated with cigarette smoking, and those persons may have a legal entitlement to receive such medical assistance.

(3) Under these programs, the State pays millions of dollars each year to provide medical assistance for these persons for health conditions associated with cigarette smoking.

(4) It is the policy of the State that financial burdens imposed on the State by cigarette smoking be borne by tobacco product manufacturers rather than by the State to the extent that such manufacturers either determine to enter into a settlement with the State or are found culpable by the courts.

(5) On November 23, 1998, leading United States tobacco product manufacturers entered into a settlement agreement, entitled the "Master Settlement Agreement," with the State. The Master Settlement Agreement obligates these manufacturers, in return for a release of past, present and certain future claims against them as described therein, to pay substantial sums to the State (tied in part to their volume of sales); to fund a national foundation devoted to the interests of public health; and to make substantial changes in their advertising and marketing practices and corporate culture, with the intention of reducing underage smoking.

(6) It would be contrary to the policy of the State if tobacco product manufacturers who determine not to enter into such a settlement could use a resulting cost advantage to derive large, short-term profits in the years before liability may arise without ensuring that the State will have an eventual source of recovery from them if they are proven to have acted culpably. It is thus in the interest of the State to require that such manufacturers establish a reserve fund to guarantee a source of compensation and to prevent such manufacturers from deriving large, short-term profits and then becoming judgment-proof before liability may arise.

History: En. Sec. 1, Ch. 412, L. 1999.

The department of revenue shall promulgate such regulations as are necessary to ascertain the amount of State excise tax paid on the cigarettes of such tobacco product manufacturer for each year.

If 16-11-403(2)(b)(ii) is voided under this section or is declared invalid, all other portions of 16-11-403 remain in effect in all valid applications that are severable from the voided or invalid applications."

16-11-404. Attorney fees and costs. (1) In an action under 16-11-403(2)(c), the court, upon a finding that a tobacco product manufacturer has failed to comply with its obligations under 16-11-403(1) or (2)(a), shall award the attorney general the expenses incurred in investigating the claim, the costs of suit, and reasonable attorney fees. In cases in which outside counsel represents the attorney general, the attorney fees awarded must equal the outside counsel charges reasonably incurred by the attorney general for attorney fees and expenses in prosecuting the action. In all other cases, the attorney fees must be calculated by reference to the hourly rate charged by the agency legal services bureau for the provision of legal services to state agencies, multiplied by the number of attorney hours devoted to the prosecution of the action, plus the actual cost of any expenses reasonably incurred in the prosecution of the action.

(2) Investigation expenses, attorney fees, and costs recovered under this section are allocated to the department of justice for deposit in the attorney general's major litigation account and may be used by the attorney general for any purpose for which funds appropriated to that account may be used. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003.)*

16-11-503. Certifications. (1) Every tobacco product manufacturer whose cigarettes are sold in this state, whether directly or through a wholesaler, distributor, retailer, or similar intermediary or intermediaries, shall execute and deliver, on a form prescribed by the attorney general, a certification to the director of the department and the attorney general, no later than April 30 of each year, certifying under penalty of perjury that, as of the date of the certification, the tobacco product manufacturer either is a participating manufacturer or is in full compliance with parts 4 and 5 of this chapter and any rules adopted pursuant to 16-11-511.

(2) A participating manufacturer shall include in its certification a list of its brand families.

(6) A tobacco product manufacturer may not include a brand family in its certification unless:

(8) A tobacco product manufacturer shall maintain all invoices and documentation of sales and other similar information relied upon for its certifications for a period of 5 years unless otherwise required by law to maintain them for a longer period of time. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

16-11-504. Directory of cigarettes approved for stamping and sale. (1) Not later than July 16, 2003, the attorney general shall develop and publish on the attorney general's website a directory listing all tobacco product manufacturers that have provided current and accurate certifications conforming to the requirements of 16-11-503 and all brand families that are listed in the certifications, except as otherwise provided in this section.

(2) The attorney general may not include or retain in the directory the name or brand families of any nonparticipating manufacturer that has failed to provide the required certification or whose certification the attorney general determines is not in compliance with 16-11-503, unless the attorney general has determined that the violation has been cured to the satisfaction of the attorney general.

(3) Neither a tobacco product manufacturer nor a brand family may be included or retained in the directory if the attorney general concludes, in the case of a nonparticipating manufacturer that:

(a) an escrow payment required pursuant to 16-11-403 for any period for any brand family, whether or not listed by the nonparticipating manufacturer, has not been fully paid into a qualified escrow fund governed by a qualified escrow agreement that has been approved by the attorney general; or

(b) an outstanding final judgment, including interest on the judgment, for a violation of 16-11-403 has not been fully satisfied for the brand family or the manufacturer.

(4) The attorney general shall update the directory as necessary in order to correct mistakes and to add or remove a tobacco product manufacturer or brand family to keep the directory in conformity with the requirements of this part. The attorney general shall post in the directory and transmit by electronic mail and certified mail, return receipt requested, to each wholesaler notice of the intended removal from the directory of a tobacco product manufacturer or brand family no less than 30 days prior to the removal. During that period, cigarettes of the tobacco product manufacturer or brand family subject to the notice are contraband under 16-11-147 and the affixing of tax insignia to or the sale or possession for sale of the cigarettes is unlawful as provided in 16-11-505, except that, notwithstanding the provisions of 16-11-147 and 16-11-505:

(a) a wholesaler may affix tax insignia to, possess for sale, or sell at wholesale cigarettes of any tobacco product manufacturer or brand family subject to notice of removal under this subsection (4) if the cigarettes were shipped to the wholesaler on or before the date of issuance of the notice and if the total number of the cigarettes sold by the wholesaler following issuance of the notice of removal and prior to reinstatement of the tobacco product manufacturer or brand family in the directory does not exceed a number that is the average of the number of cigarettes of the tobacco product manufacturer or brand family sold by the wholesaler during each of the 3 months preceding the issuance of the notice; and

(b) a licensed seller at retail may possess and sell cigarettes of a tobacco product manufacturer or brand family that the attorney general has removed from the directory or that is subject to notice of removal if the cigarettes were lawfully shipped to the retailer before the issuance of the notice of removal or after the issuance of notice of removal but before the attorney general removes the tobacco product manufacturer or brand family from the directory. A contract with a tobacco product manufacturer that has been removed from the directory that purports to require, contemplate, or provide for delivery of cigarettes or tobacco products in any applicable brand family after the date of removal from the directory is not valid or enforceable.

(5) Every wholesaler shall provide and update as necessary an electronic mail address to the attorney general for the purpose of receiving any notifications required by this part. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

(1) Any nonresident or foreign nonparticipating manufacturer that has not registered to do business in the state as a foreign corporation or business entity shall, as a condition precedent to having its brand families included or retained in the directory, appoint and continually engage without interruption the services of an agent in this state to act as agent for the service of process on whom all process, and any action or proceeding against it concerning or arising out of the enforcement of 16-11-403 and this part, may be served in any manner authorized by law. The service constitutes legal and valid service of process on the nonparticipating manufacturer. The nonparticipating manufacturer shall provide the name, address, phone number, and proof of the appointment and availability of the agent to the satisfaction of the attorney general.

(2) The nonparticipating manufacturer shall provide notice to the attorney general at least 30 calendar days prior to termination of the authority of an agent and shall further provide proof to the satisfaction of the attorney general of the appointment of a new agent no less than 5 calendar days prior to the termination of an existing agent appointment. If an agent terminates an agency appointment, the nonparticipating manufacturer shall notify the attorney general of the termination within 5 calendar days and include proof to the satisfaction of the attorney general of the appointment of a new agent. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

16-11-507. Reporting of information. (1) Not later than 20 calendar days after the end of each calendar quarter and more frequently if directed by the attorney general, each wholesaler shall submit information that the attorney general requires to facilitate compliance with this section by nonparticipating manufacturers, including but not limited to a list by brand family of the total number of nonparticipating manufacturer cigarettes or, in the case of nonparticipating manufacturer roll-your-own tobacco, the equivalent amount of tobacco, calculated as provided in 16-11-402(4), on which the wholesaler precollected tax as provided in 16-11-113 and that the wholesaler sold during the period covered by the report. The wholesaler shall maintain and make available to the attorney general all invoices and documentation of sales of all nonparticipating manufacturer cigarettes and any other information relied upon in reporting to the attorney general for a period of 5 years.

(2) The department is authorized to disclose to the attorney general any information received by it and requested by the attorney general for purposes of determining compliance with and enforcing the provisions of this part. The department and attorney general shall share the information received under this part with each other and may share the information with other federal, state, or local agencies only for the purposes of enforcement of 16-11-403, this part, or the corresponding laws of other states.

(3) The attorney general may require at any time from the nonparticipating manufacturer proof from the financial institution in which the manufacturer has established a qualified escrow fund for the purpose of compliance with 16-11-403 of:

(a) the amount of money in the fund, exclusive of interest;

(b) the amount and dates of each deposit to the fund; and

(c) the amount and dates of each withdrawal from the fund.

(4) In addition to the information required to be submitted pursuant to subsections (1) through (3), the attorney general may require a wholesaler or tobacco product manufacturer to submit any additional information, including but not limited to samples of the packaging or labeling of each brand family, to enable the attorney general to determine whether a tobacco product manufacturer or wholesaler is in compliance with this part. All information submitted by a wholesaler or tobacco product manufacturer under this section must be full, complete, and accurate. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

History: **En. Sec. 7, Ch. 397, L. 2003; amd. Sec. 5, Ch. 324, L. 2005; amd. Sec. 32, Ch. 511, L. 2005.**

16-11-508. Escrow installments. To promote compliance with the provisions of this part the attorney general may adopt rules requiring a tobacco product manufacturer to make the escrow deposits required in 16-11-403 in installments during the year in which the sales covered by the deposits are made. The attorney general may require production of information sufficient to enable the attorney general to determine the adequacy of the amount of the installment deposit. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

History: En. Sec. 8, Ch. 397, L. 2003.

16-11-509. Penalties and other remedies. (1) In addition to any other civil or criminal remedy provided by law, upon a determination that a wholesaler has violated 16-11-505 or any rule adopted pursuant to that section, the department may revoke or suspend the license of the wholesaler in the manner provided by 16-11-144 in a proceeding initiated by the department or at the request of the attorney general. For each violation of 16-11-505, a civil penalty in the amount of $250 for the first full or partial pack and $10 for each additional full or partial pack to which a tax insignia is affixed or that is sold, offered for sale, or possessed for sale in violation of 16-11-505 may be imposed. Each tax insignia affixed, each offer to sell cigarettes, and each pack sold, offered for sale, or possessed for sale in violation of 16-11-505 constitutes a separate violation. The penalty may be imposed in the manner provided by 16-11-143(2) in a proceeding brought by the department or the attorney general.

(2) Any cigarettes that have been sold, offered for sale, or possessed for sale in this state in violation of 16-11-505 may be considered contraband under 16-11-147. The cigarettes are subject to seizure and forfeiture as provided in 16-11-147, and all cigarettes seized and forfeited must be destroyed and not resold.

(3) The attorney general may seek an injunction to restrain a threatened or actual violation of 16-11-505 or 16-11-507(1) or (4) by a wholesaler and to compel the wholesaler to comply with those sections.

(4) (a) In any action brought pursuant to this part, the prevailing party is entitled to recover the costs of the action and reasonable attorney fees calculated as provided in 16-11-404. If the state is the prevailing party, its recoverable costs must include the state's costs of investigation of the violation.

(b) In cases in which the state is the prevailing party and outside counsel represents the attorney general, the attorney fees awarded must equal the outside counsel charges reasonably incurred by the attorney general's office for attorney fees and expenses in prosecuting the action. In all other cases in which the state is the prevailing party, the state's attorney fees must be calculated by reference to the hourly rate charged by the agency legal services bureau of the department for the provision of legal services to state agencies, multiplied by the number of attorney hours devoted to the prosecution of the action, plus the actual cost of any expenses reasonably incurred in the prosecution of the action.

(5) (a) It is unlawful for a person to:

(i) sell, offer for sale, or distribute cigarettes that the person knows or should know are intended for distribution or sale in the state in violation of 16-11-505; or

(ii) acquire, hold, own, possess, transport, import, or cause to be imported cigarettes that the person knows or should know are intended for distribution or sale in the state in violation of 16-11-505.

(b) A violation of this section is a misdemeanor punishable as provided in 16-11-148.

(6) If a court determines that a person has violated this part, the court shall order any profits, gain, gross receipts, or other benefit from the violation to be paid to the state treasurer for deposit in the trust fund created by Article XII, section 4, of the Montana constitution.

(7) Penalties, investigation expenses, attorney fees, and costs recovered under parts 4 and 5 of this chapter are allocated to the department of justice for deposit in the major litigation account and may be used for any purpose for which funds deposited in that account may be used. The funds are statutorily appropriated, as provided in 17-7-502, to the department of justice.

(8) Unless otherwise expressly provided, the remedies or penalties provided by this part are cumulative to each other and to the remedies or penalties available under all other laws of this state. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

History: En. Sec. 9, Ch. 397, L. 2003; amd. Sec. 6, Ch. 324, L. 2005.

16-11-510. Contested case and judicial review of attorney general determinations. A determination of the attorney general not to include or to remove from the directory a brand family or tobacco product manufacturer is subject to review by the attorney general or an employee of the department of justice designated by the attorney general to issue final decisions under this part in the manner prescribed by Title 2, chapter 4, part 6. The decision of the attorney general or designated employee constitutes the final agency decision, and judicial review may be sought from the final decision as provided in Title 2, chapter 4, part 7. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

History: En. Sec. 10, Ch. 397, L. 2003.

16-11-511. Rules. The attorney general may adopt rules necessary to implement part 4 and this part. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

History: En. Sec. 11, Ch. 397, L. 2003; amd. Sec. 7, Ch. 324, L. 2005.

16-11-512. Construction. If a court of competent jurisdiction finds that the provisions of 16-11-401 through 16-11-403 and of this part conflict and cannot be harmonized, then the legislature intends the provisions of 16-11-401 through 16-11-403 to control. Except as specifically provided in this part, the provisions of this part are not intended to and may not be interpreted to override the provisions of 16-11-401 through 16-11-403. *(Certain provisions void on occurrence of contingency—sec. 16, Ch. 397, L. 2003—see part compiler's comment.)*

(ii) purchase a maximum of 5 ounces of usable marijuana a month and no more than 1 ounce of usable marijuana a day.

(b) (i) A registered cardholder may petition the department for an exception to the monthly limit on purchases. The request must be accompanied by a confirmation from the physician who signed the cardholder's written certification that the cardholder's debilitating medical condition warrants purchase of an amount exceeding the monthly limit.

(ii) If the department approves an exception to the limit, the approval must establish the monthly amount of usable marijuana that the cardholder may purchase and the limit must be entered into the seed-to-sale tracking system.

(2) Except as provided in 16-12-108 and subject to the provisions of subsection (7) of this section, an individual who possesses a registry identification card issued pursuant to this part may not be arrested, prosecuted, or penalized in any manner or be denied any right or privilege including but not limited to civil penalty or disciplinary action by a professional licensing board or the department of labor and industry, solely because:

(a) the person cultivates, manufactures, possesses, or transports marijuana in the amounts allowed under this section; or

(b) the registered cardholder acquires or uses marijuana.

(3) A physician may not be arrested, prosecuted, or penalized in any manner or be denied any right or privilege, including but not limited to civil penalty or disciplinary action by the board of medical examiners or the department of labor and industry, solely for providing written certification for a patient with a debilitating medical condition.

(6) Possession of or application for a registry identification card does not alone constitute probable cause to search the person or individual or the property of the person or individual or otherwise subject the person or individual or property of the person or individual possessing or applying for the card to inspection by any governmental agency, including a law enforcement agency.

(7) The provisions of this section relating to protection from arrest or prosecution do not apply to an individual unless the individual has obtained a registry identification card prior to an arrest or the filing of a criminal charge. (i) is in possession of a valid registry identification card; and

(ii) is in possession of an amount of marijuana that does not exceed the amount permitted under this part.

Dedication of Revenue to State Special Revenue Fund

17-1-501. Legislative intent. (1) It is the intent of the legislature, by establishing criteria for the review and evaluation of revenue dedication provisions, to ensure that provisions for revenue dedication:

(a) are based on sound principles of revenue dedication as described in 17-1-507;

(b) reflect present circumstances and legislative priorities for state spending;

(c) are terminated when they are no longer necessary or appropriate; and

(d) are subject to the same legislative scrutiny as programs or activities funded from the general fund.

(2) It is the intent of the legislature, by establishing criteria for the review and evaluation of statutory appropriation provisions, to ensure that provisions with statutory appropriations:

(a) reflect present circumstances and legislative priorities for state spending;

(b) are terminated when they are no longer necessary or appropriate; and

(c) are subject to the same legislative scrutiny as other appropriations.

(3) When revenue is dedicated to a local government, it is the intent of the legislature that the dedicated revenue provision be reviewed in the context of the policy and purpose expressed in 15-1-120.

History: **En. Sec. 1, Ch. 593, L. 1993; amd. Sec. 14, Ch. 509, L. 1995; amd. Sec. 1, Ch. 8, L. 1999; amd. Sec. 1, Ch. 41, L. 2003.**

17-1-502. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Administrative costs" includes:

(a) personal services;

(b) operating expenses, such as travel, supplies, and communication costs; and

(c) capital expenses, such as equipment, building costs, and real property costs.

(2) (a) "Continuing and reliable source of revenue" means a revenue source for which an agency forecasts an annual level of collections based upon historical data and prepares a budget for expenditures commensurate with the level of collections. Collections may not change significantly on an annual basis.

(b) The term does not include revenue:

(i) that an agency will receive only as a result of an occurrence that is not a routine part of agency operations;

(ii) that will vary significantly on an annual basis; or

(iii) that is unable to be included in the agency budget because of the erratic nature of receipt.

(3) "Dedicated revenue provision" means an administrative or legislative action that allocates the revenue from a tax, fee, assessment, or other source to an account in the state special revenue fund, as described in 17-2-102, or to a local government.

(4) "General revenue source" means a source of revenue not governed by established or implied restrictions based on the source or limited use of the revenue. The term includes taxes, interest earnings, investment earnings, fines, and forfeitures.

(5) "Local government" means a municipality, a county, a consolidated government, or a special district.

(6) "State special revenue fund" means a fund in the state treasury consisting of money from state sources that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government, as provided in 17-2-102.

History: En. Sec. 2, Ch. 593, L. 1993; amd. Sec. 15, Ch. 509, L. 1995; amd. Sec. 2, Ch. 41, L. 2003.

17-1-505. Review of dedicated revenue provisions. (1) The legislature recognizes that dedicated revenue provisions are subject to review by:

(a) the office of budget and program planning in the development and implementation of the executive budget and analysis of legislation;

(b) the legislative fiscal division in analyzing the executive budget;

(c) the legislative services division in drafting legislation;

(d) the legislative auditor in auditing agencies;

(e) the department of administration in performing the functions provided for in 17-2-106; and

(f) the department of revenue in reviewing revenue sources and determining distributions to local governments.

(2) To avoid unnecessary and unjustified use of dedicated revenue provisions, the entities listed in subsection (1) shall, in the course of current duties, consider the principles in 17-1-507 and the criteria listed in this subsection for each new or existing dedicated revenue provision. If an entity referred to in subsection (1) determines that the use of a dedicated revenue provision is not justified, the use or proposed use must be reported to the legislative fiscal analyst. A dedicated revenue provision should not give a program or activity an unfair advantage for funding. The expenditures from a dedicated revenue provision must be based on requirements for meeting a legislatively established outcome. Statutorily mandated programs or activities funded through dedicated revenue provisions from general revenue sources must be reviewed to the same extent as programs or activities funded from the general fund. The use of a dedicated revenue provision may be justified if it satisfies one or more of the following:

(a) The program or activity funded provides direct benefits for those who pay the dedicated tax, fee, or assessment, and the tax, fee, or assessment is commensurate with the costs of the program or activity.

(b) The use of the dedicated revenue provision provides special information or other advantages that could not be obtained if the revenue were allocated to the general fund.

(c) The dedicated revenue provision provides program funding at a level equivalent to the expenditures established by the legislature.

(d) The dedicated revenue provision involves collection and allocation formulas that are appropriate to the present circumstances and current priorities in state government.

(e) The dedicated revenue provision does not impair the legislature's ability to scrutinize budgets, control expenditures, and establish priorities for state spending.

(f) The dedicated revenue provision results in an appropriate projected ending fund balance.

(g) The dedicated revenue provision fulfills a continuing, legislatively recognized need.

(h) The dedicated revenue provision does not result in accounting or auditing inefficiency.

(3) A local government dedicated revenue provision may be justified if it satisfies any of the following:

(a) The program or activity funded provides direct benefits or services for those who pay the dedicated tax, fee, or assessment, and the tax, fee, or assessment is commensurate with the costs of the program or activity.

(b) The provision provides necessary information or other advantages that could not be obtained if the revenue were allocated to the state general fund.

(c) The provision involves collection and allocation formulas that are appropriate to the present circumstances and current priorities of state and local government.

(d) The provision does not impair the ability of the legislature to scrutinize budgets, control expenditures, and establish state spending priorities.

(e) The provision fulfills a legislatively recognized continuing need.

(f) The provision does not result in accounting or auditing inefficiency or unnecessary complexity and instability of local government funding structures.

17-1-506. Review of legislation. The office of budget and program planning shall, consistent with the review provisions in 17-1-505, review each piece of legislation that proposes to dedicate revenue. The office shall submit its findings concerning the dedication of revenue on the fiscal notes accompanying that legislation.

History: En. Sec. 6, Ch. 593, L. 1993.

17-1-507. Principles of revenue dedication. (1) It is the policy of the legislature that a revenue source not be dedicated for a specific purpose unless one or more of the following conditions are met:

(a) The person or entity paying the tax, fee, or assessment is the direct beneficiary of the specific activity that is funded by the tax, fee, or assessment; the entire cost of the activity is paid by the beneficiary; and the tax, fee, or assessment paid is commensurate with the cost of the activity, including reasonable administrative costs.

(b) There is an expectation that funds donated by a person or entity will be used for a specified purpose. Grants from private or public entities are considered donations under this subsection.

(c) There is a legal basis for the revenue dedication. A legal basis is a constitutional mandate, federal mandate, or statutory requirement in which a source of funds is designated for a specific purpose.

(d) There is a recognized need for accountability through a separation of funding from the general fund consistent with generally accepted accounting principles.

(2) The total funding for a program is a legislative budget and policy issue for which a dedicated revenue provision may not be justified if:

(a) a general fund appropriation is needed to supplement the dedicated revenue support for the program or activity; or

(b) dedicating a revenue source or portion of a revenue source diverts funds that could be considered a general revenue source.

(3) In the consideration of the general appropriations act for each biennium, the legislature shall determine the appropriateness of dedicating revenue to a program or activity under conditions described in subsection (2). The office of budget and program planning shall describe the occurrence in its presentation of the executive budget, and the legislative fiscal analyst shall highlight the issue in the budget analysis and for the appropriations subcommittee considering the revenue dedication.

History: En. Sec. 19, Ch. 509, L. 1995.

17-1-508. Review of statutory appropriations. (1) Each biennium, the office of budget and program planning shall, in development of the executive budget, review and identify instances in which statutory appropriations in current law do not appear consistent with the guidelines set forth in subsection (2).

(2) The review of statutory appropriations must determine whether a statutory appropriation meets the requirements of 17-7-502. Except as provided in [76-17-103,] 77-1-108, and 87-5-909, a statutory appropriation from a continuing and reliable source of revenue may not be used to fund administrative costs. In reviewing and establishing statutory appropriations, the legislature shall consider the following guidelines. A proposed or existing statutory appropriation may not be considered appropriate if:

(a) the money is from a continuing, reliable, and estimable source;

(b) the use of the appropriation or the expenditure occurrence is predictable and reliable;

(c) the authority exists elsewhere;

(d) an alternative appropriation method is available, practical, or effective;

(e) it appropriates state general fund money for purposes other than paying for emergency services;

(f) the money is used for general purposes;

(g) the legislature wishes to review expenditure and appropriation levels each biennium; and

(h) an expenditure cap and sunset date are excluded.

(3) The office of budget and program planning shall prepare a fiscal note for each piece of legislation that proposes to create or amend a statutory appropriation. It shall, consistent with the guidelines in this section, review each of these pieces of legislation. Its findings concerning the statutory appropriation must be contained in the fiscal note accompanying that legislation. *(Bracketed language in subsection (2) terminates June 30, 2027—sec. 10, Ch. 374, L. 2017.)*

17-2-101. Title and purpose. (1) Sections 17-2-101 through 17-2-107 may be cited as the "Treasury Fund Structure Act".

(2) The purpose of these sections is to:

(a) comply with Article VIII, section 12, of the Montana constitution;

(b) simplify the accounting system and treasury fund structure of the state;

(c) make possible the full utilization of modern accounting methods;

(d) provide the legislature with a greater measure of control over public money; and

(e) enable the financial records of the state to accurately reflect the state's revenue, expenditures, expenses, and financial position in accordance with generally accepted accounting principles.

History: En. Sec. 1, Ch. 147, L. 1963; R.C.M. 1947, 79-409; amd. Sec. 1, Ch. 540, L. 1979; amd. Sec. 1, Ch. 28, L. 1981; amd. Sec. 6, Ch. 532, L. 1997.

17-2-102. Fund structure. For the purpose of ensuring strict accountability for all revenue received and spent, there are in the state treasury only the following fund categories and types:

(1) the governmental fund category, which includes:

(a) the general fund, which accounts for all financial resources except those required to be accounted for in another fund;

(b) the special revenue fund type, which accounts for the proceeds of specific revenue sources (other than private purpose trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The financial activities of the special revenue fund type are subdivided, for operational purposes, into the following funds to serve the purpose indicated:

(i) The state special revenue fund consists of money and other proceeds from state and other nonfederal sources deposited in the state treasury that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government and money and other proceeds from other nonstate or nonfederal sources that is restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation.

(ii) The federal special revenue fund consists of money deposited in the treasury from federal sources, including trust income, that is used for the operation of state government.

(c) the capital projects fund type, which accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds or trust funds;

(d) the debt service fund type, which accounts for the accumulation of resources for and the payment of general long-term debt principal and interest; and

(e) the permanent fund type, which accounts for financial resources that are legally restricted to the extent that only earnings, but not principal, may be used;

(2) the proprietary fund category, which includes:

(a) the enterprise fund type, which accounts for operations:

(i) that are financed and operated in a manner similar to private business enterprises whenever the intent of the legislature is that costs (i.e., expenses, including depreciation) of providing goods or services to the general public on a continuing basis are to be financed or recovered primarily through user charges; or

(ii) whenever the legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes; and

(b) the internal service fund type, which accounts for the financing of goods or services provided by one department or agency to other departments or agencies of state government or to other governmental entities on a cost-reimbursed basis;

(3) the fiduciary fund category, which includes trust and custodial fund types used to account for assets held by state government in a trustee capacity or as an agent for individuals, private organizations, other governmental entities, or other funds. These include the:

(a) private purpose trust fund type;

(b) investment trust fund type;

(c) pension and other employee benefit trust fund type; and

(d) custodial fund type.

(4) the higher education funds, which include:

(a) the current fund, which accounts for money deposited in the state treasury that is used to pay current operating costs relating to instruction, research, public service, and allied support operations and programs conducted within the Montana university system. The financial activities of the current fund are subdivided, for operational purposes, into the four following subfunds to serve the purpose indicated:

(i) The unrestricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations and is free of externally imposed restrictions, except those imposed by the legislature.

(ii) The restricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations but only for purposes imposed by sources external to the board of regents and the legislature.

(iii) The designated subfund segregates that portion of the current fund's financial resources that is associated with general operations but is separately classified in order to accumulate costs that are to be recharged as allocated to other funds or subfunds, identifies financial activities related to special organized activities of educational departments in which the activity is fully supported by supplemental assessments, and identifies special supply and facility fees that are approved for collections beyond normal course fees and their disposition.

(iv) The auxiliary subfund segregates that portion of the current fund's financial resources that is devoted to providing essential on-campus services primarily to students, faculty, or staff in which a fee that is directly related to but does not necessarily equal the cost of the service provided is charged to the consumer.

(b) the student loan fund, which accounts for money deposited in the state treasury that may be loaned to students, faculty, or staff for purposes related to education, organized research, or public services by the Montana university system;

(c) the endowment fund, which accounts for money deposited in the state treasury by the Montana university system in which the principal portion of the amount received is nonexpendable but is available for investment. Expendable earnings on endowment funds are to be transferred to appropriate operating funds pursuant to prevailing administrative requirements.

(d) the annuity and life income fund, which accounts for money deposited in the state treasury by the Montana university system under an agreement by which the money is made available on the condition that the receiving unit of the Montana university system binds itself to pay stipulated amounts periodically to the donor or others designated by the donor over a specified period of time;

(e) the plant fund, which accounts for those financial resources allocated to or received by the Montana university system for capital outlay purposes or to retire long-term debts associated with construction or acquisition of fixed assets and the net accumulative results of these activities; and

(f) the custodial fund, which accounts for money deposited in the state treasury for which the Montana university system acts in the capacity of a custodian or fiscal agent for individual students, faculty, staff, and qualified organizations.

17-2-103. Previous definitions of funds — identification or segregation of money and funds. (1) It is the intent of the legislature that the definitions in 17-2-102 supersede all previous definitions of public funds that are inconsistent with the definitions found in this part.

(2) Any laws enacted or any contracts entered into in pursuance of law that require the segregation of money in the state treasury by means of a separate treasury fund must be interpreted as permitting the segregation of the money by means of a subfund or account within one of the funds created by 17-2-102.

(3) Each federal grant or other federal money within any subfund or account of one of the funds created by 17-2-102(1) through (3) must be identifiable as a separate accounting entity, reporting center, responsibility center, or revenue identification code, and an account must be made of each grant or other money by income and expenditure for each federal grant year or fiscal year as may be applicable.

(4) Unless otherwise specifically provided in the statutes pertaining to the tax, the portion of taxes collected by the state that, pursuant to a statute, are to be allocated or distributed to units of local government, school districts, authorities, or other local governmental entities must be accounted for in a state special revenue fund, established in 17-2-102, as prescribed by the department in accordance with generally accepted accounting principles.

17-2-104. Additional accounts authorized. The enumeration of treasury funds in 17-2-102 does not prohibit the state treasurer from establishing and maintaining:

(1) clearance or suspense accounts for the purpose of paying refunds, for the purpose of grouping payments from different funds or accounts prior to disbursement, or for the purpose of conveniently processing receipts before crediting the proper fund;

(2) investment funds authorized under the "Unified Investment Plan".

17-2-105. Maintenance of fund and account records and interfund loans. (1) The state treasurer shall record receipts and disbursements for treasury funds and shall maintain fund records in a manner that reflects the total cash and invested balance of each fund. The state treasurer shall also maintain records of individual funds within the debt service, custodial, capital projects, and trust fund types in a manner that reflects the total cash and invested balance of each fund. When necessary to meet federal or other requirements that money be segregated in the treasury, the state treasurer may establish accounts, funds, or subfunds within any fund type listed in 17-2-102.

(2) (a) For the purpose of supplying deficiencies in the general fund, the state treasurer may temporarily borrow from other treasury funds, excluding pension trust funds, providing that the loan is recorded in the state accounting records. Except as provided in subsection (2)(b), the loan does not bear interest. A fund may not be so impaired that all proper demands on the fund cannot be met.

(b) If a loan to the general fund is made from a fund that retains its own interest, the department shall repay the loan with interest at a rate established by the state treasurer based on the estimated interest rate the funds would have earned if the funds had not been borrowed.

17-2-106. Creation and abolition of new accounts. (1) Moneys deposited in each fund except the general fund shall be segregated by the department of administration by specific accounts based on source, function, or department. When moneys deposited in the state treasury cannot logically be credited to an existing account or when it is impractical or undesirable for an agency of state government to segregate moneys in its own accounts, the department of administration, in its discretion, may create new accounts consistent with the definitions in

17-2-102. However, the department of administration shall create as few new accounts as practicable.

(2) The department of administration shall periodically examine all accounts and shall abolish or consolidate inactive or unnecessary accounts.

(3) When moneys have been appropriated from several sources for the operation of a state agency, the department of administration may establish an account to receive, hold, and disburse moneys appropriated for the operation of the agency and regulate the transfer of moneys to the account in accordance with the laws governing the expenditure of state moneys.

History: (1), (2)En. Sec. 5, Ch. 147, L. 1963; amd. Sec. 27, Ch. 326, L. 1974; Sec. 79-413, R.C.M. 1947; (3)En. Sec. 6, Ch. 147, L. 1963; amd. Sec. 1, Ch. 268, L. 1971; amd. Sec. 98, Ch. 326, L. 1974; Sec. 79-414, R.C.M. 1947; R.C.M. 1947, 79-413, 79-414(4).

17-2-107. Accurate accounting records and interentity loans. (1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.

(2) (a) Except as provided in 77-1-108 and subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4) of this section, of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans. The report must be

provided in an electronic format. The department or the commissioner of higher education shall provide a copy of the report to the legislature in accordance with 5-11-210.

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency. The report must be provided in an electronic format. The commissioner of higher education shall provide a copy of the report to the legislature in accordance with 5-11-210.

(7) (a) An accounting entity in a fund designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting, budgeting, and human resource system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.

(9) A loan may not be authorized under this section to any fund or accounting entity that is owed federal or other third-party funds unless the requesting agency certifies to the agency approving the loan that it has and will continue to bill the federal government or other third party for the requesting agency's share of costs incurred in the fund or accounting entity on the earliest date allowable under federal or other third-party regulations applicable to the program. The requesting agency shall recertify its timely billing status to the agency that approved the loan at least monthly during the term of the loan. If at any time the requesting agency fails to recertify the timely billing, the agency that approved the loan shall cancel the loan and return the money to its original source.

17-2-108. Expenditure of nongeneral fund money first. (1) Except for the exemptions applicable to the Montana historical society in 22-3-114(5), the Montana state library in 22-1-226(5), the Montana school for the deaf and blind in 20-8-107(5), and the department of public health and human services in 53-1-612, an office or entity of the executive, legislative, or judicial branch of state government shall apply expenditures against appropriated nongeneral fund money whenever possible before using general fund appropriations.

(2) Except as provided in 53-1-612, the approving authority, as defined in 17-7-102, shall authorize the decrease of the general fund appropriation of an agency by the amount of money

received from federal sources in excess of the appropriation in an appropriation act unless the decrease is contrary to federal law, federal rule, or a contract or unless the approving authority certifies that the services to be funded by the additional money are significantly different than those for which the agency received the general fund appropriation. If directed by an appropriation act, the approving authority shall decrease the general fund appropriation of an agency by the amount of money received from nonfederal sources in excess of the appropriation unless the decrease is contrary to state law, state rule, or a contract or unless the approving authority certifies that the services to be funded by the additional money are significantly different than those for which the agency received the general fund appropriation. If the general fund appropriation of an agency is decreased pursuant to this section, the appropriation for the fund in which the money is received is increased in the amount of the general fund decrease.

(3) If directed by an appropriation act, the approving authority may decrease a state special revenue, proprietary, or other fund appropriation of an agency by the amount of money received from federal sources in excess of the appropriation unless the decrease is contrary to state or federal law or federal rule. The appropriation for the fund in which the money is received is decreased by the amount of the federal special revenue increase allowed by law, rule, or contract and approved for the purpose.

17-2-109. Department access to records. (1) All officers, employees, and other persons connected with the fiscal affairs of any state office, agency, or institution must afford all reasonable facilities for the examination of accounts and investigations provided for and must make reports, returns, and exhibits relating to such fiscal matters to the department in a form that the department shall prescribe.

(2) If an officer or employee of the state or any agency refuses or neglects to comply with subsection (1) of this section, the salary of that officer or employee shall, on request of the department to the proper official, be withheld until that officer or employee complies with subsection (1) and the department certifies approval to the disbursing officer.

17-2-110. Fiscal year and financial reports. (1) Except for the state fund provided for in Title 39, chapter 71, part 23, the fiscal year for state purposes commences on July 1 of each year and ends on June 30 of each year. The state fund's fiscal year starts on January 1 of each year and ends on December 31 of that same year.

(2) At the end of each fiscal year, the fiscal records of each state office, department, bureau, commission, institution, university unit, and agency, collectively referred to as "state agency", must be closed. Each state agency shall prepare the financial records and reconciliations for the fiscal year as the department of administration may prescribe. The financial reports of the uniform accounting and reporting system prescribed in 17-1-102(2) are to be completed and distributed not more than 31 days following the end of each fiscal year. The department of administration may extend this time limit if a state agency can show necessity for the extension.

(3) The reports are to be distributed to the department of administration and the legislative auditor and any other state agency that the department of administration may prescribe. It is the intent of this provision that these reports accurately and comprehensively present the financial activities of the reporting state agency in accordance with generally accepted accounting principles so that the reports can be effectively used by the executive and legislative branches of state government.

(4) Upon consolidation of the reports, the annual financial report by the department of administration must be available for other individuals and organizations interested in the financial affairs of the state of Montana.

17-4-103. Collection of claims by department. (1) (a) The department may examine the collection of money due an agency and institute suits:

(i) in its name for official delinquencies in relation to the assessment, collection, and payment of the revenue;

(ii) against persons who possess public money or property and fail to pay over or deliver the money or property; and

(iii) against debtors of the agencies.

(b) The courts of the county where the seat of government is located have jurisdiction, without regard to the residence of the defendants, over the collection suits authorized by this section.

(2) Whenever a person has money or other personal property that belongs to the state by escheat or otherwise or has been entrusted with the collection, management, or disbursement of money, bonds, or interest accruing from the money or bonds, belonging to or held in trust by the state, and fails to render an account of the money or personal property to and make settlement with the department within the time prescribed by law or, when a particular time is not specified, fails to render an account and make settlement or fails to pay into the state treasury the money belonging to the state, upon being required to do so by the department, within 20 days after the requisition, the department shall state an account with that person, charging 25% damages and interest at the rate of 10% a year from the time of the failure. A copy of the account in a suit is prima facie evidence of the things stated in the account, but when the department cannot for want of information state an account, the department may in an action aver that fact and allege generally the amount of money or other property due or belonging to the state.

(3) (a) The department may assist in the collection of a delinquent account owing to an agency and may separately charge the agency for the cost of assistance. The department may enter into an agreement with an agency to assist in the collection of a delinquent account. The department may designate the percentage of collected proceeds to be retained for the cost of

assistance. The cost of assistance for collecting personal property taxes that would otherwise be collected by the county treasurer must be allocated in the same manner in which the taxes are distributed.

(b) A delinquent personal property tax usually collected by the county treasurer may be collected by the department only on request of the board of county commissioners. The request must be accompanied by proof of the amount of tax due and proof of the delinquency. The board shall also provide proof that, at least 30 days before making the request, the county has notified the delinquent taxpayer by mail of the board's intention to request assistance from the department.

(4) The department may provide a collection service for the general purpose of centralizing the collection of all debts owed to agencies.

17-4-104. Circumstances when department shall assist. Subject to and in accordance with rules adopted by the department, the department shall render assistance in the collection of accounts owing to any state agency if all of the following procedures have been completed to the department's satisfaction:

(1) A state agency shall make all reasonable efforts to collect money owed to it and shall determine that the money and any interest or penalties are uncollectible in accordance with criteria for uncollectibility formulated by that agency.

(2) Once a state agency has determined that an account owed to it is uncollectible, it shall certify to the department the amount of the money, interest, and penalties, as accurately as can be determined. The department may require the agency to submit all relevant evidence and other information regarding the debt and may examine the records of any other state agency that may be pertinent in determining the uncollectibility of the debt, unless examination is specifically prohibited by law.

(3) If the department finds that the debt is uncollectible in accordance with the criteria for uncollectibility of money due that state agency, the department shall direct the agency to write off the debt on its accounts and transfer the debt to the department.

(4) Debts described in 17-4-105(4) need not be determined uncollectible for purposes of this section.

17-4-105. Authority to collect debt — offsets. (1) When the department enters into an agreement to collect a delinquent account pursuant to 17-4-103(3) or a debt of an agency has been transferred to the department pursuant to 17-4-104, the department may collect it. The department may contract with commercial collection agents for recovery of debts owed to agencies.

(2) The department shall, when appropriate, offset any amount due an agency from a person or entity against any amount, including refunds of taxes, owing the person or entity

by an agency. The department may not exercise this right of offset until the debtor has first been notified by the department and been given an opportunity for a hearing pursuant to 15-1-211. An offset may not be made against any amount paid out as child support collected by the department of public health and human services. The department shall deduct from the claim and draw warrants for the amounts offset in favor of the respective agencies to which the debt is due and for any balance in favor of the claimant. Whenever insufficient to offset all amounts due the agencies, the amount available must be applied first to debts owed by reason of the nonpayment of child support and then in the manner determined appropriate by the department.

(3) (a) The department may enter into an agreement with the federal government to offset against tax refunds payable by the federal government and pay to the state any taxes or other debts owed to an agency of the state. Except as provided in subsection (3)(c), the state may also enter into a reciprocal agreement with the federal government for the state to offset against tax refunds payable by the state and pay to the federal government any taxes or other debts owed to the federal government.

(b) For purposes of offsetting of debts referred to in subsection (3)(a), offsets or payments will be made in the following priority:

(i) child support payments;

(ii) any debts that are owed to this state, an agency of this state as defined in 17-4-101, or a local government unit, including a county, city, town, consolidated city-county, school district, or local public entity with the authority to spend or receive public funds; and

(iii) any debts owed to the federal government.

(c) Taxes or debts that cannot be liened or levied upon pursuant to 26 U.S.C. 5000A(g) must be excluded from the offset.

(d) (i) The department may enter into an agreement with another state or an agency of another state to offset against tax refunds payable by the other state or agency of the other state and pay to this state any taxes or other debts owed to this state or an agency of this state.

(ii) To facilitate an agreement of the kind authorized by subsection (3)(d)(i), the department may enter into an agreement that allows the other state or agency of the other state to offset against tax refunds payable by this state the whole or part of an amount owed for taxes to the other state or agency of the other state. However, the department may enter into an agreement of the type authorized by subsection (3)(a) or (3)(d)(i) only if the other state or agency of the other state or the federal government allows the offset against tax refunds owed by the other state or agency of the other state or the federal government any taxes or other debts owed to this state or an agency of this state.

(e) A state or agency of another state or the federal government entering into an agreement with the department pursuant to subsection (3)(a) or (3)(d)(i) may not exercise the offset against tax refunds unless the other state or agency of the other state or the federal government has notified the taxpayer of the taxes due and has given the taxpayer an opportunity for review or appeal of the tax debt. Another state or agency of another state intending to offset taxes shall provide the department with proof of notification and opportunity for review or appeal before the offset is exercised.

(4) (a) A debt owed to the department of public health and human services or being collected by the department of public health and human services on behalf of any person or agency may be offset by the department if the debt is being enforced or collected by the department of public health and human services under Title IV-D of the Social Security Act.

(b) The debt does not need to be determined to be uncollectible as provided for in 17-4-104 before being transferred to the department for offset. The debt must have accrued through written contract, court judgment, administrative order, or a distribution the recipient was not entitled to retain as described in 40-5-910.

(c) Within 30 days following the notification provided for in subsection (2), the person owing a debt described in subsection (4)(a) may request a hearing. The request must be in writing and be mailed to the department. The person owing a debt is not entitled to a hearing if the amount of the debt has been the subject matter of any proceeding conducted for the purpose of determining the validity of the debt and a decision made as a result of that proceeding has become final. The hearing must initially be conducted by teleconferencing methods and is subject to the provisions of the Montana Administrative Procedure Act. The department of public health and human services shall adopt rules governing the hearing procedures.

(5) If the department determines that a person or entity has refused or neglected to file a claim within a reasonable time, the head of the state agency owing the amount shall file the claim on behalf of the person or entity. If the claim is approved by the department, the claim has the same force and effect as if it were filed by the person or entity. The amount due any person or entity from the state or any agency of the state is the net amount otherwise owing the person or entity after any offset, as provided in this section.

(6) A debt owed to a state agency by a local government may not be offset against a payment due to a local government pursuant to 15-1-121.

Part 1
Rates of Interest — Notice

17-5-101. Definitions. As used in this part, the following definitions apply:

(1) "Bonds" include bonds, notes, warrants, debentures, certificates of indebtedness, temporary bonds, temporary notes, interim receipts, interim certificates, and all instruments or obligations evidencing or representing indebtedness, evidencing or representing the borrowing of money, or evidencing or representing a charge, lien, or encumbrance on specific revenues, special assessments, income, or property of a political subdivision, including all instruments or obligations payable from a special fund.

(2) "Governing body" means the board, council, commission, or other body charged with the general control of the issuance of bonds of a political subdivision.

(3) (a) "Political subdivision" includes a county, city, town, school district, irrigation district, drainage district, special improvement district, or any other governmental subdivision of the state.

(b) The term does not include the state of Montana, the board of examiners, the department of natural resources and conservation, the state transportation commission, or any other board, agency, or commission of the state.

History: En. Sec. 1, Ch. 234, L. 1971; R.C.M. 1947, 79-2601; amd. Sec. 6, Ch. 75, L. 1995; amd. Sec. 46, Ch. 418, L. 1995.

17-5-102. Rate of interest on bonds to be determined by governing bodies. (1) Bonds of a political subdivision shall bear interest at such rate or rates as its governing body shall determine.

(2) The provisions of this section establish the rate of interest on bonds of political subdivisions as defined in 17-5-101 and expressly supersede any other statutory limitation on the rate of interest to be borne by bonds of political subdivisions.

History: En. Sec. 2, Ch. 234, L. 1971; R.C.M. 1947, 79-2602; amd. Sec. 10, Ch. 500, L. 1981; amd. Sec. 1, Ch. 11, L. 1983.

17-5-103. Rate of interest on special assessments determined by governing bodies — limitations. All special assessments levied by a political subdivision must bear interest at a rate or rates determined by the political subdivision's governing body, except that the rate may not exceed the greater of 7% per annum or, in the event that the special assessments are appropriated for the payment of principal and interest on bonds issued by the political subdivision, the rate of interest on the bonds plus an additional rate of interest, if any, on assessments authorized by statute to pay the principal and interest on those bonds.

History: **En. Sec. 3, Ch. 234, L. 1971; R.C.M. 1947, 79-2603; amd. Sec. 17, Ch. 451, L. 2005.**

17-5-104. Effect of revisions on bonds previously authorized. If prior to April 23, 1981, a political subdivision was authorized to issue bonds pursuant to a law that limited the rate of interest on the bonds, it may issue all of the bonds so authorized under the provisions of 17-5-102 even if the rate of interest on the bonds exceeds the maximum rate permissible prior to April 23, 1981.

History: **En. Sec. 17, Ch. 500, L. 1981; amd. Sec. 1, Ch. 11, L. 1983.**

17-5-105. Redemption of bonds — optional method. Between April 23, 1981, and July 1, 1983, a governing body in connection with the issuance of bonds may, at its option, provide that such bonds shall be redeemable at such time or times and upon such terms and conditions as the governing body shall deem to be in the best interest of the public, notwithstanding any statutory provision to the contrary.

History: **En. Sec. 18, Ch. 500, L. 1981; amd. Sec. 1, Ch. 11, L. 1983.**

17-5-106. Notice of public bond sale. Notwithstanding any other provision of state law relating to the publication of notice in advance of the sale of bonds, it is sufficient to publish the notice once a week for 2 consecutive weeks preceding the sale.

History: **En. Sec. 1, Ch. 173, L. 1987.**

17-5-107. Public or private sale — procedure for public sale. (1) The governing body of a political subdivision may sell its bonds at public or private sale as determined by the governing body and, if the bonds are sold at private sale, in denominations and forms approved by the governing body. If the governing body conducts a public sale, those provisions of state law regarding the public sale of bonds that pertain to the political subdivision govern the sale.

(2) The bonds must be sold at not less than 97% of the principal amount of the bonds if the governing body determines that a sale at that price is in the best interests of the political subdivision.

History: **En. Sec. 1, Ch. 253, L. 2011.**

(1) When authorized by and within the limits of a bond act and as provided in this part, the board may issue and sell bonds of the state in the manner that it considers necessary and proper to provide funds for the purpose set forth in the bond act.

(2) The full faith and credit and taxing powers of the state must be pledged for the payment of all bonds and notes issued pursuant to this part, with all interest on the bonds and notes and premiums payable upon the redemption of the bonds and notes. All principal, interest, and redemption premium, if any, becoming due during a fiscal year must be included in the state budget for that fiscal year, and sufficient revenue must be appropriated for the payment of principal, interest, and redemption premiums from the general fund and, if the general fund is not sufficient, from any other funds of the state legally available for the payment of principal, interest, and redemption premiums. Bonds may not be issued to cover deficits incurred because appropriations exceeded anticipated revenue. Money transferred for the payment of bonds and notes must be deposited in the debt service account.

(3) Except as provided in subsection (8), the legislature may not authorize general obligation bonds paid from the general fund if the issuance of those bonds would cause the total amount of the state debt to exceed 0.6% of the fair market value of all taxable property within the state.

(4) Except as provided in subsection (8), the legislature may not authorize new general obligation bonds paid from the general fund if the issuance of those bonds would create an obligation for fiscal year debt service on general obligation bonds paid from the general fund that have been issued that exceeds 1.5% of the amount of the certified unaudited state general fund revenue, including transfers into the general fund, as determined by the state treasurer on or before August 15 of the year preceding a legislative session.

(5) For purposes of subsections (3) and (4):

(a) "fair market value of all taxable property within the state" includes all real and personal property subject to ad valorem taxation within the state as enumerated in the department of revenue's biennial report issued pursuant to 15-1-205;

(b) "general obligation bonds paid from the general fund" means bonds issued as general obligation bonds of the state that are payable from only the general fund and that are not payable from or secured by funds or specific sources of revenue outside the general fund;

(c) "state debt" means:

(i) the outstanding principal of issued general obligation bonds paid from the general fund as of July 1 of the current fiscal year;

(ii) the principal amount of all authorized but unissued general obligation bonds paid from the general fund; and

(iii) the total amount of unfunded actuarial accrued liability of the public retirement systems established in Title 19 that does not amortize in 30 years as identified in those systems' most recent actuarial valuation of the assets and liabilities of their plans.

(6) For purposes of calculating the total fiscal year debt service of proposed bonds to determine whether the limitations described in subsection (4) are satisfied, the debt service amounts set forth in the fiscal note for the proposed bond act regarding the bonds are used and are final and conclusive.

(7) The passage and approval of a bond act is final and conclusive authority for the issuance of the bonds authorized under that act. The board of examiners may rely on that authority without regard to condition or circumstance existing as of the date of the issuance of the bonds.

(8) The limits on legislative authority to authorize general obligation bonds paid from the general fund do not apply to bonds authorized during a state of emergency or a state of disaster as provided in Title 10, chapter 3.

No renewal of any note may be issued after the sale of bonds or receipt of the proceeds of the grants or revenue in anticipation of which the original notes were issued.

(3) Bond, grant, or revenue anticipation notes maturing not more than 3 years after the date of issue may be issued from time to time as the proceeds are needed. (d) such other terms and conditions that the board may consider appropriate.

(5) In connection with the issuance and sale of notes as provided in this section, the board may arrange for lines of credit with any bank, firm, or person for the purpose of providing an additional source of repayment for notes issued pursuant to this section. Amounts drawn on lines of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness, containing terms and conditions that the board may authorize in the resolution approving them.

17-5-1103. Declarations of state interest — purposes. (1) Sections 103 and 103A of the Internal Revenue Code, 26 U.S.C. 103 and 103A, provide that interest with respect to certain obligations may not be exempt from the income tax if they are not in registered form. It is therefore a matter of state concern that public entities be authorized to provide for the issuance of obligations in registered form. It is a purpose of this part to authorize all public entities to establish and maintain a system pursuant to which obligations may be issued in registered form within the meaning of sections 103 and 103A of the Internal Revenue Code, 26 U.S.C. 103 and 103A.

(2) Obligations have traditionally been issued in bearer rather than in registered form, and a change from bearer to registered form will significantly affect the relationships, rights, and duties of issuers of and the persons that deal with obligations and may consequently affect the costs. The effects will impact the various issuers and varieties of obligations differently, depending on their legal and financial characteristics, their markets, and their adaptability to recent and prospective technological and organizational developments. It is therefore a matter of state concern that public entities be provided flexibility in the development of systems of registration and control over system incidents, in order to accommodate differing impacts. It is a purpose of this part to provide for the establishment and maintenance, and amendment from time to time, of differing systems of registration of obligations, including system incidents, in order to accommodate the differing impacts upon issuers and varieties of obligations.

17-5-1111. System of registration. (1) Each issuer is authorized to establish and regularly maintain a system of registration with respect to each public obligation that it issues The system may be either a system pursuant to which only certificated public obligations are issued or a system pursuant to which both certificated and uncertificated public obligations are issued. The system may permit the issuance of public obligations in any denomination to represent several public obligations of smaller denominations. The system may also provide for the form of any certificated public obligations, for differing record and payment dates, for varying denominations, and for accounting, canceled certificate destruction and other incidental matters.

(5) Under a system pursuant to which both certificated and uncertificated public obligations are issued, both types of public obligations may be regularly issued or one type may be regularly issued and the other type issued only under described circumstances or to particular described categories of owners. Under a system pursuant to which uncertificated public obligations are regularly issued, provisions may be made for registration of pledges and releases.

(6) The system may include covenants of the issuer as to amendments, discontinuances and reinstitutions and the effect of those covenants on the exemption of interest from the income tax provided for by the Internal Revenue Code.

(7) If the effect of a conversion from one of the forms of public obligations provided for in this part to a form not provided for in this part is that interest will continue to be exempt from the income tax provided for by the Internal Revenue Code, this part does not preclude that conversion.

(8) To the extent not inconsistent with this part, the rights provided by other laws with respect to obligations in other forms must be provided with respect to obligations in forms that may be used under this part.

(3) Subject to the limitations contained in this section and the standards and limitations prescribed in the authorizing resolution, the board in its discretion may provide for the notes described in subsection (2) to be issued and sold, in whole or in part, from time to time. The board may delegate to the administrator of the board the power to determine the time or times of sale, the manner of sale, the amounts, the maturities, the rate or rates of interest, and such other terms and details of the notes as considered appropriate by the board or the administrator in the event of such delegation. The board in its discretion but subject to the limitations contained in this section may also provide in the resolution authorizing the issuance of notes for:

(a) the employment of one or more persons or firms to assist the board in the sale of the notes;

(b) the appointment of one or more banks or trust companies, either inside or outside the state of Montana, as depository for safekeeping and as agent for the delivery and payment of the notes;

(c) the refunding of the notes from time to time, without further action by the board, unless and until the board revokes such authority to refund; and

(d) such other terms and conditions as the board considers appropriate.

(4) In connection with the issuance and sale of notes as provided in this section, the board may arrange for lines of credit with any bank, firm, or person for the purpose of providing an additional source of repayment for notes issued pursuant to this section. Amounts drawn on such lines of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness, containing such terms and conditions as the board may authorize in the resolution approving the same.

(2) "Crossover date" means the date the proceeds of crossover refunding bonds are pledged to the payment of the obligations to be refunded.

(3) "Governing body" means the board or body that exercises the legislative power of the public body.

(4) "Public body" means any political subdivision of the state and includes but is not limited to a county, city, town, or school district.

History: **En. Sec. 1, Ch. 171, L. 1987.**

17-5-2102. Crossover refunding bonds authorized. (1) A public body authorized to issue refunding obligations may issue bonds pursuant to this part without regard to the limitations contained in any other law relating to:

(a) the establishment of an escrow account for the obligations to be refunded;

(b) the giving of a notice of redemption for the obligations to be refunded and redeemed; or

(c) the application of the proceeds of the refunding obligations.

(2) The proceeds of bonds, less any proceeds applied to payment of costs of issuance or refunding, must be deposited in a sinking fund account irrevocably appropriated to the payment of principal of and interest on the refunding obligations until the crossover date. The sinking fund account must be maintained as an escrow account with a suitable financial institution within or outside the state and amounts in it must be invested in securities that are direct obligations of the United States or on which the payment of the principal and interest is guaranteed by the United States. (4) On the crossover date, obligations that are refunded pursuant to this part are no longer considered outstanding for purposes of any debt limitation if the provisions of subsection (5) are met. Until the crossover date, the bonds do not count against any debt limitation if the provisions of subsection (5) are met. After the crossover date, the bonds must be considered outstanding for purposes of any debt limitation.

(5) The securities in the escrow account must mature or be callable at the option of the holder on the crossover date, bearing interest at a rate, and payable on the dates that are necessary to provide sufficient funds, in addition to any cash retained in the escrow account, to pay the following when due:

(a) the interest that will accrue on each refunded obligation to its maturity or redemption date, if called for redemption;

(b) the principal of each refunded obligation at maturity or on the redemption date; and

(c) any redemption premium.

17-7-111. Preparation of state budget — agency program budgets — form distribution and contents. (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state need information that is consistent and accurate. Necessary information includes detailed disbursements by fund type for each agency and program for the appropriate time period, recommendations for creating a balanced budget, and recommended disbursements and estimated receipts by fund type and fund category.

(b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall by agreement:

(i) establish necessary standards, formats, and other matters necessary to share information between the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget; and

(ii) provide for the collection and provision of budgetary and financial information that is in addition to or different from the information otherwise required to be provided pursuant to this section.

(2) In the preparation of a state budget, the budget director shall, not later than the date specified in 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget estimates by the budget director. These forms must be prescribed

by the budget director to procure the information required by subsection (3). The forms must be submitted to the budget director by the date provided in 17-7-112(2), or the agency's budget is subject to preparation based upon estimates as provided in 17-7-112(5). The budget director may refuse to accept forms that do not comply with the provisions of this section or the instructions given for completing the forms.

(3) The agency budget request must set forth a balanced financial plan for the agency completing the forms for each fiscal year of the ensuing biennium. The plan must consist of:

(a) a consolidated agency budget summary of funds subject to appropriation, as provided in 17-8-101, for the current base budget expenditures, including statutory appropriations, and for each present law adjustment and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE) and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal year and the fiscal year in progress;

(b) a schedule of the actual and projected receipts, disbursements, and solvency of each fund for the current biennium and estimated for the subsequent biennium;

(c) a statement of the agency mission and a statement of goals and objectives for each program of the agency. The goals and objectives must include, in a concise form, sufficient specific information and quantifiable information to enable the legislature to formulate an appropriations policy regarding the agency and its programs and to allow a determination, at some future date, on whether the agency has succeeded in attaining its goals and objectives. An agency that has complied with the requirements provided in Title 2, chapter 12, part 1, is exempt from the provision of this subsection (3)(c).

(d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;

(e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement category;

(f) for agencies with more than 20 FTE, a plan to reduce the proposed base budget for the general appropriations act and the proposed state pay plan to 95% of the current base budget or lower if directed by the budget director. Each agency plan must include base budget reductions that reflect the required percentage reduction by fund type for the general fund and state special revenue fund types. Exempt from the calculations of the 5% target amounts are legislative audit costs, administratively attached entities that hire their own staff under 2-15-121, and state special revenue accounts that do not transfer their investment earnings or fund balances to the general fund. The plan must include:

(i) a prioritized list of services that would be eliminated or reduced;

(ii) for each service included in the prioritized list, the savings that would result from the elimination or reduction; and

(iii) the consequences or impacts of the proposed elimination or reduction of each service.

(g) a reference for each new information technology proposal stating whether the new proposal is included in the approved agency information technology plan as required in 2-17-523;

(h) energy cost saving information as required by 90-4-616; and

(i) other information the budget director feels is necessary for the preparation of a budget.

(4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with 17-7-112:

(a) detailed recommendations for capital developments for:

(i) local infrastructure projects;

(ii) funding for energy development-impacted areas; and

(iii) the state long-range building program. Each recommendation for the capital developments long-range building program must be presented by institution, agency, or branch, by funding source, with a description of each proposed project.

(b) a statewide project budget summary as provided in 2-17-526;

(c) the proposed pay plan schedule for all executive branch employees at the program level by fund, with the specific cost and funding recommendations for each agency. Submission of a pay plan schedule under this subsection is not an unfair labor practice under 39-31-401.

(d) agency proposals for the use of cultural and aesthetic project grants under Title 22, chapter 2, part 3, the renewable resource grant and loan program under Title 85, chapter 1, part 6, the reclamation and development grants program under Title 90, chapter 2, part 11, and the Montana coal endowment program under Title 90, chapter 6, part 7.

If there have been other changes to the budget category in the current fiscal year, all the changes, including the change under consideration, must be used in determining the 25% and $75,000 threshold.

(2) The expenditure of money appropriated in the general appropriations act to the board of regents, on behalf of the university system units, as defined in 17-7-102, is contingent upon approval of a comprehensive operating budget by October 1 of each fiscal year. The operating budget must contain detailed revenue and expenditures and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Transfers and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst.

(3) The operating budget for money appropriated by the general appropriations act must be separate from the operating budget for money appropriated by another law except a law appropriating money for the state pay plan or any portion of the state pay plan. The legislature may restrict the use of funds appropriated for personal services to allow use only for the purpose of the appropriation. Each operating budget must include expenditures for each agency program, detailed at least by first-level categories as provided in 17-1-102(3). Each agency shall record its operating budget for all funds, other than higher education funds, and any approved changes on the statewide accounting, budgeting, and human resource system. Documents implementing approved changes must be signed. The operating budget for higher education funds must be recorded on the university financial system, with separate accounting categories for each source or use of state government funds. State sources and university sources of funds may be combined for the general operating portion of the current unrestricted funds.

17-7-139. Program transfers. (1) Unless prohibited by law or a condition contained in the general appropriations act, the approving authority may approve agency requests to transfer appropriations between programs within each fund type within each fiscal year. The legislature may restrict the use of funds appropriated for personal services to allow use only for the purpose of the appropriation. An explanation of any significant transfer must be submitted on a regular basis to the interim committee that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2, and to the appropriate interim budget committee in accordance with 5-12-501. An explanation of any transfer that involves a significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving authority certifies that a request for a transfer representing a significant change in agency or program scope, objectives, activities, or expenditures is time-sensitive, the approving authority may approve the transfer prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. All program transfers must be completed within the same fund from which the transfer originated. A request for a transfer accompanied by a justification explaining the reason for the transfer must be submitted by the requesting agency to the approving authority and the office of budget and program planning. Upon approval of the transfer in writing, the approving authority shall inform the legislative fiscal analyst of the approved transfer and the justification for the transfer. If money appropriated for a fiscal year is transferred to another fiscal year, the money may not be retransferred, except that money remaining from projected costs for spring fires estimated in the last quarter of the first year of a biennium may be retransferred.

(2) For the purposes of subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(a) the budget transfer exceeds $1 million; or

(b) the budget transfer exceeds 25% of a program's total operating plan and the transfer is greater than $75,000. If there have been other transfers to or from the program in the current fiscal year, all the transfers, including the transfer under consideration, must be used in determining the 25% and $75,000 threshold.

17-7-140. Reduction in spending. (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least:

(i) 4% of the general revenue appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 3% of the general revenue appropriations for the second fiscal year of the biennium in October of the year preceding a legislative session;

(iii) 2% of the general revenue appropriations for the second fiscal year of the biennium in January of the year in which a legislative session is convened; and

(iv) 1% of the general revenue appropriations for the second fiscal year of the biennium in March of the year in which a legislative session is convened.

(b) An agency may not be required to reduce general fund spending for any program, as defined in each general appropriations act, by more than 10% during a biennium. A governor may not reduce total agency spending in the biennium by more than 4% of the second year general revenue appropriations for the agency. Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund spending reductions required for the weighted average of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the appropriation item may not be reduced by more than 10%.

(c) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The report must be submitted in an electronic format. The office of budget and program planning shall review each agency's analysis, and the budget director shall submit to the governor a copy of the office of budget and program planning's recommendations for reductions in spending. The budget director shall provide a copy of the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations. The recommendations must be provided in an electronic format. The recommendations must be provided to the legislature in accordance with 5-11-210. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

(2) Reductions in spending for the following may not be directed by the governor:

(a) payment of interest and principal on state debt;

(b) the legislative branch;

(c) the judicial branch;

(d) the school BASE funding program, including special education;

(e) salaries of elected officials during their terms of office; and

(f) the Montana school for the deaf and blind.

(3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund balance for the biennium is less than:

(i) 4% of the general revenue appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 1.875% in October of the year preceding a legislative session;

(iii) 1.25% in January of the year in which a legislative session is convened; and

(iv) 0.625% in March of the year in which a legislative session is convened.

(b) In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated supplemental appropriations for school equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount statutorily appropriated in 10-3-312, and anticipated reversions.

(4) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227, the budget director shall notify the revenue interim committee in accordance with 5-11-210 of the estimated amount. Within 20 days of notification, the revenue interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue interim committee prior to certifying a projected general fund budget deficit to the governor.

(5) If the budget director certifies a projected general fund budget deficit, the governor may authorize transfers to the general fund from certain accounts as set forth in subsection (6).

(6) The governor may authorize transfers from the budget stabilization reserve fund provided for in 17-7-130. The governor may authorize $3 of transfers from the fund for each $1 of reductions in spending but may not authorize a transfer that would cause the balance of the budget stabilization reserve fund to be less than 6% of all general revenue appropriations in the second year of the biennium.

17-7-301. Authorization to expend during first year of biennium from appropriation for second year — proposed supplemental appropriation defined — limit on second-year expenditures. (1) An agency may make expenditures during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium if authorized by the general appropriations act. An agency that is not authorized in the general appropriations act to make first-year expenditures may be granted spending authorization by the approving authority upon submission and approval of a proposed supplemental appropriation to the approving authority. The proposal submitted to the approving authority must include a plan for reducing expenditures in the second year of the biennium that allows the agency to contain expenditures within appropriations. If the approving authority finds that, due to an unforeseen and unanticipated emergency, the amount actually appropriated for the first fiscal year of the biennium with all other income will be insufficient for the operation and maintenance of the agency during the year for which the appropriation was made, the approving authority shall, after careful study and examination of the request and upon review of the recommendation for executive branch proposals by the budget director, submit the proposed supplemental appropriation to the legislative fiscal analyst.

(2) The plan for reducing expenditures required by subsection (1) is not required if the proposed supplemental appropriation is:

(a) due to an unforeseen and unanticipated emergency for fire suppression;

(b) requested by the superintendent of public instruction, in accordance with the provisions of 20-9-351, and is to complete the state's funding of guaranteed tax base aid, transportation aid, or equalization aid to elementary and secondary schools for the current biennium; or

Except as provided in subsection (2), the approving authority shall require the agency to implement the plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations.

(4) The agency may expend the amount authorized by the approving authority only for the purposes specified in the authorization.

(5) The approving authority shall report to the next legislature in a special section of the budget the amounts expended as a result of all authorizations granted by the approving authority and shall request that any necessary supplemental appropriation bills be passed.

(b) An agency shall prepare and, to the extent feasible, implement a plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations. The approving authority is responsible for ensuring the implementation of the plan. If, in the second year of a biennium, mandated expenditures that are required by state or federal law will cause an agency to exceed appropriations or available funds, the agency shall reduce all nonmandated expenditures pursuant to the plan in order to reduce to the greatest extent possible the expenditures in excess of appropriations or funding. An agency may not transfer funds between fund types in order to implement a plan.

The dollar amount of the 30% amount that may be carried forward and spent must be determined by the office of budget and program planning.

Deficiency appropriations, commonly referred to as a "supplemental appropriation", for a legislative branch agency must be included in a separate appropriation bill and may not be included in the bill appropriating money for the operation of the legislature, commonly referred to as the "feed bill".

History: En. Sec. 3, Ch. 618, L. 1979.

17-7-306 through 17-7-310 reserved.

17-7-311. Proposed fiscal year transfer supplemental appropriation — procedure. (1) A proposed supplemental appropriation to transfer appropriations between fiscal years of a biennium and all supporting documentation must be submitted to the legislative fiscal analyst. The governor may not approve a proposed fiscal year transfer supplemental appropriation until the governor receives the legislative finance committee's written report for that proposed fiscal year transfer supplemental appropriation unless:

(a) the report is not received within 90 calendar days from the date the proposed fiscal year transfer supplemental appropriation and supporting documentation were forwarded to the legislative finance committee, in which case the governor may approve the proposed fiscal year transfer supplemental appropriation; or

(b) there has been a waiver of the review and report requirements, as provided in subsection (4).

(2) The legislative fiscal analyst shall review each proposed fiscal year transfer supplemental appropriation submitted by the governor for compliance with statutory requirements and standards and to determine the expenditures that will be reduced in order to contain spending within legislative appropriations. The legislative fiscal analyst shall present a written report of this review to the legislative finance committee. Within 10 days after the legislative finance committee's consideration of the proposed fiscal year transfer supplemental appropriation, the legislative fiscal analyst shall submit the legislative finance committee's report to the governor.

(3) Upon receipt of the legislative finance committee's written report, the governor may approve or deny the proposed fiscal year transfer supplemental appropriation or may return the proposed fiscal year transfer supplemental appropriation to the requesting agency for further information. If the governor has returned the proposed fiscal year transfer supplemental appropriation to the requesting agency and the requesting agency resubmits the proposed

fiscal year transfer supplemental appropriation to the governor, all procedures provided in this section apply to the resubmitted proposed fiscal year transfer supplemental appropriation.

(4) (a) If an emergency occurs that poses a serious threat to the life, health, or safety of the public, the legislative fiscal analyst may waive the written review and the legislative finance committee's written report required by this section. After a waiver, the legislative fiscal analyst may complete the written review.

(b) Upon receipt of the waiver, the governor may approve the proposed fiscal year transfer supplemental appropriation.

(c) A waiver affects only the legislative fiscal analyst's written review and the legislative finance committee's written report on the proposed fiscal year transfer supplemental appropriation. All other proposed fiscal year transfer supplemental appropriation requirements and standards remain in effect.

(5) Nothing in this part confers on the legislative finance committee authority to approve or deny a proposed fiscal year transfer supplemental appropriation.

17-8-101. Appropriation and disbursement of money from treasury. (1) For purposes of complying with Article VIII, section 14, of the Montana constitution, money deposited in the general fund, the special revenue fund type (except money deposited in the treasury from nonstate and nonfederal sources restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation), and the capital projects fund type, with the exception of refunds authorized in subsection (4), may be paid out of the treasury only on appropriation made by law.

(2) Subject to the provisions of subsection (8), money deposited in the enterprise fund type, debt service fund type, internal service fund type, private purpose trust fund type, custodial fund type, and state special revenue fund from nonstate and nonfederal sources restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation, may be paid out of the treasury:

(a) by appropriation; or

(b) under general laws, or contracts entered into in pursuance of law, permitting the disbursement if a subclass is established on the state financial system.

(3) The pension trust fund type is not considered a part of the state treasury for appropriation purposes. Money deposited in the pension trust fund type may be paid out of the treasury pursuant to general laws, trust agreement, or contract.

(4) Money paid into the state treasury through error or under circumstances such that the state is not legally entitled to retain it and a refund procedure is not otherwise provided by law may be refunded upon the submission of a verified claim approved by the department.

(5) Authority to expend appropriated money may be transferred from one state agency to another, provided that the original purpose of the appropriation is maintained.

(6) Fees and charges for services deposited in the internal service fund type must be based upon commensurate costs. The legislative auditor, during regularly scheduled audits of state agencies, shall audit and report on the reasonableness of internal service fund type fees and charges and on the fund equity balances.

(7) The creation of accounts in the enterprise fund or the internal service fund must be approved by the department, using conformity with generally accepted accounting principles as the primary approval criteria. The department shall report annually to the office of budget and program planning and the legislative fiscal analyst on the nature, status, and justification for all new accounts in the enterprise fund and the internal service fund. The report must be provided in an electronic format.

(8) Enterprise and internal service funds must be appropriated if they are used as a part of a program that is not an enterprise or internal service function and that otherwise requires an appropriation. An enterprise fund that is required by law to transfer money to the general fund or to any other appropriated fund is subject to appropriation. The payment of funds into an internal service fund must be authorized by law.

(5) Whether or not the government attorney proceeds with the action, if the court finds that the action was brought by a person who planned and initiated the violation of 17-8-403, the court may, to the extent the court considers appropriate, reduce or eliminate the share of the proceeds of the action that the person would otherwise receive pursuant to subsections (1) through (4) of this section, taking into account the role of the person in advancing the case to litigation and any relevant circumstances pertaining to the violation. If the person bringing the action is convicted of criminal conduct arising from the person's role in the violation of this part, the person must be dismissed from the civil action and may not receive any share of the proceeds of the action. The dismissal does not prejudice the right of the government attorney to continue the action.

(6) The governmental entity is entitled to any damages and civil penalty not awarded to the person. Any damages and civil penalties that remain after calculation and distribution to the person under subsections (1) through (5) must be distributed first to fully reimburse any losses suffered by the governmental entity as a result of the defendant's actions, and the remainder of the damages and any civil penalty must be deposited in the general fund of the governmental entity. Reimbursement must be made to the trust fund or program of the governmental entity that suffered the loss. If more than one trust fund or program suffered a loss and there are not enough recovered funds to fully reimburse each, then the distribution must be proportionate.

(7) Unless otherwise provided, the remedies or penalties provided by this part are cumulative to each other and to the remedies or penalties available under all other laws of the state.

17-8-411. Costs and attorney fees. The governmental entity that filed a civil action or intervened is entitled to reasonable costs and attorney fees if the action is settled favorably for the governmental entity or the governmental entity prevails. In an action in which outside counsel is engaged by a government attorney, the costs and attorney fees awarded to that counsel must equal the outside counsel's charges reasonably incurred for costs and attorney fees in prosecuting the action. In any other actions in which costs and attorney fees are awarded to the governmental entity, they must be calculated by reference to the hourly rate charged by the department of justice agency legal services bureau for the provision of legal services to state agencies, multiplied by the number of attorney hours devoted to the prosecution of the action, plus the actual cost of any expenses reasonably incurred in the prosecution of the action. A person who is a plaintiff or coplaintiff is entitled to reasonable expenses that the court finds to have been necessarily incurred, plus reasonable costs and attorney fees, if the action is settled favorably for the governmental entity or the governmental entity prevails in the action. A defendant in a civil action brought pursuant to this part who prevails in an action that is not settled and that the court finds was clearly frivolous or brought solely for harassment purposes is entitled to the defendant's reasonable costs and attorney fees. If the governmental entity does not intervene, it is not responsible for any of the defendant's fees and costs.

History: **En. Sec. 11, Ch. 465, L. 2005; amd. Sec. 8, Ch. 64, L. 2009; amd. Sec. 5, Ch. 388, L. 2013.**

17-8-412. Retaliatory actions prohibited — remedies. (1) A governmental entity, private entity, or person may not adopt or enforce a rule, regulation, or policy preventing an employee, agent, or contractor from disclosing information to a government or law enforcement agency with regard to or from acting in furtherance of an investigation of a violation of 17-8-403 or an action brought pursuant to 17-8-405 or 17-8-406.

(2) A governmental entity, private entity, or person may not discharge, demote, suspend, threaten, harass, or deny promotion to or in any other manner discriminate against an employee, agent, or contractor in the terms and conditions of employment, agency, or contract because of the disclosure by the employee, agent, or contractor of information to a government or law enforcement agency pertaining to a violation of 17-8-403.

(3) An employee, contractor, or agent is entitled to all relief necessary to make the employee, contractor, or agent whole if the employee, contractor, or agent is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms and conditions of employment because of lawful acts done by the employee, contractor, or agent or associated others in furtherance of an action under this part or other efforts to stop one or more violations of this part.

(4) Relief under subsection (3) includes reinstatement with the same seniority status the employee, contractor, or agent would have had but for the discrimination, two times the amount of back pay, interest on the back pay, and compensation for any special damages sustained as a result of the discrimination, including litigation costs and reasonable attorney fees. A civil action may be brought in the appropriate district court of the state for the relief provided in this subsection.

(5) A civil action under this section may not be brought more than 3 years after the date on which the retaliation occurred.

History: **En. Sec. 12, Ch. 465, L. 2005; amd. Sec. 9, Ch. 64, L. 2009; amd. Sec. 6, Ch. 388, L. 2013.**

17-8-413. Settlement by government attorney. A government attorney may settle the case with a defendant notwithstanding the objections of the persons who initiated the action if the court determines, after a hearing, that the settlement is fair, adequate, and reasonable under the circumstances. Upon a showing of good cause, the hearing may be held in camera.

History: En. Sec. 10, Ch. 64, L. 2009.

17-8-416. Reporting. The attorney general shall submit to the law and justice interim committee a report in accordance with 5-11-210 containing the following information:

(1) the number of cases filed under the Montana False Claims Act, Title 17, chapter 8, part 4, that were pending in the state during the previous calendar year;
